Agenda – 6 Reference is invited to Agenda 10 of the 23rd G.B. meeting held on 23.02.2001. Keeping in mind the economic circular of the Government, it was agreed that the average consumption of fuel in respect of the vehicles hired by SUDA will not exceed 8 (eight) litres a day. It has been experienced that for obvious reasons all hired vehicles of SUDA are not running equally in each month and for this it is proposed, the average fuel consumption of all the SUDA cars taking together will not exceed 8 (eight) litres per day. This matter was deferred. Re-opened for approval.	**Individual cases for excess consumption of fuel may be put up with reason to Chairman, SUDA, for approval.**

Agenda – 7 It has been our experience that SUDA has to incur extra expenditure on account of immediate purchase of important instruments/ computers and stationery articles for SUDA as well as for the Deptt. itself. In most cases, such articles become too urgent and obvious to complete the work of installation in a very short time when there is hardly any scope for inviting tenders. It is proposed that such purchases may be made inviting quotations in lieu of tenders on the basis of the lowest rate in cases where the cost exceeds Rs.20,000/-. For approval, as a special case.	**Individual cases may be put up with reason to Chairman, SUDA, for approval.**
Agenda –8 Reference is invited to Agenda 17 of 23rd G.B.meeting held on 23.02.2001, where constant auditing instead of starting the audit after completion of the year was approved. As regards GIS work in 30 municipalities with UNICEF assistance, tender (NIT No.SUDA-67/2000 (Pt.II)/698 dated 08.09.2000) was called with different items and the lowest rate quoted against each item was chosen for awarding works to different agencies, who participated in the tender, as it was ascertained by the Techincal Expert, Shri T.K.Ghatak that one firm would not be able to implement the total work of 30 municipalities.	**Approved**

Sir,

Fifty two municipalities of West Bengal are at present going under the process of implementation of GIS, and they are in different stages of implementation.
