NABADWIP TOWN

The city of Nabadwip exists by the western bank of the river, Bhagirathi in the district of Nadia in the State of West Bengal. It is an ancient and unplanned town of an area of 11.66 Sq.Km with its own population of 1,15,036 as per Census – 2001. The density of population is 9866 per Sq Km. the number of population living in the slums is 49321 representing 42.78% of its population.

This is a flood - prone town which witnessed devastating flood in the year 1971, 1981, 1999, 2000 and 2006. In almost all other years this town experienced flood like situation.

No reliable information can be obtained regarding the time and circumstances of the origin of Nabadwip (alias Nadia). The

earliest authentic fact on recorded about it is that, in the twelfth century, it was the capital of Lakshman Sen, the last Hindu

Sovereign of Bengal. After the conquest of

**HISTORICAL
BACKGROUND**

Bakhtiyar Khillji, Nabadwip remained practically forgotten in history till the

300 Km. away here from.

There are two railway stations within the limits of Nabadwip Municipality on the
COMMUNICATION Bandel -Katwa section of the Howrah Division of the Eastern
Railway. This town is connected with Kolkata, the capital -
city of West - Bengal by railways and roadways. Krishnanagar, the District head

quarter of the district of Nadia is
connected with Nabadwip by state high-
way of 21 Kms. Of length which connects
Nabadwip with National Highway No 34
near Krishnanagar. Bus communication to
all parts of the state is available from
Nabadwip Municipal bus-stand.

There is a Police Station at Nabadwip and it is in the middle of the town .

POLICE FIRE SERVICE
POST OFFICE

Nabadwip Head Post Office is three minutes walk from the
Head office of Nabadwip Municipality. It is having a few
sub-post offices within the town. West Bengal Fire and Emergency Services has
its office with fire-fighting arrangements at this town.

There are seven Nationalized Banks, three Cooperative Banks and One Regional
Rural Banks. Insurance companies have their offices at

BANK HEALTH &
EDUCATION

Nabadwip. 125

bedded Nabadwip State General
Hospital, run by the State Health
Department is within the town. There are
five Nursing Homes and a few private
medical clinics at Nabadwip. There is a
College affiliated to Kalyani University.

There are 18 high and higher secondary schools and 53 Government aided
primary schools. There are also a few numbers of private schools at this town.

Memo No. -1216/PW/NM/2015-16

Dated-06.01.2016

From: Chairman

The town of Nabadwip exists by the western bank of the river, Bhagirathi in the district of Nadia in the State of West Bengal. It is an ancient and unplanned town of an area of 11.66 Sq.Km with its own population of 1, 25,528 as per Census – 2011. We had completed the selection of surveyors, enumerators for the Housing Demand Survey, training of that Surveyor & Supervisors, sensitization workshop for the Councilors which was held on dated-16.09.15. For wide circulation we had done a miking in all wards of our area. The demand survey (field level) had started on last-17.09.15 and completed on-28.9.15. The data entry process had already done in the SUDA prepared software compilation package. Now we have already prepared the Draft HFAPoA for Nabadwip Town. The Nodal Officer of this Mission in our ULB is the Swapan Kr. Saha, SAE, Nabadwip Municipality. Hope we shall successfully implement this mission by 2022 with help of ULB staff, Councilors, ward committees, SUDA, PMU & MED.

Chairman
Nabadwip Municipality

arrival of Chaitanya. Minhaj -I- Siraj rights that the merchants and scholars had

left the city before the raid and after the plunder, they did not return for fear of Bakhtiyar. The city, therefore, remained deserted, although in later coins, there was a mention of the revenue of Nadia. The removal of the seat of Government from Nadia to Gour led to its decay and

insignificance. It did not, however, altogether cease to exist, but continued as a seat of learning, where many Pandit (Scholar), learned in law and theology, rose to distinguish himself and shed a luster over the place. The brightest epoch in the history of Nabadwip dates from the era of Chaitanya. Brindaban Das, the celebrated biographer of Sri Chaitanya has rightly said, " No place is equal to Nabadwip in earth because Chaitanya was there incarnated." To his followers,

Chaitanya may be an apostle, and incarnate deity. But it is as a reformer and a lover of mankind he is to be looked upon. Much of Nabadwip's fame rests upon its being an ancient seat of learning, which has exercised a great influence upon the politics, morals and manners of the Bengalees. It is chiefly noted to be the great school of Nay a

Philosophy. But it has also produced scholars in law, literature, astronomy, poetry, grammer etc. Pupils were attracted to Nabadwip from great distances and often spent their life time in their Alma- Maters.

North:- Main stream of the River, Bhagirathi East :-River Bhagarathi and Mouza

Gadkhali South:- From the point on the Western boundary of Mouza

processed, stored in the godown here at and supplied here

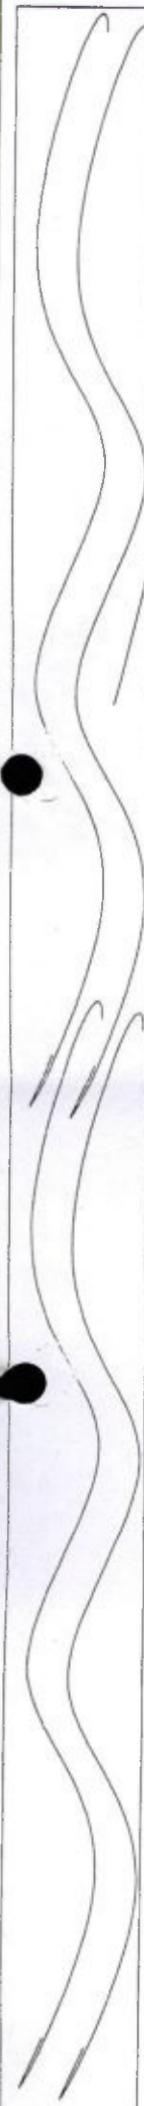

from to the jute - industries. The economy of this town is

largely based on hand-loom weaving industries. The

Handloom products produced in the town and its adjoining areas are

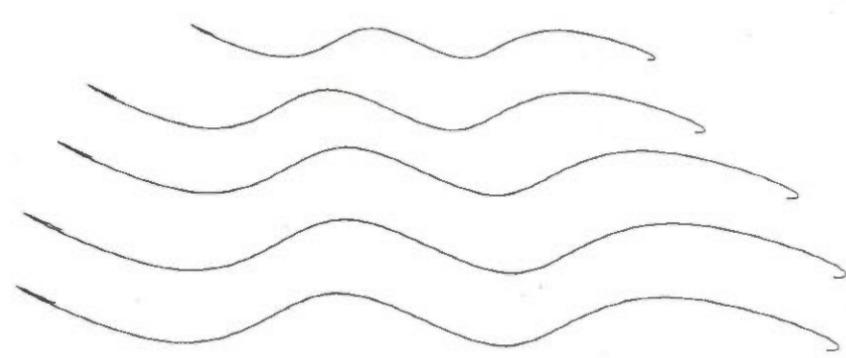

accumulated in the market known as 'Haat' (market). There are units making

ready made garments, bidis, and bell-metaled utensils.

8.0	Future prospective	: Growth rate of 2% can be predicted. Town is already emerged as a service centre as linked well with railways and by road.
8.1	Have you got a master plan prepared for the town? If not, indicate whether a master plan	: No

Census	Population	Percentage of Growth / downfall
1981	118000	9% (G)
1991	125247	6.14% (G)
2001	115036	8.15% (D)

Note:- During the devastating flood-2000 and thereafter nearly 25000 people left Nabadwip resulting downfall of population as enumerated in census - 2001. The population is again increasing from the year - 2002.

The town itself is the place of interest as it is the birth - place of Sri Chaitanya.

PLACE OF INTEREST	This is a town of temples. There are more than one hundred temples standing in every part of the town divided in to four parts, marked as north, south, east and west.
-------------------	--

The following are the sites buildings identified as heritage ones :-

- ◆ Mahaprabhu Mandir, worshiped by Bishnupriya Debi, Mahaprabhu para, Nabadwip, Nadia
- Old Temple inside the area of Mahaprabhu Mandir
- ◆ The temple of birth-place of Mahaprabhu, Sri Chaitanya Dev at Prachinmayapur,

Nabadwip , Nadia

- ◆ Birth place of Bishnu Priya Devi, at Malanchapara, Nabadwip Nadia
- ◆ Buroshib Mandir, Buroshibtala, Nabadwip, Nadia.
- ◆ Porama Temple, Shiva Temple and Bhabatarini Mandir at Poramatala Road, Nabadwip, Nadia.
- ◆ Temple of Agameswari Debi at Agameswari Para, Nabadwip, Nadia
- ◆ Sanskrit College, Nabadwip, Nadia, Pacca toll Road, Nabadwip, Nadia
- ◆ Manipur Rajbari , Nabadwip, Nadia
- ◆ Bangabani at Nidaya Ghat, Nabadwip, Nadia

For spiritual occasions such as Rush, Durga Puja, Kali Puja, Doljatra lakhs of people come here to visit the temples. Some of those also stay in Nabadwip for few days. In Rush Purnima itself 10-12 lakh people come here during 3 days duration of the festival. In Doljatra also 4-5 lakh people come here during 2 days duration of the festival. The great ISCON temple is situated in just opposite side of Nabadwip town on the bank of river Ganga.

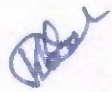

The town of Nabadwip is located under humid tropical climate with maximum and minimum temperature about 43° C and 8° C respectively. The average rainfall is 1400 mm. The major portion of rainfall is received during the month of June to October. The town of Nabadwip is on the soil of the Gangetic plains by the western side of the river, Bhagirathi (branch of the Ganga) which is falling into the Bay of Bengal about

**LIST OF SLUM AND NON SLUM
STATUS OF
PHYSICAL INFRASTURE**

STATUS OF PHYSICAL INFRASTRUCTURE

1.DAS PARA	
Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Storm-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	Yes
5. Frequency of garbage Disposal	Weekly
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 3 days
8. Approach Road/Lane/Constructed Path to Slum	Katcha
9. Distance from the nearest Motorable road	Less than 0.2 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	No
2. CHANDRA COLONY	
Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Storm-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	Yes
5. Frequency of garbage Disposal	Once in a week
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 3 days
8. Approach Road/Lane/Constructed Path to Slum	katcha
9. Distance from the nearest Motorable road	Less than 0.6 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	No
3. KUTIRPARA, SREE RAMPUR Rd.	
Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply	Partially connected

System	
2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	Daily
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorablekatcha
9. Distance from the nearest Motorable road	Less than 0.5 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	Partially

4. CHATIRMATH AND PALPARA

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	Once in a weak
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorablekatcha
9. Distance from the nearest Motorable road	Less than 0.4 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	Partly

5. Ola Devtala, Kamal Biswas Lane

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected

4. Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	Twice in a week
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorable katcha
9. Distance from the nearest Motorable road	Less than 0.5 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	partly

6. MALANCHI PARA

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Storm-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	No
5. Frequency of garbage Disposal	Daily
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorable katcha
9. Distance from the nearest Motorable road	Less than 0.5 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	No

7. SARASWAT PALLY

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Storm-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	No
5. Frequency of garbage Disposal	Daily
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days

8. Approach Road/Lane/Constructed Path to Slum	katcha
9.Distance from the nearest Motorable road	Less than 0.5 km
10.Internal Road	Non-motorable
11.Whether Street light facility is available in the Slum	No

8. CHATO GINNER PUKUR

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4.Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	Daily
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorablekatcha
9.Distance from the nearest Motorable road	Less than 0.5 km
10.Internal Road	Non-motorable
11.Whether Street light facility is available in the Slum	No

9. BARAGINNAR PUKUR

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4.Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	weekly
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	katcha
9.Distance from the nearest Motorable road	Less than 0.5 km
10.Internal Road	Non-motorable
11.Whether Street light facility is available in the Slum	No

10. JOGESH SAHA LANE	
Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Storm-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	weekly
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorable katcha
9. Distance from the nearest Motorable road	Less than 0.5 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	Some part is connected
11. DARIK BABU LANE	
Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Storm-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	yes
5. Frequency of garbage Disposal	Weekly
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 4 days
8. Approach Road/Lane/Constructed Path to Slum	katcha
9. Distance from the nearest Motorable road	Less than 0.5 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	No
12. MATH PUT, 2 ND LANE, A BAGAN R M K LANE	
Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected

2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	Yes
5. Frequency of garbage Disposal	
6. Arrangement for Global Disposal	Municipal staff
7. Frequency of clearance open drains	Once in 2 days
8. Approach Road/Lane/Constructed Path to Slum	Motorable katcha
9. Distance from the nearest Motorable road	Less than 0.5 km
10. Internal Road	Non-motorable
11. Whether Street light facility is available in the Slum	No

13 Ghosh Para

Physical Infrastructure	Status
1. Connectivity to City-wide Water Supply System	Partially connected
2. Connectivity to City-wide Strom-water Drainage Supply System	Partially connected
3. Connectivity to City-wide Sewerage System	Partially connected
4. Whether the slum is prone to flooding due to rains	Yes
5. Frequency of garbage Disposal	No

PREFACE

Pradhan Mantri Awas Yojana (PMAY) aims at Providing Housing for All (HFA) 2022 when the Nation Complete 75 years of its independence.

The urban homeless persons contribute to the economy of the cities and thus the Nation as cheap labour in the informal sector yet they live with no shelter or social security. The urban homeless service with many challenges like no access to elementary Public Services such as health, education, food, water and sanitation. Pradhan Mantri Awas Yojana (PMAY) also aims at providing a pucca house to every family with water connection, toilet facilities, electricity supply and access. The Mission seeks to address the housing requirement of urban poor including slum dwellers through Slum Redevelopment, Affordable Housing through Affordable Housing in partnership and subsidy for beneficiary led individual house. Under the mission, beneficiaries can take advantage. A demographic trend suggests that India is on the verge of large scale urbanisation over the next few decades. With more than one crore population getting added to urban areas, Housing, a basic need for humans, could play an important role in accommodating high urban growth in India. However, several structural issues such as high gestation period of housing projects, limited and expensive capital, spiraling land and construction cost, high fees and taxes, unfavorable development norms and low affordability by Economical Weaker Section (EWS) and Lower Income Group (LIG) households are bottlenecks restricting desired growth in housing stock in India with respect to housing demand. As per studies² conducted by the Ministry of Rural Development and the Ministry of Housing and Urban Poverty Alleviation, it is estimated that almost a quarter of Indian households lack adequate housing facility. The central government acknowledges the importance of housing issue in the country and has launched a massive campaign that promises to provide housing to all its citizens by the year 2022. **Most of the housing development may need to be done for EWS/LIG households urban areas whose income is very low.** Our analysis also reveals that it is the urban affordable housing that require the central and state governments' renewed focus, as this segment may require almost half of the total investments envisaged. The government needs to accelerate the efforts to broad-base and significantly augment public-private-partnership programmes introduced in the past. In order to achieve this, several requisite policies and regulations promoting better coordination between housing stakeholders; delegation of power to urban local bodies; reduction in project gestation period; rationalisation of fees and taxes; a relook at development norms; empowerment of EWS/LIG households; and steps for reduction in project cost and schedule overruns need to be evaluated. **Hope for action for central and state governments, and ULBs to golden meet the vision of 'Housing for all by 2022'.**

Chairman
Nabadwip Municipality
