PREFACE

Housing project namely Pradhan Mantri Awas Yojana (PMAY) aims at Providing Housing for All (HFA) by 2022 when the Nation Complete 75 years of its independence.

The urban homeless persons indispensable for the economy specially of the cities as cheap labour; yet they live with no shelter or social insecurity. They are facing many challenges like no access to elementary Public Services such as health, education, food, water and sanitation etc. etc.. Pradhan Mantri Awas Yojana (PMAY) aims to provide a pucca house to every family with water connection, toilet facilities, 24 X 7 electricity supply and access.

The Mission seeks to address the housing requirement of urban poor including slum dwellers through "In Situ" Slum Redevelopment, Affordable Housing through credit linked subsidy, Affordable Housing in partnership and subsidy for beneficiary led individual house. Under the mission, beneficiaries can take advantage under one component only.

Total beneficiaries of the scheme of the Madhyamgram Municipality is 446 nos from 27 nos slum and 9 nos of Non Slum projected for the year 2015-16 .

Total cost of the project is **Rs. 1805.29 lakhs** as per relevant department & P.W.D. schedule of rates.

CHAIRMAN

MADHYAMGRAM MUNICIPALITY

P.O. : Madhyamgram

Dist. : North 24 Parganas, Kolkata • 700129

I am very glad to apprise you that Madhyamgram Municipality has prepared its Housing for All Plan of Action (HFAPoA) for the year **2015-16 to 2021-22** under Pradhan Mantri Awas Yojana (PMAY), Urban. The aim is to provide permanent shelter to habitants of this Municipality residing in Slum and non-slum area.

As per Memo No.SUDA-207/2015(Part-I)/1234, 12th September,2015 the Madhyamgram Municipality has Started Orientation Training Programme among Councilors, Ward Committee members and Enumerators from 17th September, 2015 to 21st September,2015. Have started Field survey works from 21.09.2015 and same have been completed by 30.09.2015. Survey data has been entered in software supplied by SUDA and analysed and synthesized entered data for the purpose of preparing HFA Plan of Action. Prepared HFAPoA has been approved in BOC meeting 29.09.2015. I sincerely look forward for the successful implementation of this HFA Plan of Action and belief that it shall able to solve housing problem for the whole municipal area.

Besides extending my sincerest gratitude to SUDA, Govt. Of WB, Municipal Affairs Department, Govt. West Bengal. MHUPA, GOI for their financial support and overall guidance. I would like to thank to the citizens, fellow Councilors, Enumerators, Data entry operators, in-charges of different municipal department, Ward Committee members, Consultancy Agency (Society for Holistic Approach to Planned Environment, SHAPE) and all the officials, staff and supporting members of Madhyamgram Municipality who have rendered their valuable services and co-operations in preparing this HFAPA for 2015-16 to 2021-22.

Sri Rathin Ghosh

Chairman, Madhyamgram Municipality

CHAIRMAN

**Madhyamgram Municipality
North 24-Parganas**

Working Definitions

Affordable Housing Project:	Housing Projects where 35 % of the houses are constructed for EWS category
Beneficiary	A beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his//her name or in the name of any member of his/her family in any part of India
Carpet Area	Area enclosed within the walls, actual area to lay carpet. This area does not include the thickness of the inner walls.
Central Nodal Agencies	Nodal Agencies identified by Ministry for the purposes of implementation of Credit Linked subsidy component of the mission
Economically Weaker Section(EWS)	EWS households are defined as households having an annual income up to Rs 3, 00,000(Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre
EWS House	An all-weather single unit or a unit in a multi storeyed super structure having carpet area of upto 30 sq.m. with adequate basic civic services and infrastructure services like toilet , water, electricity etc. States can determine the area of EWS as per their local needs with information to Ministry
"Floor Area Ratio" (FAR)/FSI	The quotient obtained by dividing the total covered area (plinth area) on all the floors by the area of the plot: $\text{FAR} = \frac{\text{Total covered area on all the floors} \times 100}{\text{Plot area}}$ If States/Cities have some variations in this definition, State/City definitions will be accepted under the mission
Implementing Agencies	Implementing agencies are the agencies such as Urban Local Bodies, Development Authorities, and Housing Boards etc. which are selected by State Government / SLSCMC for implementing Housing for All Mission.
Low Income Group (LIG)	LIG households are defined as households having an annual income between Rs.3, 00,000 (Rupees Three Lakhs One) up to Rs.6, 00,000 (Rupees Six Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.
Primary Lending Institutions (PLI)	Scheduled Commercial Banks, Housing Finance Companies, Regional Rural Banks (RRBs), State Cooperative Banks, Urban Cooperative Banks or any other institutions as may be identified by the Ministry

P. R. S. N.
CHAIRMAN
 Madhyamgram Municipality
 North 24-Parganas

Slum	A compact area of at least 300 population or about 60-70 households of poorly built congested tenements, in unhygienic environment usually with inadequate infrastructure and lacking in proper sanitary and drinking water facilities.
State Land Nodal Agencies (SLNAs)	Nodal Agency designated by the State Governments for implementing the Mission
Transfer of Development Rights (TDR)	TDR means making available certain amount of additional built up area in lieu of the area relinquished or surrendered by the owner of the land, so that he can use extra built up area himself in some other land.

CHAIRMAN
Madhyamgram Municipality
North 24-Parganas

1. Situation assessment for HFAPoA

1.1 Background

At Country level slum decadal growth rate is 34%, the slum households are projected to go upto 18 million. 2 million non-slum urban poor households are proposed to be covered under the Mission. Hence, total housing shortage envisaged to be addressed through the new mission is 20 million.

The Mission will be implemented during 2015-2022 and will provide central assistance to Urban Local Bodies (ULBs) and other implementing agencies through States/UTs for:

1. In-situ Rehabilitation of existing slum dwellers using land as a resource through private participation
2. Credit Linked Subsidy
3. Affordable Housing in Partnership
4. Subsidy for beneficiary-led individual house construction/enhancement.

Credit linked subsidy component will be implemented as a Central Sector Scheme while other three components will be implemented as Centrally Sponsored Scheme (CSS).

The scheme will cover entire urban area consisting of 4041 statutory towns with initial focus on 500 Class I cities in three phases. Credit linked subsidy component of the scheme would be implemented across the country in all statutory towns right from the beginning.

In the spirit of cooperative federalism, mission will provide flexibility to the States for choosing the best options amongst four verticals of mission to meet the demand of housing in their states. Process of project formulation and approval in accordance with the mission Guidelines would be left to the States so that projects can be formulated, approved and implemented faster.

A Technology Sub-Mission under the Mission would be set up to facilitate adoption of modern, innovative and green technologies and building material for faster and quality construction of houses. Technology Sub-Mission will also facilitate preparation and adoption of layout designs and building plans suitable for various geo-climatic zones. It will also assist States/Cities in deploying disaster resistant and environment friendly technologies.

1.2 Approach and Methodology

1.2.1 Stakeholders Consultative Workshop / Meetings

Picture 1	Picture 2
Picture 3	Picture 4
Summary: Consultative meeting at Enumerators level conducted on 17.09.2015 and 19.09.2015 Orientation training to the Councilors and Ward Committee members was held on 20.09.2015 Demonstration of Software and handholding support to the data entry operators on 03.10.2015 BOC meeting on Plan of Action held on 29.09.2015	

1.3. City Profile and Overview

(Write in very brief about History, Year of Establishment of Municipality/Municipal Corporation, Administrative Boundaries, Demographic profile in brief, Linkages of Rail/Road/Port/ Air, Places of Interest etc.)

The settlement in the beginning was concentrated at Ganga Nagar & Chandigarh around Madhyamgram Railway Station. The land was covered by agricultural uses, mostly paddy fields. After independence huge influx of refugee settled around Udairajpur, Bankim Pally, etc. In the early 70's Basunagar area was developed as a plotted residential area with the help of a local promoter. Thereafter LIC Township and Bijohnagar came up as plotted townships.

Starting with barely 40,000 to 50,000 population, served by mass transit system, namely railway, job opportunities in the neighbouring metropolitan city, growing industries,

CHAIRMAN
Madhyamgram Municipality
North 24-Parganas

proximity to a busy air-port and environmentally pleasing locality, more and more urban people got attracted and started settling here.

The Madhyamgram Municipality was founded on 7th September, 1993 with Shri Saral Sen as nominated Chairman. Finally on 27th May 1994 the present Madhyamgram Municipality was formed through general election of Councillors, comprising 23 nos. of wards as per gazette notification and subsequently to 28 numbers.

The Madhaymgram Municipality is located within Kolkata Metropolitan Area. Madhyamgram Municipality is 25 Kilometer away from Kolkata in north of Kolkata Metropolitan Area. It forms the Northern boundary with Barasat Municipality, southern part with North Dum Dum and Rajarhat Gopalpur Municipality, eastern part is bounded by New Barackpor Municipality and western part is bounded by Rohanda and Chandigarh Gram Panchayats.

It is situated 25Km to the north-east of Kolkata Municipal Corporation on the east bank of the Hooghly. It is served by the south-eastern railway with stations at Madhayamgram, Sodepur road and Jessor road (NH-35), Badu road. Soon it will be served by North-South Metro from Joka to Barasat and beyond and will be linked to east-west Metro towards Howrah station.

It is divided into 28 wards, with area 21.56 Sq. Km and total population 1.96 lakh, Census,2011.

Its population as per Census,2011 is 1.96 lakh and has increased from 1.07 lacs Census,1991 to 1.56 lacs in 2001 and further to 1.96 lacs in 2011. Projected population of the Municipality is around 2.40 lac by 2021.

Gross population (Census) density is nearly 9090 pp sq km in 2011 higher than metro city standard (UDPFI). Projected population may be more with improvements in infrastructure pattern namely rapid transit systems, water, drainage and power supply, socio-economic facilities, employment opportunities etc. etc. .

Its main drainage channels are Noaikhal and Banikantha (Chatka) Khal.

The decadal growth rate (2001-2011) of Madhayamgram Municipality is 26.45%, at this trend projected population by the year 2031 will be around 2.80 lakh, hence population density will be 12987 persons per Sq. Km while at present is around 9090 persons per Sq Km.

Table: 1.3.1 Trends of Total Population (in lakhs)

Year	1991	2001	2011	2021	2031
Population	1.06	1.55	1.96	2.39	2.82
Decadal growth		46.23	26.45	22(assumed growth)	18 (assumed growth)

Madhyamgram Municipality
North 24-Parganas

Gross Population Density

Gross population density showing the land-man ratio in a given area at a given time has a great significance for the point of view of planning. The environmental problem are generally very much aggravated in the area of high density but some what simpler in the area of low density. Accusation of land is much more difficult and relocation of population presence many more intricacies in high density areas than in low density area. It is also in this context of economic and social planning per capita cost of providing some kind of urban amenities is relatively lower in high densities areas there being how ever always a break even point with respect to growth. Low per capita cost maybe and is often associated with high per unit area cost and vice-versa. Madhyamgram Municipality becoming more and more crowded as is reflected in its density continuously rising from 6163 persons per sq. km. in 1991 to 7230 persons per sq. km. in 2001 and further to 9061 in 2011. While this over Kolkata Metropolitan Area (in 1991 Kolkata Metropolitan Area has 7012 persons per sq. km. and 8380 persons per sq. km. in 2001).

The ward wise gross population densities of Madhyamgram Municipality have been listed below and graphically represented Municipal map which have been attached.

Table 1.3.2: Gross population density across the ward Madhyamgram Municipality

Density is highest at W16 (39326 persons/Sq Km) followed by W22 (18819), W20 (18190) and it is lowest at W2(2496). Density is highest along Jessor Road and lowest furthest from it.

Ward No.	Area in sq. km.	Population,2011	Density/Sq Km
1	2.28	8782.0	3858
2	2.67	6672.0	2496

1.5.1. Slum Profile and its Location

(Including slum dwelling unit density, land values, land ownership and tenure status of the slums)

Most of the slum are located in Fringe Area. So far ownership is concerned maximum slums are privately owned (110) only 7 slums are located on encroached land that may be legalised by the West Bengal State Government very soon. Density in slum area is around 7540 persons / Sq Km. For information Refer Table:1.5.1.1 below.

1.5.2. Summary of Findings of Demand Survey

Demand survey has been conduct both in slum and non-slum area. Of the total household survey of 7896 numbers 7303 is within slum area and remaining 593 numbers in non-slum area. Majority of the surveyed households are semi-pucca (81% of the total, rest 1500 or 19% are kutchha), beneficiaries opted for self construction option. Most of them have land and structure and very few are presently rent holder with vacant land within the municipality.

1.5.3. Broad infrastructure status in slum areas

(It shall describe broad slum infrastructure status and future program related to infrastructure development where slum will be benefited)

Most of the slum are accessible by all weather road, but entire part of the slum are not equally accessible.

Drainage system is moderate, some of the slum is suffered from water logging (15 to 30 days). Some of the slum are not connected by storm water drainage system.

All are covered by piped water but all slum households are not connected

Most of the slums are connected by street light.

Entertainment facility within the slum area is not available.

1.6. Tenability Analysis

(Categorising all slums in the ULB as Tenable and untenable slums)

- Tenable slums

(Analysis of all tenable slums against criteria such as land values, land ownership, tenure status and dwelling unit density- briefly state the findings)

Of the total 118 slums spreaded over 28 wards only 1, namely Mohuri bustee is Tenable and that has been excluded in the preparation of HFAPoA.

- Untenable Slums and Strategy for slum resettlement if any

(Analysis of reason of becoming untenable slums, total no. of household affected etc.)

Of the total 118 slums, 117 are untenable, mostly are on private land (110 numbers) only 7 numbers are on land of irrigation department. The State-ULB has considered such special case and has taken into consideration in the preparation process of the HFAPoA.

 CHAIRMAN
 Madhyamgram Municipality

2. Assessment of Existing and likely Future Housing Shortage

2.1. Existing Housing Shortage (Non Slums)

(Estimation of the existing housing shortage for urban poor by comparing the existing housing requirement with the existing housing stock data for the urban poor).

As per Urban poor data total urban poor is 9091 numbers of which 1091 are in non slum area. Existing housing requirement in non-slum area is around 517 numbers.

2.2. Likely future Housing Shortage

(The population of EWS/LIG and household sizes obtained from Census/ SECC/ the socio economic surveys / National Sample Surveys projected for the next 10-15 years would give the housing requirement for the next 10-15 years.

Estimated housing shortage is around 7896 numbers in 2015, 2000 numbers by 2020 and 1650 numbers by 2025, Covered in Table 2.2.1 below

Table:2.2.1 Estimated Households and Housing demand

Year	Households	Housing demand (Covering households with shelter less, semi-pucca, kutcha house)
2011	48942	
2015	53355	7896
2020	55500	1795
2025	57150	1650

3. Identification of four Options available under Mission

(Use table I and II of Guidelines)

- "In-situ" Slum Redevelopment using land as Resource (include viability analysis)
- Credit-Linked Subsidy Scheme (CLSS)
- Affordable Housing in Partnership (AHP)
- Beneficiary-led individual house construction or enhancement

Total beneficiary is 7896, entire is suggested under "Beneficiary-led individual house construction or enhancement", details covered in Table 3.1.1 below.

5. Institutional Arrangements for Implementation of Development Options

(Proposed Institutional framework at State and ULB level and Their Roles and Responsibilities)

Project will be implemented jointly by the State and ULB.

ULB will be prepared Detail Project Report as per MHUPA guidelines under supervision of State level agency

State agency will monitor phase wise different activities of the ULB

ULB will take necessary approval from its Board of Councilors

Phase wise ward wise beneficiary will be selected by the ULB in consultation with Councilors and ward committee members.

6. Project Monitoring and Social audit

(Broad description of the Project monitoring and Social audit in line with guidelines)

A social audit is a process by which the people, the final beneficiaries of any scheme, programme, policy or law, are empowered to audit such schemes, programmes, policies and laws. A social audit is

P. K. Das
CHAIRMAN
Madhyamgram Municipality
North 24-Parganas

an ongoing process by which the potential beneficiaries and other stakeholders of an activity or project are involved from the planning to the monitoring and evaluation of that activity or project. It thereby tries to ensure that the activity or project is designed and implemented in a manner that is most suited for the prevailing (local) conditions, appropriately reflects the priorities and preferences of those affected by it, and most effectively serves public interest.

Social audits are those that are conducted jointly by the government and the people, especially by those people who are affected by, or are the intended beneficiaries of the activity being audited.

Principal:

Transparency : Complete transparency in the process of administration and decision-making, with an obligation on the government to suo moto (voluntary disclosure of information) give the people full access to all relevant information.

Participation: A right based entitlement for all the affected persons (and not just their representatives) to participate in the process of decision making and validation;

Representative participation : In those rare cases where options are predetermined out of necessity, the right of the affected persons to give informed consent, as a group or as individuals, as appropriate.

Accountability: Immediate and public answerability of elected representatives and government functionaries, to all the concerned and affected people, on relevant actions or inactions.

Social audit will be done at any point of time during the planning and implementation of a scheme/ programme.

Planning stage: to ensure that the ULB Plan is need-based covering productive/ investments and drawn up in consultation with community serving the poor and the disadvantaged.

Preparation stage: to ensure that estimates are proper and are in tune with the approved quantum of work

Implementation stage: to ensure that dwelling units are constructed rightly, given to proper and to right people

After the completion of work: to ensure that quality of work is in tune with quantity and estimated cost.

Social Audit will be carried out by different stakeholders namely the State, ULB, Ward Committee, Beneficiary, implementing agency etc. The entire ULB is expected to participate in Social Audit. Since this may not be always possible, a group can be formed voluntarily (with encouragement by ULB and officials) with representatives from beneficiaries, SHGs, community leaders, youth clubs, marginalised sections (SC/ST/Women) etc.

7. Conclusion

(Snapshot containing the key features of the HFAPoA highlighting the total financial requirement)

Based on demand survey Madhyamgram has finalized 7896 units for implementation under Beneficiary-led construction option under HFAPoA.

Financial requirements (@Rs: 4.5 lakh /unit) for the total 7896 units is around Rs: 355.32 Crores. Of the total expected expenditure GOI contribution (@Rs: 1.5 lakh/unit) is Rs: 118.44 crores, therefore remaining Rs: 236.88 crores will have to be arranged by the State-ULB-Beneficiary shared basis. Year wise demand and financial requirement is covered in Table

HFAPoA and Pradhan Mantri Awas Yojana (Housing for All)

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to 'achieve significant improvement in the lives of slum dwellers, by 2022'. Similar goals are set forth by Pradhan Mantri Awas Yojana within year 2022, to create pucca house for every family.

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals. The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies also consider the affordable housing stock already available in the city as Census data suggests that large number of houses are vacant.

Bank account number and Aadhaar number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary's native district integrate in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries is validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects.

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalising the plans and beneficiary list.

Cities which have already prepared Slum Free City Plan of Action (SFCPoA) or any other housing plan with data on housing, utilise the existing plan and data for preparing "Housing for All Plan of Action" (HFAPoA). Houses constructed under various schemes should be accounted for while preparing HFAPoA

Urban Population Living in Slums and the Indian Scenario (source: UN-HABITAT)

The preparation of HFAPoA broadly involve Slum Development/Rehabilitation Plans based on

- a. Survey of all slums – notified and non-notified;
- b. Mapping of slums using the state-of-art technology;
- c. Integration of geo-spatial and socio-economic data; and
- d. Identification of development model proposed for each slum.

1. Base maps to an appropriate scale would be a pre-requisite for the preparation of Slum Development Plan/Slum-free City Plan. States/UTs may need to proceed in the following steps for the preparation of Slum-free City Plans.

2. Securing CARTOSAT II/latest satellite images from NRSC/ISRO and preparation of base maps for the whole city and its fringes using the images;

3. Identification and inventory of all slum clusters of all descriptions in the urban agglomeration with the help of satellite image and other available data;

4. Inventory of all possible vacant lands in each zone of the urban agglomeration that could be

used for slum development/ rehabilitation development purposes;

5. Development of Slum Map of every slum within the city and its fringes using GIS with CARTOSAT II images, ground level spatial data collected through total station survey, collating spatial information with respect to plot boundaries, network of basic infrastructure like roads, sewerage, storm drainage and water lines, etc and superimposing this on the satellite image and importing them into GIS platform as the first step towards the preparation of Slum Development Plans and Slum Free City Plan.

6. This may be undertaken with the help of technical partners of NRSC/ ISRO/other technical institutions.

7. Identification and engagement of Lead NGO/CBO to guide and anchor community mobilization for the purpose of slum survey, (May be more than one NGO/CBO in different slum zones) of the city. These Lead NGOs/CBOs should also be associated in slum survey operations and dialogues for preparation of slum level development plans;

8. Conduct of Slum Survey based on the detailed formats (with or without changes)

prepared by the Ministry of Housing & Urban Poverty Alleviation with the help of

National Buildings Organization (NBO) - after due training of trainers, training of survey personnel /canvassers and canvassing. It would be helpful for community mobilization to pick as many canvassers from the sourced slum or nearby slum pockets;

9. Collection of bio-metric identification data of slum dwellers based on the above survey (subject to guidelines issued by Unique Identity Authority of India (UIDAI));

10. Entry of data from Slum Surveys in the web-enabled MIS application (to be provided by Ministry of HUPA), compilation and collation of data, preparation of Slum-wise, City and State Slum Survey Database and Baseline Reports. The MIS will assist in developing a robust Slum and Slum Households Information System. (Guidelines and software for development of the MIS will be issued by the Ministry of HUPA);

11. Integration of Slum MIS with GIS Maps to enable the preparation of GIS-enabled

Slum Information System that is to be used for the preparation of meaningful Slum

Development Plans and Slum-free City Plan using a city-wide/zone-based approach.(Guidelines and software for development of GIS platform and its integration with the MIS will be issued by the Ministry of HUPA);

Introduction to Pradhan Mantri Awas Yojana (PMAY)

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a 'Pucca house to every family' through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- ☐ Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town.
- ☐ Redressing the failures of the formal system that lie behind the creation of slums.

- ☐ Tackling the shortages of urban land and housing that keep shelter out of reach of the urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.

- ☐ Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.
- ☐ An integrated approach covering shelter, services and livelihoods for poor slum communities.

The duration of Pradhan Mantri Awas Yojana [PMAY]

2015 TO 2022

Eligible Components of the PMAY:

Allotment of Houses

Allotment of dwelling units will be in the name of the female member of the . Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land required for every Beneficiary.

A EWS beneficiary family will comprise husband, wife and unmarried children.

The beneficiary family should not own a pucca house (an all weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.

Following infrastructure will be considered for support under PMAY:

1. Water connection
2. Toilet facilities
3. 24 x 7 Electric facilities
4. Roads

Need for Projects

This development project models will give benefits in the city . One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor.

Such innovation could encompass:

- ☐ Projects with strong community participation i.e. Slum upgradation/ redevelopment projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation
- ☐ New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- ☐ Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence.
- ☐ Innovative or cost effective and green building design and technologies.
- ☐ Financial innovations in delivering the city/state wide programme.

Aims and Objectives

Visio n

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

Objectives

The project has been designed keeping in mind the following objectives.

- ☐ Integrated development of all existing slums, notified or non-notified, i.e., development of infrastructure and housing in the slums/rehabilitation

colonies for the slum dwellers/urban poor, including rental housing.

- ☐ Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road, street lighting.
- ☐ The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership.
- ☐ Encouraging Public Private Partnership by having pay and use toilets and educate the slum dwellers for keeping the environment clean and hygienic.

State PMAY Mission Director

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India.

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. State Urban Development Agency was set up in 1991 with a view to ensuring proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SUDA is a Society registered under the West Bengal Societies Registration Act, 1961.

Funding Pattern of PMAY

Funding pattern for PMAY(Housing for all)

- ☐ Central share 1.5 LAKHS of total cost of dwelling unit
- ☐ Beneficiary share 0.25 LAKHS of total cost of dwelling unit
- ☐ State share rest of total cost of dwelling unit
- ☐ State + ULB bear the cost of infrastructure
- ☐ State share for infrastructure to be minimum 5%

- ☐ ULB share for infrastructure to be minimum 5%
- ☐ Cost of infrastructure 10 % of sum total cost of dwelling unit

Approvals & Release of Funds

- ☐ Releases and approvals to be on the basis of DPRs which need to be submitted with approval of State Level Sanctioning and Monitoring Committee
- ☐ Innovative projects to be considered for sanction even in the preparatory stage.
- ☐ Central Funds to be released in three installments to the State Governments/SLNA; central assistance under different components will be released to the state / UTs after the approval of CSMC and with concurrence of the integrated Financial Division of the Ministry. Central share would be released in three installment of 40%,40% and 20% each.

Project Cost and Financing Strategy For Dwelling Unit

Total no of Dwelling unit = 2022Nos

Rate per Dwelling unit = 3.68 Lakhs

Total Cost of Dwelling unit = 2022 x 3.68 = 7440.96 Lakhs

Central Share = 2022×1.5 Lakhs = 3033.00 Lakhs
State Share = 2022×1.93 Lakhs = 3902.46 Lakhs
Beneficiary Share = 2022×0.25 Lakhs = 505.50 Lakhs
ULB Share = NIL

For Infrastructure

10 % of total Dwelling unit cost = 7440.96 Lakhs $\times 10\%$ = 744.096Lakhs
Central Share = NIL
State Share = $50\% \times 744.096$ Lakhs = 372.048Lakhs
Beneficiary Share = NIL
ULB Share = $50\% \times 744.096$ Lakhs = 372.048 Lakhs

The total project cost will be 81.85 crores

Out of these 81.85 Crores is the cost of Housing Infrastructure. The following table shows the share of cost between housing infrastructure & Physical Infrastructure.

Table: Cost Break up between Housing & Infrastructure

SINo.	Component	Cost on Lakhs
1.	Housing Cost(2022)Dwelling Units)	7440.96
2.	Infrastructure Cost	744.096
	Total	8185.056

Materials of construction:

- ☐ PCC (1:3:6) for foundation

- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel
- ☐ 1st Class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

Definition of Slum for Housing

Different definitions of a slum exist in different statutes and in urban poverty literature. For the purpose of HOUSING SCHEME, it is proposed to adopt the definition given in the 2001 Census, which is as follows:

- a. All areas notified as 'Slum' by State/Local Government and UT Administration under any Act;
- b. All areas recognized as 'Slum' by State/Local Government and UT Administration, which have
not been formally notified as slum under any Act;

'Slum' or 'Slum Area'– is a compact settlement of at least 20 households (For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

Situation Appraisal

The people living in the slums mostly have kutcha (10) and semi-pucca (186) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutcha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

Proposed Intervention

In line with the vision to **'housing for all'**, an integrated housing programme is proposed to be implemented. The target will be all the slum /Non Slum dwellers in the pocket.

Building Plan

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision

of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed.

Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws.

Building material

- ☐ PCC (1:3:6) for foundation
- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel
- ☐ 1st class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

Structural Design

- ☐ Following are the general considerations in the analysis/design.
- ☐ For all structural elements, M20 grade concrete and Fe 415 grade of steel is used.
- ☐ Plinth beams passing through columns are provided as tie beams.
- ☐ Pedestals are proposed up to ground level.
- ☐ Beam Centre-line dimensions are followed for analysis and design.
- ☐ For all the building, walls of 250 mm and 125mm thick with 20 mm External plaster and 12 mm thick internal plaster are considered.
- ☐ Seismic loads are considered acting in the horizontal direction along either of the two principal directions.

Design data

- ☐ Live load: 2.0 kN/m² at typical floor
- ☐ 1.5 kN/m² on terrace (With Access) : 0.75 kN/m² on terrace (without Access)
- ☐ Floor finish 50mm (0.05*24) = : 1.2 kN/m²

- ☐ Ceiling plaster 12mm (0.012*20.8) : 0.25 kN/m²
- ☐ Partition walls (Wherever Necessary) : 1.0 kN/m²
- ☐ Terrace finish: 1.5 kN/m²
- ☐ Earthquake load: As per IS-1893 (Part 1) - 2002
- ☐ Depth of foundation below ground: ,0.7 m
- ☐ Walls: 250 mm thick brick masonry walls at external and 125mm walls internal.

Reference codes:

- ☐ IS 456: 2000 - Code of practice -Plain and Reinforced concrete.
- ☐ IS :1893 :2002 - Criteria for Earthquake resistant design of structures(Part-1)
- ☐ IS: 13920: 1993 - Ductile detailing of Reinforced concrete structures subjected to seismic forces.
- ☐ SP: 34 - Hand Book on Concrete Reinforcement and Detailing.
- ☐ S: 875: 1987 - Code of practice for design loads (other than earthquake) for buildings and structures. (Part-2)

ESTIMATE FOR CONSTRUCTION OF CONCRETE ROAD PER SQ-MTR

All rates are taken from P.W.D. Schedule 2014 Effective from 1st June 2014. and 7th Corrigenda effect from 11.08.2015

Consider 30.0m x 2.0m Cement Concrete Road

Sl. No	Description						UNIT	QTY.	RATE (RS.)	AMOUNT (RS.)
	Details	No	L	B	H	Qty.				
1	Brick edging 75 mm wide with picked jhama bricks, laid true to line and level including cutting necessary trench in soil or in hard metallised surface, laying the bricks and repacking the trench (on both side of the edging) with spoils and ramming the same thoroughly complete as per direction. Page-189, Item-3. (b) Brick-on-end edging (250 mm) depth						%Metre	63.70	8,661.00	5,517.06
	For CC road	2.0	30.000			60.00				
	End side	2.0	1.850			3.70				
						Total-		63.70		
2	(A) Filling in foundation or plinth by silver sand in layers not exceeding 150 mm as directed and consolidating the same by thorough saturation with water, ramming complete including the cost of supply of sand. (payment to be made on measurement of finished quantity). Page-2, Item No.-4.						%Cum	5.52	68,771.00	3,796.16
	For CC road	1.0	29.850	1.850	0.100	5.52				
						Total-		5.52		
3	Brick soling with picked jhama bricks including preparation of bed as necessary with brick joints properly filled in and packed with powdered earth and including necessary cushion of similar material below the soling (and in between layers when more than one layer is used) completes as per direction. Page-188, Item-1. (a) Single brick flat soling (thickness 75 mm.)						Sqm	55.22	329.00	18,167.38
	For CC road	1.0	29.850	1.850		55.22				
						Total-		55.22		
4	Hire and Labour Charges for shuttering with hard wood for precast R.C. Slab curved, or stright and striking out the same including fitting, fixing the precast slab in position with necessary carriage and haulage, hosting etc, complete in all respect. (only the area in contact with concrete to be measured) Page-27, Item No.-14						Sqm	6.40	99.00	633.60
	For CC road	2.000	30.000	0.100		6.00				
		2.000	2.000	0.100		0.40				
						Total-		6.40		
5	Ordinary Cement concrete (mix 1:2:4) with graded stone chips (20 mm nominal size) excluding shuttering and reinforcement, if any, as per relevant IS codes. A) Pakur Variety. Page-11, Item-5.a a)Ground floor.						Cum	12.00	6,071.82	72,861.84
	For CC road	2.0	30.000	2.000	0.100	12.00				
						Total-		12.00		
	Earth work in filling in foundation trenches or plinth with good earth. In layers not exceeding 150 mm. including watering and ramming etc. layer by layer complete. (Payment to be made on basis of measurement of finished quantity of work). Consider total Earth cutting	2.0	30.000	0.300	0.100	1.80	%Cum	1.92	7,831.00	150.36
