PREFACE

Pradhan Mantri Awas Yojana (PMAY) aims at Providing Housing for All (HFA) by 2022 when the Nation Complete 75 years of its independence.

The urban homeless persons contribute to the economy of the cities and thus the Nation as cheap labour in the informal sector; yet they live with no shelter or social security .The urban homeless service with many challenges like no access to elementary Public Services such as health, education, food, water and sanitation. Pradhan Mantri Awas Yojana (PMAY) also aims at providing a pucca house to every family with water connection, toilet facilities, 24 X 7 electricity supply and access.

The Mission seeks to address the housing requirement of urban poor including slum dwellers through "In Situ" Slum Redevelopment, Beneficiary led Contribution (BLC) mode of Pradhan Mantri Awas Yojana (PMAY)-HFA (U,) individual houses under the mission to be constructed so that the beneficiaries can take advantage under one component only.

Total beneficiaries of the scheme are 402 Nos projected for the year 2019-20.

Total cost of the project is **Rs. 1,627.30 Lakhs** as per relevant department &P.W.D. schedule of rates.

Introductory Note by Chairman

Dankuni Municipality was declared a Notified Area in the year 01.11.2008 and subsequently on June, 2009 the said notified area was declared to be a Municipality. The first election in this municipality was held in 28th June, 2009.

It's an honour and privilege to present before the citizen of Dankuni, the **DPR for HFA-PMAY, 2019-2020** which aims to provide housing to all urban poor and underprivileged section of the Municipality and to reach all essential services to its people and develop the small town into a vibrant economy. Learning from the past we look forward towards achieving long term benefits, perspectives and convergences rather than short term goals.

Detilaed project Report (DPR) for Housing for All under PMAY programme for the year **2019-2020** has been prepared and we look forward for a vibrant municipality with all the citizens' having their own shelter.

HISTORY

Dankuni Municipality is established in 1st November, 2008 after converted by three gram panchayat Dankuni, Mrigala, Monoharpur, and part of Garalgaccha gram panchayet. Dankuni Municipality is situated within Dankuni police station under Sreerampur subdivision in the district of Hooghly. It was established in 2008 with a Government nominated Board. Initially Nineteen wards were carved out of Panchayet areas to make way for the Municipality. The 11 mauzas are included with it. At that time population of Dankuni Municipality stood at 2010 is **1,04,326**. Currently this Municipality has an area of 19.5 sq. km. At the outset the Municipality ran its office from erstwhile Monaharpur Gram Panchayet at Monaharpur, Dankuni, Hooghly.

YEAR OF ESTABLISHMENT

Dankuni Municipality is established in 1st November, 2008.

ADMINISTRATIVE BOUNDARIES

The municipal town of Dankuni is located within the Sreerampur subdivision in the district of Hooghly, West Bengal. It is situated at a distance of approx. 14 km from Kolkata. The Municipality is surrounded by the Rishra and Naity Gram Panchayet in the North and Chakpara Anandanagar and Raghunathpur Gram Panchayet in the south, Barijhati, Garalgacha Gram Panchayet and Saraswati River in the West and Kanaipur Gram Panchayet in East. (Geographical coordinates: 22° 81' North, 88° 23' East).

DEMOGRAPHIC GROWTH AND POPULATION PROJECTION

Dankuni municipality has come to existence in the year 2008. Population projection for 25 years has been shown in the following section. The trend of population projection has been made using Natural growth trend.

Housing and Physical Infrastructure profile

Dankuni municipality is a newly formed municipality. The municipality has typical peri urban features with typical rural houses. Dankuni Municipality has 127 nos. slums with slum population of 44,696 nos. as identified in Socio-economic Survey (USHA) conducted by the Municipality. People living in these slums do not have access to basic amenities of life. It is because of non-development of basic infrastructure development has been the first priority in this Municipality.

It appears from the household survey slum dwellers own shacks, Kuchha and temporary house which are mostly in wretched and dilapidated state. After identification of such house, new housing accommodation has been proposed under BSUP and existing other government supported programmes.

Housing - It appears from the household survey slum dwellers own shacks, Kuchha and temporary house which are mostly in wretched and dilapidated state. After identification of such house, new housing accommodation has been proposed under BSUP and existing other government supported programmes. Under centrally sponsored BSUP programme a total of 127 slums has been identifies for housing and infrastructure improvements. A total of 1499 houses were sanctioned while only 1299 houses constructed till June 2015.

Water supply:

In the identified slums, almost only 35% population of the total population covered by piped water supply through stand posts and also uses water from public tube wells to meet their daily need of drinking water. Currently the slum pockets do not have the quantum of water essentially required for daily use. Moreover not all areas in the slum are covered by pipe lines and this being so, the extension of pipeline is required to cover the entire stand posts are required to set up in areas where the pipe line already exists.

Road:

In respect of road coverage in slums it is found that existing network of roads is inadequate for easy connectivity. The slums have 9.4 km of black top road having 3.0 metre wide crust. Brick paved road 7.2 km 2.4 meter wide and 12.1 km kuccha road in total, which constitute about 33%, 25% and 42% respectively.

Street Light & Electricity:

Major parts of slum areas lack electricity connection. In some ways the gap has been filled by illegal tapping of electricity. Regarding street illumination the street posts numbering only about 426 lamp posts erected which is inadequate to meet the needs of the slum dwellers.

Drains:

Mostly open surface type drainage that flows undergravity covering 9.6 km is in existence and the water flows off to Dankuni Khal. Such meagre coverage has led to water logging in different areas of slums and consequently areas required more drainage constructivity.

Solid Waste Management: The practice of primary collection system has not been introduced and the problem is being tackled by providing vats. This Municipality has decided to initiate house to house collection for the town under SWM programme. It is here that community participation is required. Logistics like bins, hand carts, tricycle vans to collect and cart out accumulated garbage are being procured.

Sanitation:

Modern sanitation facilities are singularly absent in the slums where maximum kaccha latrines are in use for defecation and other purposes. To make the matter worse, open defecation is also practised generating unhygienic conditions throughout the slums. Hence two pronged attack is to be made on this-while kaccha latrines are to be converted into **Low Cost Sanitary Latrine, Community Latrines** are to be constructed on basis of community participation along with bathroom facilities.

Urban houseless population:

A total of 16 houseless populations were identified during a survey conducted on June 2014. 1 person is neither interested to avail government run facility nor is living in any static location

Assessment of Present Status of Slums

It has been reported that out of total 129 slums, 87 are notified, 42 are not notified.

In terms of available socio economic and demographic profile and infrastructure facilities i.e. road, drain, drinking water supply, sanitation, solid waste management, drinking water facilities etc. the status is not good.

HFAPoA and Pradhan Mantri Awas Yojana (Housing for All)

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to 'achieve significant improvement in the lives of slum dwellers, by 2022'. Similar goals are set forth by Pradhan Mantri Awas Yojana within year 2022, to create pucca house for every family.

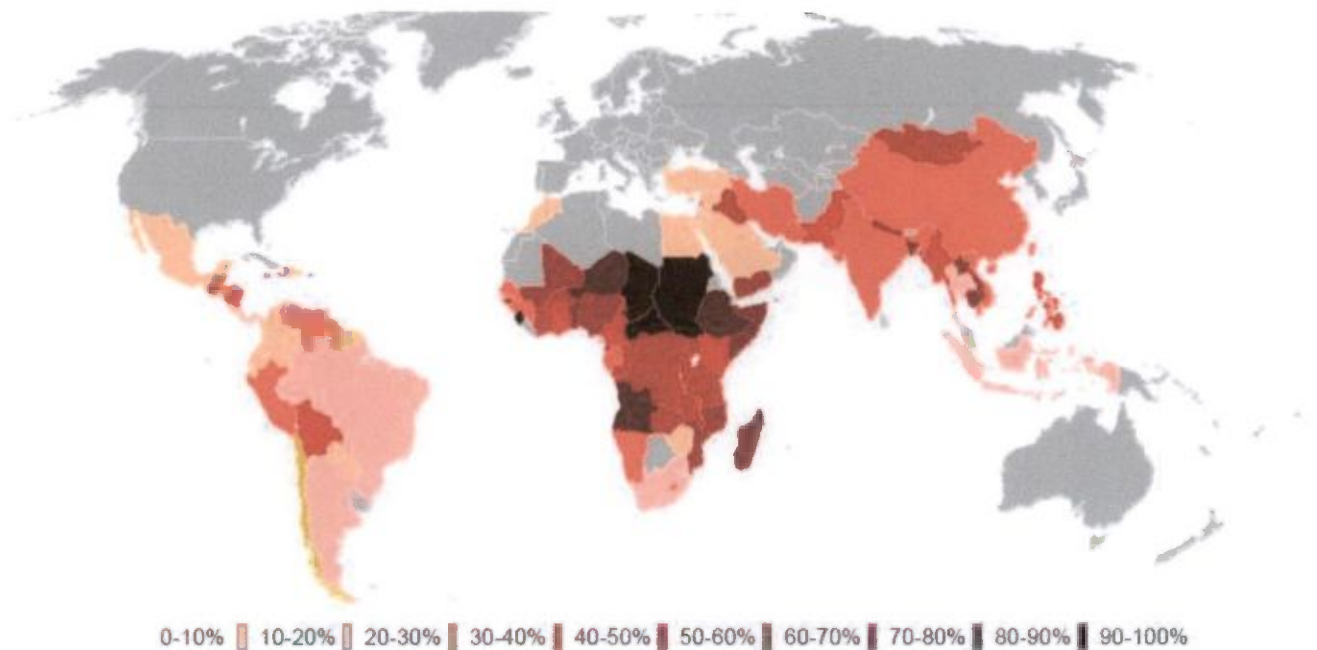

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals. The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies also consider the affordable housing stock already available in the city as Census data suggests that large number of houses are vacant.

Bank account number and Aadhaar number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary's native district integrate in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries is validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects.

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalising the plans and beneficiary list.

Cities which have already prepared Slum Free City Plan of Action (SFCPoA) or any other housing plan with data on housing, utilise the existing plan and data for preparing "Housing for All Plan of Action" (HFAPoA). Houses constructed under various schemes should be accounted for while preparing HFAPoA

Urban Population Living in Slums and the Indian Scenario (source: UN-HABITAT)

The preparation of HFAPoA broadly involve Slum Development/Rehabilitation Plans based on

- a. Survey of all slums – notified and non-notified;
 - b. Mapping of slums using the state-of-art technology;
 - c. Integration of geo-spatial and socio-economic data; and
 - d. Identification of development model proposed for each slum.
1. Base maps to an appropriate scale would be a pre-requisite for the preparation of Slum Development Plan/Slum-free City Plan. States/UTs may need to proceed in the following steps for the preparation of Slum-free City Plans.
 2. Securing CARTOSAT II/latest satellite images from NRSC/ISRO and preparation of base maps for the whole city and its fringes using the images;
 3. Identification and inventory of all slum clusters of all descriptions in the urban agglomeration with the help of satellite image and other available data;
 4. Inventory of all possible vacant lands in each zone of the urban agglomeration that could be
 - a. used for slum development/ rehabilitation development purposes;
 5. Development of Slum Map of every slum within the city and its fringes using GIS with CARTOSAT II images, ground level spatial data collected through total station survey, collating spatial information with respect to plot boundaries, network of basic infrastructure like roads, sewerage, storm drainage and water lines, etc and superimposing this on the

satellite image and importing them into GIS platform as the first step towards the preparation of Slum Development Plans and Slum Free City Plan.

6. This may be undertaken with the help of technical partners of NRSC/ ISRO/other technical institutions.
7. Identification and engagement of Lead NGO/CBO to guide and anchor community mobilization for the purpose of slum survey, (May be more than one NGO/CBO in different slum zones) of the city. These Lead NGOs/CBOs should also be associated in slum survey operations and dialogues for preparation of slum level development plans;
8. Conduct of Slum Survey based on the detailed formats (with or without changes) prepared by the Ministry of Housing & Urban Poverty Alleviation with the help of National Buildings Organization (NBO) - after due training of trainers, training of survey personnel /canvassers and canvassing. It would be helpful for community mobilization to pick as many canvassers from the sourced slum or nearby slum pockets;
9. Collection of bio-metric identification data of slum dwellers based on the above survey (subject to guidelines issued by Unique Identity Authority of India (UIDAI));
10. Entry of data from Slum Surveys in the web-enabled MIS application (to be provided by Ministry of HUPA), compilation and collation of data, preparation of Slum-wise, City and State Slum Survey Database and Baseline Reports. The MIS will assist in developing a robust Slum and Slum Households Information System. (Guidelines and software for development of the MIS will be issued by the Ministry of HUPA);
11. Integration of Slum MIS with GIS Maps to enable the preparation of GIS-enabled Slum Information System that is to be used for the preparation of meaningful Slum Development Plans and Slum-free City Plan using a city-wide/zone-based approach.(Guidelines and software for development of GIS platform and its integration with the MIS will be issued by the Ministry of HUPA);

Introduction to Pradhan Mantri Awas Yojana (PMAY)

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a 'Pucca house to every family' through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town.
- Redressing the failures of the formal system that lie behind the creation of slums.

- Tackling the shortages of urban land and housing that keep shelter out of reach of the urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.
- Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.
- An integrated approach covering shelter, services and livelihoods for poor slum communities.

The duration of Pradhan Mantri Awas Yojana [PMAY] 2015 TO 2022

Eligible Components of the PMAY:

Allotment of Houses

Allotment of dwelling units will be in the name of the female member of the . Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land required for every Beneficiary.

A EWS beneficiary family will comprise husband, wife and unmarried children.

The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.

Following infrastructure will be considered for support under PMAY:

1. Water connection
2. Toilet facilities
3. 24 x 7 Electric facilities
4. Roads

Need for Projects

This development project models will give benefits in the city . One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor.

Such innovation could encompass:

- Projects with strong community participation i.e. Slum upgradation/redevelopment

projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation

- New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence.
- Innovative or cost effective and green building design and technologies.
- Financial innovations in delivering the city/state wide programme.

Aims and Objectives

Vision

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

Objectives

The project has been designed keeping in mind the following objectives.

- Integrated development of all existing slums, notified or non-notified, i.e., development of infrastructure and housing in the slums/rehabilitation colonies for the slum dwellers/urban poor, including rental housing.
- Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road, street lighting.
- The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership.
- Encouraging Public Private Partnership by having pay and use toilets and educate the slum dwellers for keeping the environment clean and hygienic.

State PMAY Mission Director

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. State Urban Development Agency was set up in 1991 with a view to ensuring proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SUDA is a Society registered under the West Bengal Societies Registration Act, 1961.

Funding Pattern of PMAY

Funding pattern for PMAY(Housing for all)

- Central share 1.5 LAKHS of total cost of dwelling unit
- Beneficiary share 0.25 LAKHS of total cost of dwelling unit
- State share rest of total cost of dwelling unit
- State + ULB bear the cost of infrastructure
- State share for infrastructure to be minimum 5%
- ULB share for infrastructure to be minimum 5%
- Cost of infrastructure 10 % of sum total cost of dwelling unit

Approvals & Release of Funds

- Releases and approvals to be on the basis of DPRs which need to be submitted with approval of State Level Sanctioning and Monitoring Committee
- Innovative projects to be considered for sanction even in the preparatory stage.
- Central Funds to be released in three installments to the State Governments/SLNA; central assistance under different components will be released to the state / UTs after the approval of CSMC and with concurrence of the integrated Financial Division of the Ministry. Central share would be released in three installment of 40%, 40% and 20% each.

Project Cost and Financing Strategy For Dwelling Unit

Total no of Dwelling unit = 402 Nos

Rate per Dwelling unit = Rs. 3.68 Lakhs

Total Cost of Dwelling unit = $402 \times 3.68 = \text{Rs. } 1,627.30 \text{ Lakhs}$

Central Share = $402 \times 1.5 \text{ Lakhs} = \text{Rs. } 603.00 \text{ Lakhs}$

State Share = $402 \times 1.93 \text{ Lakhs} = \text{Rs. } 849.83 \text{ Lakhs}$

Beneficiary Share = $402 \times 0.25 \text{ Lakhs} = \text{Rs. } 100.50 \text{ Lakhs}$

ULB Share = Rs. 73.97 Lakhs

For Infrastructure

10 % of total Dwelling unit cost = Rs. 221.90 Lakhs

The total project cost will be Rs. 1,627.30 Lakhs

Materials of construction:

- PCC (1:3:6) for foundation
- RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- HYSD Steel

Definition of Slum for Housing

Different definitions of a slum exist in different statutes and in urban poverty literature. For the purpose of HOUSING SCHEME, it is proposed to adopt the definition given in the 2001 Census, which is as follows:

- a. All areas notified as 'Slum' by State/Local Government and UT Administration under any Act;
- b. All areas recognized as 'Slum' by State/Local Government and UT Administration, which have not been formally notified as slum under any Act;

'Slum' or 'Slum Area'— is a compact settlement of at least 20 households (For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

Situation Appraisal

The people living in the slums mostly have kutcha (10) and semi-pucca (186) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutcha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

Proposed Intervention

In line with the vision to **'housing for all'**, an integrated housing programme is proposed to be implemented. The target will be all the slum /Non Slum dwellers in the pocket.

Building Plan

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units

depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed.

Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws.

Building material

- PCC (1:3:6) for foundation
- RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- HYSD Steel
- 1st class Brick Masonry
- 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- IPS flooring

Structural Design

- Following are the general considerations in the analysis/design.
- For all structural elements, M20 grade concrete and Fe 415 grade of steel is used.
- Plinth beams passing through columns are provided as tie beams.
- Pedestals are proposed up to ground level.
- Beam Centre-line dimensions are followed for analysis and design.
- For all the building, walls of 250 mm and 125mm thick with 20 mm External plaster and 12 mm thick internal plaster are considered.
- Seismic loads are considered acting in the horizontal direction along either of the two principal directions.

Design data

- Live load: 2.0 kN/m² at typical floor
- 1.5 kN/m² on terrace (With Access) : 0.75 kN/m² on terrace (without Access)
- Floor finish 50mm (0.05*24) = : 1.2 kN/m²
- Ceiling plaster 12mm (0.012*20.8) : 0.25 kN/m²
- Partition walls (Wherever Necessary) : 1.0 kN/m²
- Terrace finish: 1.5 kN/m²

DPR ON PMAY -HOUSING FOR ALL 2019-20

- Earthquake load: As per IS-1893 (Part 1) - 2002
- Depth of foundation below ground: ,0.7 m
- Walls: 250 mm thick brick masonry walls at external and 125mm walls internal.
