## Introductory Note by Hon'ble Chairperson

Good governance is essential for sustainable economic and social development through transparency, accountability and responsiveness of the administration. In the 74<sup>th</sup> Constitution Amendment Act 1992, stress is put on Urban Local Bodies (ULBs) to ensure better service delivery to the citizens. The West Bengal Municipal Act, 1993 and the subsequent amendment made in 1998 clearly envisaged that the Urban Local Bodies are required to prepare Draft Development Plan covering a period of 5 years.

In this background, to get experience and simply the courage to tide over such problems, our municipal officials and elected representatives have visited all wards and it's all slum after receiving the **House for All** programme which was announced by the Central Government.

In tune with the time frame we have formulated the municipal vision and sub component wise development objectives for effective and efficient municipal performances in respect of both the service and development systems.

The DPG and the DTGs have very skilfully utilized their experience and expertise on one hand, and the services reports, proposal received from different stake holders at different stages on the other. They have successfully taped local technical resources and technical persons by way of involving them in the HFAPOA preparation process. All this, it is felt, has made the plan preparation activities more realistic and commensurate with the socio economic needs and aspirations of the citizens at large, albeit always keeping in mind the overall organizational capacity and financial resources of the municipality. In other words, the board perspective has all along been comprehensive development for citizens irrespective of their socio economic background and strengthening the municipal organization to be capable of addressing citizens charters rolled out through various projects encompassing all the sub components.

It is heartening to note that in all our endeavours people's participation including the poorest of the poor and the minorities has been ensured for the project of Housing for All. A number of workshops conducted with people from economically backward section have made us realise about the hurdles they experience in their day-to-day life. People's enlightenment through the planning process is a new and encouraging phenomenon to be of immense help in the future years also.

Over and above this, much emphasis has been laid on identifying and prioritising issues and interventions, involving the citizens and others the stakeholders down to the not only ward level

## ASHOKENAGAR-KALYANGARH MUNICIPALITY

as well as para level before finalizing the project proposals and validation of House for all projects with other infrastructures which will be implemented by AMRUT and other funds. In fine, the whole thing was placed before the specially covered meeting of the board of councillors; while after threadbare discussion and due consideration passed the **HFAPOA** for submission to **SLSMC**.

Preparation of **Housing For All Plan of Action** along with, its implementation and monitoring opened a new challenge to us – the challenge of providing all basic services to all people and ensuring equitable socio-economic development of the people of our ULB.

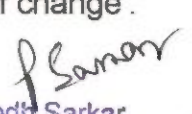

In spite of our best efforts there might occur some lacunae, which may be construed as normal human fallibilities. **Any suggestion received from SLSMC in this regard shall be adhered to and incorporated in the HFAPOA by the Board of Councillors.**

**We are particularly indebted to Director SUDA** and others officials for their all-out support during the stages of the plan preparation.

We are also indebted to all our Municipal Staff including the Nodal Officer, Councillors, Ward Committee members, members of the Senior Citizens, Medical Practitioners, Educationists, Business Houses, Traders Associations, CDS Organization, Cultural Organization, Trade Unions and NGOs operating in our municipal area for their continuing work and co-optation.

**We also express our thankfulness to the Municipal Affairs Department Government of West Bengal & Ministry of Housing & Poverty Alleviation, Govt. of India for its valuable training & guidance.**

Last but not least, we take this opportunity to express our deep sense of thankfulness to the people of our locality who, in spite of their limitations, took part with zeal in the awareness campaigns, meetings and workshops, and proved that they were not merely 'people with needs', but could also 'given the opportunity, think, assess, evaluate and inspire' and 'act as agents of change'.

## PREFACE

**Pradhan Mantri Awas Yojana (PMAY) aims at Providing Housing for All (HFA) by 2022 when the Nation Complete 75 years of its independence.**

The urban homeless persons contribute to the economy of the cities and thus the Nation as cheap labour in the informal sector; yet they live with no shelter or social security . The urban homeless service with many challenges like no access to elementary Public Services such as health, education, food, water and sanitation. Pradhan Mantri Awas Yojana (PMAY) also aims at providing a pucca house to every family with water connection, toilet facilities, 24 X 7 electricity supply and access.

The Mission seeks to address the housing requirement of urban poor including slum dwellers through “In Situ” Slum Redevelopment, Affordable Housing through credit linked subsidy, Affordable Housing in partnership and subsidy for beneficiary led individual house. Under the mission, beneficiaries can take advantage under one component only.

Pradhan Mantri Awas Yojana (PMAY) aims at Providing Housing for All (HFA) by 2022 when the Nation Complete 75 years of its independence, **ASHOKENAGAR-KALYANGARH MUNICIPALITY of North 24 Parganas** District has been selected for inclusion in the initial phase during the current fiscal year.

It is anticipated that the introduction of the programme will go a long way to upgrade and improve the basic urban infrastructure including the Poverty Sector. The ULB will be capable of utilizing the success of the programme for further Municipal developmental works and up gradation of the quality of Civic life. It will also help the ULB to become self-reliant and ultimately the town will be a potential generator of economic momentum and activities in the desired direction.

The town has 123 nos. of slums in total. This project report has been prepared for this second phase of 123 for a tentative outlay of **Rs. 8804.40 lakhs**. The physical schemes for this town have been identified on the basis of preliminary assessment, which will be befitting with the final and Comprehensive Development Project Plan for the entire town, which is under process.

## **HFAPoA and Pradhan Mantri Awas Yojana (Housing for All)**

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to „achieve significant improvement in the lives of slum dwellers, by 2022 . Similar goals are set forth by Pradhan Mantri Awas Yojana within year 2022, to create pucca house for every family.

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals.

The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies also consider the affordable housing stock already available in the city as Census data suggests that large number of houses are vacant.

Bank account number and Aadhaar number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary"s native district integrate in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries is validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects.

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalising the plans and beneficiary list.

The preparation of HFAPoA broadly involve Slum Development/Rehabilitation Plans based on..

- a. Survey of all slums – notified and non-notified;
- b. Mapping of slums using the state-of-art technology;
- c. Integration of geo-spatial and socio-economic data; and
- d. Identification of development model proposed for each slum.
  1. Base maps to an appropriate scale would be a pre-requisite for the preparation of Slum Development Plan/Slum-free City Plan. States/UTs may need to proceed in the following steps for the preparation of Slum-free City Plans.
  2. Securing CARTOSAT II / latest satellite images from NRSC/ISRO and preparation of base maps for the whole city and its fringes using the images;
  3. Identification and inventory of all slum clusters of all descriptions in the urban agglomeration with the help of satellite image and other available data;
  4. Inventory of all possible vacant lands in each zone of the urban agglomeration that could be used for slum development/ rehabilitation development purposes;
  5. Development of Slum Map of every slum within the city and its fringes using GIS with CARTOSAT II images, ground level spatial data collected through total station survey, collating spatial information with respect to plot boundaries, network of basic

infrastructure like roads, sewerage, storm drainage and water lines, etc and superimposing this on the satellite image and importing them into GIS platform as the first step towards the preparation of Slum Development Plans and Slum Free City Plan.

6. This may be undertaken with the help of technical partners of NRSC/ ISRO/other technical institutions.

7. Identification and engagement of Lead NGO/CBO to guide and anchor community mobilization for the purpose of slum survey, (May be more than one NGO/CBO in different slum zones) of the city. These Lead NGOs/CBOs should also be associated in slum survey operations and dialogues for preparation of slum level development plans;

8. Conduct of Slum Survey based on the detailed formats (with or without changes) prepared by the Ministry of Housing & Urban Poverty Alleviation with the help of National Buildings Organization (NBO) - after due training of trainers, training of survey personnel /canners and canvassing. It would be helpful for community mobilization to pick as many canvassers from the sourced slum or nearby slum pockets;

9. Collection of bio-metric identification data of slum dwellers based on the above survey (subject to guidelines issued by Unique Identity Authority of India (UIDAI));

10. Entry of data from Slum Surveys in the web-enabled MIS application (to be provided by Ministry of HUPA), compilation and collation of data, preparation of Slum-wise, City and State Slum Survey Database and Baseline Reports. The MIS will assist in developing a robust Slum and Slum Households Information System. (Guidelines and software for development of the MIS will be issued by the Ministry of HUPA);

11. Integration of Slum MIS with GIS Maps to enable the preparation of GIS-enabled Slum Information System that is to be used for the preparation of meaningful Slum Development Plans and Slum-free City Plan using a city-wide/zone-based approach.(Guidelines and software for development of GIS platform and its integration with the MIS will be issued by the Ministry of HUPA);

## Introduction to Pradhan Mantri Awas Yojana (PMAY)

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a „Pucca house to every family“ through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town.
- Redressing the failures of the formal system that lie behind the creation of slums.
- Tackling the shortages of urban land and housing that keep shelter out of reach of the urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.
- Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.
- An integrated approach covering shelter, services and livelihoods for poor slum communities.

Prabodh Sarkar  
Chairman

Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

## Project Cost and Financing Strategy

### For Dwelling Unit

Total no of Dwelling unit = 2175 Nos.

Rate per Dwelling unit = 3.68 Lakhs.

Total Cost of Dwelling unit =  $2175 \times 3.68 = 8004.00$  Lakhs.

Central Share =  $2175 \times 1.5$  Lakhs = 3262.5 Lakhs.

State Share =  $2175 \times 1.93$  Lakhs = 4197.75 Lakhs.

Beneficiary Share =  $2175 \times 0.25$  Lakhs = 543.75 Lakhs.

ULB Share = NIL.

### For Infrastructure

10 % of total Dwelling unit cost =  $8004.00$  Lakhs  $\times 10\% = 800.4$  Lakhs.

Central Share = NIL.

State Share =  $50\% \times 800.4$  Lakhs = 400.2 Lakhs.

Beneficiary Share = NIL.

ULB Share =  $50\% \times 800.4$  Lakhs = 400.2 Lakhs.

**The total project cost will be 88.044 Crores**

Out of these 88.044 Crores is the cost of Housing Infrastructure. The following table shows the share of cost between housing infrastructure & Physical Infrastructure.

**Table: Cost Break up between Housing & Infrastructure**

| S/N | Component                          | Cost on Lakhs  |
|-----|------------------------------------|----------------|
| 1.  | Housing Cost(2175)(Dwelling Units) | 8004.00        |
| 2.  | Infrastructure Cost                | 800.4          |
|     | <b>Total</b>                       | <b>8804.40</b> |

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

The people living in the slums mostly have kutcha (10) and semi-pucca (186) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutcha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

## Proposed Intervention

In line with the vision to 'housing for all', an integrated housing programme is proposed to be implemented. The target will be all the slum /Non Slum dwellers in the pocket.

## Building Plan

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed.

## Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws.

## Building material

- ☐ PCC (1:3:6) for foundation
- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel
- ☐ 1<sup>st</sup> class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

## Structural Design

- ☐ Following are the general considerations in the analysis/design.
- ☐ For all structural elements, M20 grade concrete and Fe 415 grade of steel is used.
- ☐ Plinth beams passing through columns are provided as tie beams.

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

- ☐ Pedestals are proposed up to ground level.
- ☐ Beam Centre-line dimensions are followed for analysis and design.
- ☐ For all the building, walls of 250 mm and 125mm thick with 20 mm External plaster and 12 mm thick internal plaster are considered.
- ☐ Seismic loads are considered acting in the horizontal direction along either of the two principal directions.

## Design data

- ☐ Live load: 2.0 kN/m<sup>2</sup> at typical floor
- ☐ 1.5 kN/m<sup>2</sup> on terrace (With Access) : 0.75 kN/m<sup>2</sup> on terrace (without Access)
- ☐ Floor finish 50mm (0.05\*24) = : 1.2 kN/m<sup>2</sup>
- ☐ Ceiling plaster 12mm (0.012\*20.8) : 0.25 kN/m<sup>2</sup>
- ☐ Partition walls (Wherever Necessary) : 1.0 kN/m<sup>2</sup>
- ☐ Terrace finish: 1.5 kN/m<sup>2</sup>
- ☐ Earthquake load: As per IS-1893 (Part 1) - 2002
- ☐ Depth of foundation below ground: ,0.7 m
- ☐ Walls: 250 mm thick brick masonry walls at external and 125mm walls internal.

## Reference codes:

- ☐ IS 456: 2000 - Code of practice -Plain and Reinforced concrete.
- ☐ IS :1893 :2002 - Criteria for Earthquake resistant design of structures(Part-1)
- ☐ IS: 13920: 1993 - Ductile detailing of Reinforced concrete structures subjected to seismic forces.
- ☐ SP: 34 - Hand Book on Concrete Reinforcement and Detailing.
- ☐ S: 875: 1987 - Code of practice for design loads (other than earthquake) for buildings and structures. (Part-2)

Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

## ***The duration of Pradhan Mantri Awas Yojana [PMAY] 2015 TO 2022***

### ***Eligible Components of the PMAY:***

#### **Allotment of Houses**

Allotment of dwelling units will be in the name of the female member of the family. Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land required for every Beneficiary.

A EWS beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission. EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.

Following infrastructure will be considered for support under PMAY:

1. Water connection
2. Toilet facilities
3. 24 x 7 Electric facilities
4. Roads

#### **Need for Projects**

This development project models will give benefits in the city. One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor.

#### **Such innovation could encompass:**

- Projects with strong community participation i.e. Slum up gradation/ redevelopment projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation
- New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence.
- Innovative or cost effective and green building design and technologies.
- Financial innovations in delivering the city/state wide programme.

#### **Aims and Objectives**

##### **Vision**

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

##### **Objectives**

The project has been designed keeping in mind the following objectives.

- ❖ Integrated development of all existing slums, notified or non-notified, i.e., development of

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

infrastructure and housing in the slums/rehabilitation colonies for the slum dwellers/urban poor, including rental housing.

- ❖ Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road, street lighting.

- ❖ The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership.

- ❖ Encouraging Public Private Partnership by having pay and use toilets and educate the slum dwellers for keeping the environment clean and hygienic.

## State PMAY Mission Director

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India.

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. State Urban Development Agency was set up in 1991 with a view to ensuring proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SUDA is a Society registered under the West Bengal Societies Registration Act, 1961.

## Funding Pattern of PMAY

Funding pattern for PMAY(Housing for all)

- Central share 1.5 LAKHS of total cost of dwelling unit
- Beneficiary share 0.25 LAKHS of total cost of dwelling unit
- State share rest of total cost of dwelling unit
- State + ULB bear the cost of infrastructure
- State share for infrastructure to be minimum 5%
- ULB share for infrastructure to be minimum 5%
- Cost of infrastructure 10 % of sum total cost of dwelling unit

## Approvals & Release of Funds

- Releases and approvals to be on the basis of DPRs which need to be submitted with approval of State Level Sanctioning and Monitoring Committee
- Innovative projects to be considered for sanction even in the preparatory stage.
- Central Funds to be released in three instalments to the State Governments/SLNA; central assistance under different components will be released to the state / UTs after the approval of CSMC and with concurrence of the integrated Financial Division of the Ministry. Central share would be released in three instalment of 40%,40% and 20% each.

## Building Plan

The buildings are proposed to cover an area of approximate 32 Sq. Mts along with provision of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 Sq. Mts and preferably two room accommodation plus kitchen and toilet should be constructed.

## Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws.

## Building material

- ☐ PCC (1:3:6) for foundation
- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

- ☐ 1st class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

## Structural Design

- ☐ Following are the general considerations in the analysis/design.
- ☐ For all structural elements, M20 grade concrete and Fe 415 grade of steel is used.
- ☐ Plinth beams passing through columns are provided as tie beams.
- ☐ Pedestals are proposed up to ground level.
- ☐ Beam Centre-line dimensions are followed for analysis and design.
- ☐ For all the building, walls of 250 mm and 125mm thick with 20 mm External plaster and 12 mm thick internal plaster are considered.
- ☐ Seismic loads are considered acting in the horizontal direction along either of the two principal directions.

## Design data

- ☐ Live load: 2.0 kN/m<sup>2</sup> at typical floor
- ☐ 1.5 kN/m<sup>2</sup> on terrace (With Access) : 0.75 kN/m<sup>2</sup> on terrace (without Access)
- ☐ Floor finish 50mm (0.05\*24) = : 1.2 kN/m<sup>2</sup>
- ☐ Ceiling plaster 12mm (0.012\*20.8) : 0.25 kN/m<sup>2</sup>
- ☐ Partition walls (Wherever Necessary) : 1.0 kN/m<sup>2</sup>
- ☐ Terrace finish: 1.5 kN/m<sup>2</sup>
- ☐ Earthquake load: As per IS-1893 (Part 1) - 2002
- ☐ Depth of foundation below ground: ,0.7 m
- ☐ Walls: 250 mm thick brick masonry walls at external and 125mm walls internal.

## Reference codes:

- ☐ IS 456: 2000 - Code of practice -Plain and Reinforced concrete.
- ☐ IS :1893 :2002 - Criteria for Earthquake resistant design of structures(Part-1)
- ☐ IS: 13920: 1993 - Ductile detailing of Reinforced concrete structures subjected to seismic forces.
- ☐ SP: 34 - Hand Book on Concrete Reinforcement and Detailing.
- ☐ S: 875: 1987 - Code of practice for design loads (other than earthquake) for buildings and structures. (Part-2)

## Working Definitions

|                                  |  |
|----------------------------------|--|
| Affordable Housing Project:      | Housing Projects where 35 % of the houses are constructed for EWS category   |
| Beneficiary                      | A beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his//her name or in the name of any member of his/her family in any part of India                              |
| Carpet Area                      | Area enclosed within the walls, actual area to lay carpet. This area does not include the thickness of the inner walls.  |
| Central Nodal Agencies           | Nodal Agencies identified by Ministry for the purposes of implementation of Credit Linked subsidy component of the mission   |
| Economically Weaker Section(EWS) | EWS households are defined as households having an annual income up to Rs 3, 00,000(Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre  |
| EWS House                        | An all-weather single unit or a unit in a multi storeyed super structure having carpet area of upto 30 sq.m. with adequate basic civic services and infrastructure services like toilet , water, electricity etc. States can determine the area of EWS as per their local needs with |

 Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

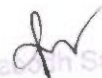

## 1. Situation assessment for HFAPoA

### 1.1 Background

After the partition of Bengal, a section of people, though much in number, settled in and around erstwhile Habra P.S. areas of West Bengal. In 1955, after a popular agitation, Kalyangarh the Government sponsored refugee settlement was declared urban status; however not municipal area, yet the then Government declared its responsibilities to urbanise the roads, drainage, sanitation, etc. With utter dissatisfaction of the people, no work for urbanisation was really undertaken in the decade of sixties. Subsequently in the year 1968, Ashokenagar-Kalyangarh Municipality was created. This municipality is situated within Ashokenagar police station under Barasat Sub-division of the district of North 24-Parganas.

Overall Municipal Vision for efficient and effective municipal performance

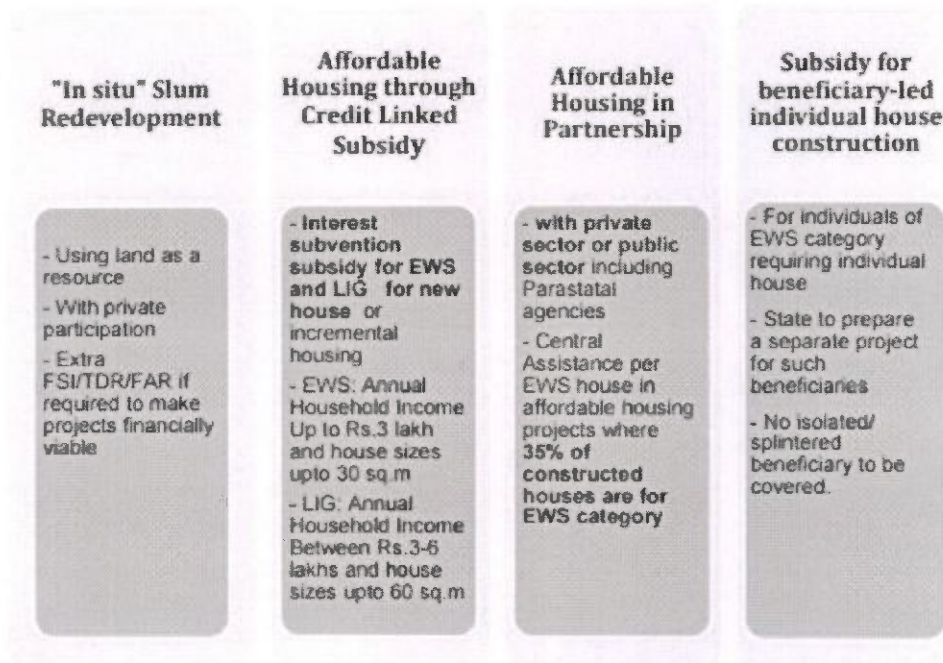

- Ashokenagar-Kalyangarh Municipality aspires to retain and develop its culture, education and social heritage along with its environmentally clean and green open spaces.
- Our municipality wants to provide healthy life style to all the people living in its area through sufficient and equitable access to basic services and civic amenities like safe drinking water, better transport system, and improved sanitation by way of enhanced drainage system and solid waste management.
- Our municipality wants to develop sustainable society by further building its social infrastructure, thereby creating conducive environment for entrepreneurship growth and future investment.
- "Housing for All" Mission for urban area will be implemented during 2015-2022 and this Mission will provide central assistance to implementing agencies through States and UTs for providing houses to all eligible families/beneficiaries by 2022.
- Mission will be implemented as Centrally Sponsored Scheme (CSS) except for the component of credit linked subsidy which will be implemented as a Central Sector Scheme.
- A beneficiary family will comprise husband, wife, unmarried sons and/or unmarried daughters. The beneficiary family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.
- States/UTs, at their discretion, may decide a cut-off date on which beneficiaries need to be resident of that urban area for being eligible to take benefits under the scheme.
- Mission with all its component has become effective from the date 17.06.2015 and will be 1.5 implemented upto 31.03.2022.

  
Prasen Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

## 1.2 Approach and Methodology

*(Process Mapping, Field work documentation, workshop details etc)*

The Mission will be implemented through four verticals giving option to beneficiaries, ULBs and State Governments. These four verticals are as below:

## Methodology

The HFAPOA proposals have been prepared based on the analysis of different primary data gathered from socio-economic household survey, field visits and interview with the identified groups. The proposals have been prepared based on requirements of the citizens came out of different sensitization programmes, ward and municipality level workshops, Focus Group Discussion (FGD), and different in-depth interviews with the concerned stakeholders. The methodology has been shown in a graphical presentation as given below:

The preparation of HFAPOA was divided into four stages. The four stages mark the following:

**Stage I:** In this stage, the HFA was launched within the municipality. This had a great importance in the HFAPOA preparation, as its preparation involved all-round participatory effort.

Praboth Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

## ASHOKENAGAR-KALYANGARH MUNICIPALITY

**Stage II:** During this stage, efforts were made for collection of different materials, data, conducting different surveys, focus group discussions and stakeholder and ward level consultations. All these were then collated to arrive at a subcomponent level plan.

**Stage III:** At this stage, the subcomponent level plans were collated to have a component level plan and finally drafting of the **plan of action**.

**Stage IV:** This involved the public validation of the finalized HFAPOA and seek for due approval from the Board of Councillors.

The tools and techniques used to design the plan document are summarised below:

- Study of secondary data and other information available from different sources
- Collection of primary data through surveys with structured questionnaire
- In depth discussion
- Transect walk
- Focused Group Discussions
- Stakeholders' Meetings

  
Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

## 1.2.1 Stakeholders Consultative Workshop / Meetings :

Picture 1

Picture 2

Picture 3

Picture 4

Summary: The project papers have been prepared after through communications with the Hon'ble Councillors, concerned municipal officers, supervisors, enumerators and the target stakeholders. The area under the municipality mostly populated by person'srehabilee from East Pakistan (now Bangladesh). Most of them belong to EWS and as suchthey have considered the project as a boon to them.

  
Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

## 1.3. City Profile and Overview

*(Write in very brief about History, Year of Establishment of Municipality/Municipal Corporation, Administrative Boundaries, Demographic profile in brief, Linkages of Rail/Road/Port/ Air, Places of Interest etc.)*

### INTRODUCTION OF THE MUNICIPALITY

In the year 1968, Ashokenagar-Kalyangarh Municipality was created. This municipality is situated within Ashokenagar police station under Barasat Sub-division of the district of North 24-Parganas. This municipality is situated within Ashokenagar police station under Barasat Sub-division of the district of North 24-Parganas. This municipality has an area of 20.50 sq. km. comprising of 23 wards, 123 slums and 30836 numbers of holdings. A major part of the population falls under EWS.

Predominantly this is a domestic town. People move to capital cities and industrial areas like Kolkata, Kalyani, Barrackpore, etc. to earn their livelihood. Normal markets and business have grown to cater the needs of the citizens of this town. The three main market complexes within this town are Golbazar Market Complex, Kachua Agricultural Market Complex and Building More Super Market Complex. Besides, there are several self-help groups, women folks, artisans and craftsmen who are engaged in small scale production of jewellery boxes, garments and different kinds of decorative items.

### Special Features of the City and ULB:

This municipal town is well known for its following special features:-

1. One State General Hospital named as Ashokenagar State General Hospital.
2. Two Municipal owned healthcare organizations named as Prajnanananda Saraswati Seba Sadan another Eye Hospital and Eight numbers sub health Centres under the scheme of Community Based Primary Health Care.
3. Sixty two number of primary schools, five junior high schools, sixteen high schools.
4. Four colleges viz. i) Gandhi Centenary B.T. College, ii) Sri Chaitanya College of Commerce iii) Swami Vivekananda College for Management and Technology and iv) Netaji Satabarshiki Mahabidyalay.
5. Two reputed Municipal amusement and Entertainment Park one named as **Sanhati Park** and the other named as **Millennium Science Park**.
6. A town hall named as Sahid Sadan with seating arrangement of 1090 heads.
7. Two Municipal marriage-cum-guest house named as Jay-Jayanti and Charui Bhati and one private Cinema hall.
8. Three main municipal market complexes viz. i) Ashokenagar Golbazar Market Complex ii) Kachha Agricultural Market Complex and iii) Building More Super Market Complex and other six open markets.
9. One Big stadium
10. One gym named as Sutanu Multi gym (Ladies & Gents).
11. A big swimming Pool.
12. One burning ghat.

  
Prabodh Sarkar  
Chairman

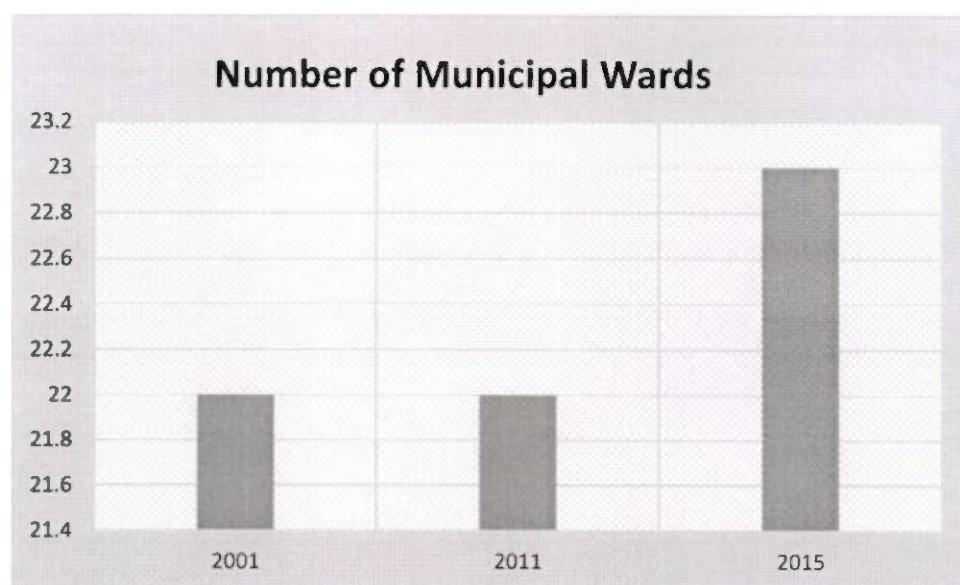

Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

## 1.4. Housing and Physical Infrastructure profile

*((Existing Housing stock, land availability, land use, construction cost, Housing typologies, information on current city housing projects etc*

*Spatial coverage and adequacy of Water supply, solid waste management, Sewerage, storm water drainage etc.,)*

At the moment the total housing stock under the municipality is 30836 comprising of the under noted types:

Existing housing stock including typologies:

Total Houses in this ULB: 30836

- a) Pucca house: 20208
- b) Semi Pucca: 5860
- c) Katcha: 4768

It transpires from the above that a large part of the inhabitants need the housing support as envisaged. The area under the municipality covers a wide range of tenable slums. Majority of them hold Govt. allotted land and plenty of suitable of open space is available for implementation of the project under consideration. A detailed land map is shown below.

The project can be conveniently in the locality as the availability of construction works force is huge number at comparatively economical rates. It can be safe the concluded that the project can be completed with the estimated rate of Rs.11666/ per sq.m. without involving any price escalation in future.

### Development objective:

#### Water Supply :

1. To ensure arsenic free potable ground water through municipal pipelines by installation of big dia. tube wells.
2. To develop a water treatment plant for recycling of waste water, harvesting of rain water and purification of potable ground water.
3. To switch over to supply of surface water to the tune of 135 lt./capita/day. However, to ensure no wastage of water, a measurement mechanism of supplied water is to be arranged to cover up all section of population by this planning period by AMRUT.
4. To ensure arsenic free water supply altogether by this planning period.

#### Sewerage & Sanitation:

1. To provide low cost sanitary latrines to all the uncovered households in the municipal area by this planning period.

  
Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

2. A sustained planning for underground sewerage system is to be launched to cover all the households by next five years in a phased manner by AMRUT.

## Drainage System:

1. We are to identify the outfall of drainage and already prepared a master plan for drainage system of the entire municipal area and construct the modern drainage system by this planning period by AMRUT.
2. To connect the low-depth drains to the high drains and inter connect entire drainage channel.
3. The settlements from the low-lying pockets will be relocated by providing land/housing facilities.

## Solid Waste Management:

1. To prevent disposal of waste by the side of roads, markets and to arrange collection of wastes from house to house in the entire municipal area.
2. To develop a **SOLID WASTE MANAGEMENT & PROCESSING PLANT** wherein the collected wastes will be segregated into bio-degradable and non-bio-degradable categories. Processing of wastes are to maintained in this treatment unit.
3. To produce manures from the organic wastes and supply these for agricultural and commercial purposes.
4. To use the non-bio-degradable wastes and imperishable plastics for repairing and construction of roads.

## **1.5. Assessment of Present Status of Slums**

*(Include brief description of slums in the ULB including growth patterns, status of notified/non-notified slums, ward wise slum details and brief slum profile*

### **1.5.1. Slum Profile and its Location**

*(Including slum dwelling unit density, land values, land ownership and tenure status of the slums)*

Details report shown in the table no.8

| Ward Number | Slum Code | Slum Name                   | Number of total Households(Including Pucca ) | AREA in Sq Mtr |
|-------------|-----------|-----------------------------|--|----------------|
| 1           | 1         | BANBANIA (EAST)(S-1)        | 144  | 112000         |

## 1.5.2. Summary of Findings of Demand Survey

It is needless to reiterate here that the demand of 9627 new and enhancement in the first phase is considered reasonable commensurate with size and volume of target groups. During the pendency of first phase of operation the preparation of details survey works and submission of 2<sup>nd</sup> phase of project report so that the programme can be implemented in a scientific sequence.

## 1.5.3. Broad infrastructure status in slum areas

*(It shall describe broad slum infrastructure status and future program related to infrastructure development where slum will be benefited)*

It has been decided by municipality to implement the undernoted infrastructure projects to uplift the living conditions of the slum and non-slum dwellers to enable them to have a live with at least minimum required civilised infrastructures facilities:

  
**Prabodh Sarkar**  
 Chairman  
 Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

| S/N | Type of the projects | Source of Finance       |
|-----|----------------------|-------------------------|
| 1   | Water Supply         | AMRUT, STATE GOVT & ULB |
| 2   | SEWERAGE             | AMRUT, STATE GOVT & ULB |
| 3   | DRAINAGE             | AMRUT, STATE GOVT & ULB |
| 4   | TRANSPORT            | AMRUT, STATE GOVT & ULB |
| 5   | PARKS                | AMRUT, STATE GOVT & ULB |
| 6   | SANITATION           | CENTRAL ,STATE & ULB    |

## 1.6. Tenability Analysis

*(Categorising all slums in the ULB as Tenable and untenable slums)*

- Tenable slums

*(Analysis of all tenable slums against criteria such as land values, land ownership, tenure status and dwelling unit density- briefly state the findings)*

Out of 123 slums 115 slums are tenable. The average land value is Rs.50000/ per katha. Majority of them hold Govt. allotted land and plenty of suitable open space is available for implementation of the project under consideration. Most of the beneficiaries are living in the premises on an average for a period of 5 years and above. The dwelling unit density on an average is per hector. (Please refer page 361 for details.)

- Untenable Slums and Strategy for slum resettlement if any

*(Analysis of reason of becoming untenable slums, total no. of household affected etc.)*

The number of untenable slums is 8(6.5%) only. The municipality has taken up the activity of details survey and the survey result is expected to emerge within a period of few months. We are hopeful to submit the details report thereafter.

## Assessment of Existing and likely Future Housing Shortage

### Future projected Urban Poor HHS.

| Year         | Future projected urban Poor HHS |             |              |
|--------------|---------------------------------|-------------|--------------|
|              | Phase-1                         | Phase-2     | Total        |
| 2015-16      | 962                             | 0           | 962          |
| 2016-17      | 1923                            | 286         | 2209         |
| 2017-18      | 1913                            | 143         | 2056         |
| 2018-19      | 1467                            | 143         | 1610         |
| 2019-20      | 1467                            | 143         | 1610         |

| 2021-22      | 888                             | 143         | 1031         |
| <b>Total</b> | <b>9627</b>                     | <b>1001</b> | <b>10628</b> |

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

## 2.1. Existing Housing Shortage (Non Slums)

*(Estimation of the existing housing shortage for urban poor by comparing the existing housing requirement with the existing housing stock data for the urban poor).*

The estimated housing shortage for urban poor of non-slum dwellers is 1001.

## 2.2. Likely future Housing Shortage

*(The population of EWS/LIG and household sizes obtained from Census/ SECC/ the socio economic surveys / National Sample Surveys projected for the next 10-15 years would give the housing requirement for the next 10-15 years.*

The projected housing requirement for future up to 2022 will be tune of 1001.

## 3. Identification of four Options available under Mission

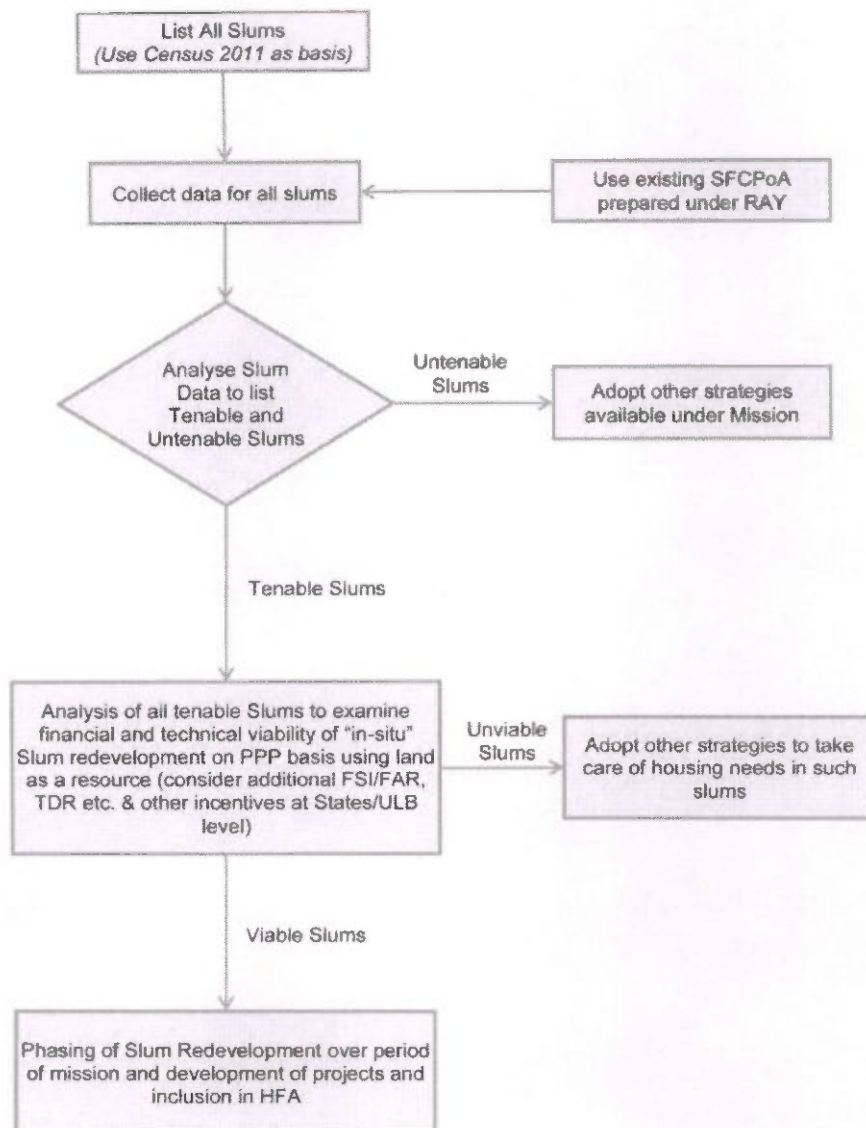

*(Use table I and II of Guidelines)*

- “In-situ” Slum Redevelopment using land as Resource( include viability analysis)

  
Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

## 5. Institutional Arrangements for Implementation of Development Options

(Proposed Institutional framework at State and ULB level and Their Roles and Responsibilities)

It will be implemented according to the prescribe Govt. norms and advice.

The institutional arrangement of the mission is describe in below

## Institutional Mechanism:

Pradeep Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

# ASHOKENAGAR-KALYANGARH MUNICIPALITY

## Roles and responsibilities of the Municipality:

### State Level Sanctioning and Monitoring Committee (SLSMC)

#### Indicative functions of SLSMC

- Approval of Housing for All Plan of Action (HFAPoA)
- Approval of Annual Implementation Plan
- Approval of DPRs under various components of the Mission
- Approval of Annual Quality Monitoring Plans
- Reviewing progress of approved projects in the State and Cities
- Monitoring of implementation of Mission
- Any other issues required for effective implementation of the Mission.

## ASHOKENAGAR-KALYANGARH Municipality:

**ASHOKENAGAR-KALYANGARH Municipality** shall be the nodal agency for implementation of HFAPoA and has set up a robust administrative structure for implementation. The roles and responsibilities of the key stakeholder are as follows:

- I. **House for All Nodal Officers:** Office Superintendent of the **ASHOKENAGAR-KALYANGARH Municipality** has been designated as the HFA Nodal Officer for demonstrating the commitment and willingness to implement the HFAPoA.
- II. **House for All Working Group:** **ASHOKENAGAR-KALYANGARH Municipality** has created a HFA working group with departmental heads of all key departments including PWD, Finance, Health, Water Supply, Establishment, Information Technology, Planning and NULM. The working group was instrumental in preparing the HFAPoA and going forward will be responsible for the implementation of HFAPoA.
- III. **Slum level federation at city level and slum dweller association at slum level:** **ASHOKENAGAR-KALYANGARH Municipality** has two CDS now as RO, ALF, CLF and 320 numbers SHG covering 23 wards and plan to establish a slum level federation at city level and slum dweller association at slum level for smooth implementation of HFA and ensuring that the detailed project reports are prepared in consultation with the community. The slum dweller association would also implement the O&M plan, which community had agreed upon, by collecting the contributions amongst themselves and formation of group housing societies as may be required.

  
Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

## 6. Project Monitoring and Social audit

*(Broad description of the Project monitoring and Social audit in line with guidelines)*

A competent committee under the municipality has been formed to implement the project as per Govt. guide line. It has been also decided by the committee in his 1<sup>st</sup> meeting that the project will be completed in 4 phases as per Govt. guide line. The committee will send its report from time to time to municipal authority to the high power state committee for their information and necessary advice.

The social audit will be conducted under guidance of the aforesaid committee, with the technical consultant who will submit report according to the guideline set forth in the project.

## 7. Conclusion

*(Snapshot containing the key features of the HFAPoA highlighting the total financial requirement)*

It is very useful and need base project for the development of living condition of economically weaker section .The total financials of the project has been shown below in summarized form.

Total cost of project as central grant of Rs. 148.67 crore as shown in Table no III – V.

Prabodh Sarkar  
Chairman  
Ashokenagar-Kalyangarh Municipality

## ASHOKENAGAR-KALYANGARH MUNICIPALITY

**3 . BANBONIA (MIDDLE)(S-3) :** The site of the project slum is at the core area of the Municipality at Ward No. 1 . It is situated at North-East Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 6.4 Km. The slums are 20 years old with a total site area is 180000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them. Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

**4 . BANBONIA BHAKTAPARA(S-4) :** The site of the project slum is at the core area of the Municipality at Ward No. 1 . It is situated at North-East Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 6.3 Km. The slums are 20 years old with a total site area is 29000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them. Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

**5 . DEBINAGAR(S-5) :** The site of the project slum is at the core area of the Municipality at Ward No. 2 . It is situated at North-East Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 3.75 Km. The slums are 20 years old with a total site area is 156000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them.

## ASHOKENAGAR-KALYANGARH MUNICIPALITY

Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

**6 . KAYADANGA PUKURPAR(S-6) :** The site of the project slum is at the core area of the Municipality at Ward No. 2 . It is situated at North-East Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 3.3 Km. The slums are 20 years old with a total site area is 290000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them. Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

**7 . NATTAPARA(S-7) :** The site of the project slum is at the core area of the Municipality at Ward No. 3 . It is situated at North-East Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 3.5 Km. The slums are 20 years old with a total site area is 62000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them. Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

**8 . BHATSALA(S-8) :** The site of the project slum is at the core area of the Municipality at Ward No. 4 . It is situated at North Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 4.4 Km. The slums are 20 years old with a total site area is 155000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in

The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them. Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

**123 . MANIKNAGAR KANCHANPALLY (S-123) :** The site of the project slum is at the core area of the Municipality at Ward No. 22 . It is situated at South-East Part of the Municipality. Metal road is running in to the middle of the slums connect sit to major areas of Ashokenagar-Kalyangarh Municipality. The nearest railway station at a distance is 2.2 Km. The slums are 20 years old with a total site area is 200000 Sq. Km. Most of the slum dwellers works as engaged in local housekeeping, as sweepers in local areas, as cleaners at Municipal area and as vegetable sellers in nearby areas. The environmental condition in the slums is little bit poor. The slum is partially covered with surface drains but drains are tilted. Most of the roads with in slums are semi metallic or kuchha road. Most of the population adopts unhygienic method for disposing the waste ; thereby cause in gouge damage to health. The site visit has revealed a unhygienic condition prevailing the rest present due to absence of any organized structures and infrastructure for keeping them. Most of the dwelling units are kaccha or dilapidated. Water supply network is needed in this slum with domestic connection.

---

গত ২৮/০২/২০১৯ তারিখ অনুষ্ঠিত বোর্ড - অব- কাউন্সিল সভার গৃহীত সিদ্ধান্ত নিম্নরূপঃ-

সিদ্ধান্ত নম্বর - ১৮

(2018-19) বর্ষে House for All project- এর DPR সরকারী নির্দেশনামা অনুযায়ী সমাপ্ত করেছি, কিন্তু তার মধ্যে মাত্র ২৩২২ Beneficiaries নাম sanction হয়েছে। কিন্তু PUBLIC DEMAND এত বেশী যে উক্তবর্ষে আরো ২১৭৫ জন Beneficiaries এর নাম নথিভুক্ত করা আবশ্যিক, অতএব কতৃপক্ষের নির্দেশে ২১৭৫ জনের DPR তৈরী করা হল এবং যেহেতু (২০১৮-১৯) বর্ষ শেষ হয়ে গেছে, সুতরাং উক্ত DPR বর্ষ (২০১৯-২০) লিখিতে হচ্ছে। আমাদের (২০১৯-২০) বর্ষে যে নির্ধারিত Beneficiary List আছে তা পরবর্তী সময়ে DPR তৈরীর ব্যবস্থা গ্রহন করা হবে।

(প্রবোধ সরকার)
