TOPOGRAPHY AND SOIL

The hills of this municipal town are made up of sedimentary and metamorphic rocks of various kinds, greatly affected by the complexities of geological movements. The terrace has an inbuilt instability that makes it highly susceptible to landslides and also earthquakes.

EXISTING LAND USE

The town is mainly tea industry and tourist oriented commercial activity based town. Along the main town road, commercial activities are predominant with markets and shopping centers infesting the central core of the town.

COMMUNICATION

District head quarter Darjeeling is about 35 km. from Mirik and it connected by P.W.D road. Mirik is connected with other part of the country by road transport system. The other tourist attractive hill stations of the district viz. Kalimpong-81 km., Kurseong-52 km. Ghoom the second high altitude railway stations in the world - 26 km., are connected by road network. The nearest airport located at a distance of 65 km. towards south at Bagdogra.

AGRICULTURE

Major portion of the land under cultivation surrounded the town are used for tea garden and to some little extent for oranges. As such very small percentage of land i.e. 5% of the total cultivable lands are used for agricultural purposes to produce cabbage, zinger, and cardamom. Very negligible percentage of people is engaged in agriculture profession.

INDUSTRY

The whole Darjeeling district is famous for three "T"s viz. Tea, Timber and Tourism Industry. Darjeeling produces the finest leaf tea which has a world-wise reputation. At present most of the tea is purchased by Russia and almost by all the East European countries. 90% of

Chairman
Mirik Municipality
Mirik-Darjeeling

this tea earns foreign exchange. Orange produce at Mirik is a very good quality and exported to various places.

Tourism is the most prospective industry for Mirik. It is one of the finest tourist centers of the hill with rich scenic beauty having a large lake surrounded by mountains, ridges, spurs and deep valleys.

HEALTH FACILITY

The town has only one Govt. Hospital, having 15 beds.

Tourist Importance

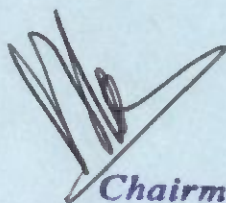

It is a very small calm town surrounded by lush green of Tea Gardens and Far Pine, Deodar, Jhau, Eucalyptus trees. The beautiful lake at Mirik is one of the biggest lakes in hill areas of India. The proposed park is situated on the side of this Mirik Lake. Hundreds of people come here every day to Mirik for enjoying the beauty of this town. But due to lack of proper tourist amenities very few tourist stays at night here. Creation of tourist recreation facilities will improve the tourism industry in this town

Mode of Implementation

The construction works of Mirik Park will be executed by Mirik Municipality under the technical guidance and supervision of **Municipal Engineering Directorate**. Considering the present condition of the proposed site it is suggested that good workman ship and cost effectiveness may be achieved if a substantial part of the work specially land escaping, path ways etc. be done by departmentally
