PREFACE

Just like food and cloth, shelter is also an essential item for survival of the human being. In our country all the people are yet to be covered by permanent shelter. Pradhan Mantri Awas Yojana (PMAY) aims to provide housing for all (HFA) by 2022 when the Nation will Complete 75 years of its independence.

Though urban homeless people are contributing lot of services to the urban area, major source of cheap labour in the informal sector, they are facing many challenges like permanent shelter, access to elementary Public Services such as health, education, food, water and sanitation. Pradhan Mantri Awas Yojana (PMAY) aims to provide pucca house to every family with water connection, toilet facilities, 24 X 7 electricity supply and access.

The Mission seeks to address the housing requirement of urban poor including slum dwellers through "In Situ" Slum Redevelopment, Affordable Housing through credit linked subsidy, Affordable Housing in partnership and subsidy for beneficiary led individual house. Under the mission, beneficiaries can take advantage under one component only.

Total beneficiaries of the scheme are 700 numbers of which 378 numbers from slum and remaining 322 numbers from Non Slum projected for the year 2017-18 .

Total cost of the project is **Rs. 2833.60 lakhs** as per relevant department & P.W.D. schedule of rates.

HFAPoA and Pradhan Mantri Awas Yojana (Housing for All)

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to 'achieve significant improvement in the lives of slum dwellers, by 2022'. Similar goals are set forth by Pradhan Mantri Awas Yojana within year 2022, to create pucca house for every family.

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals. The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies also consider the affordable housing stock already available in the city as Census data suggests that large number of houses are vacant.

Bank account number and Aadhaar number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary's native district integrate in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries is validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects.

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalising the plans and beneficiary list.

Cities which have already prepared Slum Free City Plan of Action (SFCPoA) or any other housing plan with data on housing, utilise the existing plan and data for preparing "Housing for All Plan of Action" (HFAPoA). Houses constructed under various schemes should be accounted for while preparing HFAPoA

Urban Population Living in Slums and the Indian Scenario (source: UN-HABITAT)

The preparation of HFAPoA broadly involve Slum Development/Rehabilitation Plans based on

- a. Survey of all slums – notified and non-notified;
 - b. Mapping of slums using the state-of-art technology;
 - c. Integration of geo-spatial and socio-economic data; and
 - d. Identification of development model proposed for each slum.
-
1. Base maps to an appropriate scale would be a pre-requisite for the preparation of Slum Development Plan/Slum-free City Plan. States/UTs may need to proceed in the following steps for the preparation of Slum-free City Plans.
 2. Securing CARTOSAT II/latest satellite images from NRSC/ISRO and preparation of base maps for the whole city and its fringes using the images;
 3. Identification and inventory of all slum clusters of all descriptions in the urban agglomeration with the help of satellite image and other available data;
 4. Inventory of all possible vacant lands in each zone of the urban agglomeration that could be
used for slum development/ rehabilitation development purposes;
 5. Development of Slum Map of every slum within the city and its fringes using GIS with CARTOSAT II images, ground level spatial data collected through total station survey, collating spatial information with respect to plot boundaries, network of basic infrastructure like roads, sewerage, storm drainage and water lines, etc and superimposing this on the satellite image and importing them into GIS platform as the first step towards the preparation of Slum Development Plans and Slum Free City Plan.
 6. This may be undertaken with the help of technical partners of NRSC/ ISRO/other technical institutions.
 7. Identification and engagement of Lead NGO/CBO to guide and anchor community mobilization for the purpose of slum survey, (May be more than one NGO/CBO in different slum zones) of the city. These Lead NGOs/CBOs should also be associated in slum survey operations and dialogues for preparation of slum

level development plans;

8. Conduct of Slum Survey based on the detailed formats (with or without changes) prepared by the Ministry of Housing & Urban Poverty Alleviation with the help of National Buildings Organization (NBO) - after due training of trainers, training of survey personnel /canvassers and canvassing. It would be helpful for community mobilization to pick as many canvassers from the sourced slum or nearby slum pockets;

9. Collection of bio-metric identification data of slum dwellers based on the above survey (subject to guidelines issued by Unique Identity Authority of India (UIDAI));

10. Entry of data from Slum Surveys in the web-enabled MIS application (to be provided by Ministry of HUPA), compilation and collation of data, preparation of Slum-wise, City and State Slum Survey Database and Baseline Reports. The MIS will assist in developing a robust Slum and Slum Households Information System. (Guidelines and software for development of the MIS will be issued by the Ministry of HUPA);

11. Integration of Slum MIS with GIS Maps to enable the preparation of GIS-enabled

Slum Information System that is to be used for the preparation of meaningful Slum Development Plans and Slum-free City Plan using a city-wide/zone-based approach.(Guidelines and software for development of GIS platform and its integration with the MIS will be issued by the Ministry of HUPA);

Introduction to Pradhan Mantri Awas Yojana (PMAY)

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a 'Pucca house to every family' through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- ☐ Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town.
- ☐ Redressing the failures of the formal system that lie behind the creation of slums.
- ☐ Tackling the shortages of urban land and housing that keep shelter out of reach of the

urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.

☐ Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.

☐ An integrated approach covering shelter, services and livelihoods for poor slum communities.

The duration of Pradhan Mantri Awas Yojana [PMAY] 2015 TO 2022

Eligible Components of the PMAY:

Allotment of Houses

Allotment of dwelling units will be in the name of the female member of the . Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land required for every Beneficiary.

A EWS beneficiary family will comprise husband, wife and unmarried children.

The beneficiary family should not own a pucca house (an all weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.

Following infrastructure will be considered for support under PMAY:

1. Water connection
2. Toilet facilities
3. 24 x 7 Electric facilities
4. Roads

Need for Projects

This development project models will give benefits in the city . One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor.

Such innovation could encompass:

- ☐ Projects with strong community participation i.e. Slum upgradation/ redevelopment projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation
- ☐ New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- ☐ Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence.
- ☐ Innovative or cost effective and green building design and technologies.
- ☐ Financial innovations in delivering the city/state wide programme.

Aims and Objectives

Vision

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

Objectives

The project has been designed keeping in mind the following objectives.

- ☐ Integrated development of all existing slums, notified or non-notified, i.e., development of infrastructure and housing in the slums/rehabilitation colonies for the slum dwellers/urban poor, including rental housing.
- ☐ Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road, street lighting.
- ☐ The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership.

State PMAY Mission Director

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India.

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. State Urban Development Agency was set up in 1991 with a view to ensuring proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SUDA is a Society registered under the West Bengal Societies Registration Act, 1961.

Funding Pattern of PMAY

Funding pattern for PMAY(Housing for all)

- ☐ Central share 1.5 LAKHS of total cost of dwelling unit
- ☐ Beneficiary share 0.25 LAKHS of total cost of dwelling unit
- ☐ State share rest of total cost of dwelling unit
- ☐ State + ULB bear the cost of infrastructure

- ☐ State share for infrastructure to be minimum 5%
- ☐ ULB share for infrastructure to be minimum 5%
- ☐ Cost of infrastructure 10 % of sum total cost of dwelling unit

Approvals & Release of Funds

- ☐ Releases and approvals to be on the basis of DPRs which need to be submitted with approval of State Level Sanctioning and Monitoring Committee
- ☐ Innovative projects to be considered for sanction even in the preparatory stage.
- ☐ Central Funds to be released in three installments to the State Governments/SLNA; central assistance under different components will be released to the state / UTs after the approval of CSMC and with concurrence of the integrated Financial Division of the Ministry. Central share would be released in three installment of 40%,40% and 20% each.

Project Cost and Financing Strategy

For Dwelling Unit

Total no of Dwelling unit = 700Nos

Rate per Dwelling unit = 3.68 Lakhs

Total Cost of Dwelling unit = $700 \times 3.68 = 2576.00$ Lakhs

Central Share = 700×1.5 Lakhs = 1050.00 Lakhs

State Share = 700×1.93 Lakhs = 1351.00 Lakhs

Beneficiary Share = 700×0.25 Lakhs = 175.0 Lakhs

ULB Share = NIL

For Infrastructure

10 % of total Dwelling unit cost = $2576.0 \text{ Lakhs} \times 10\% = 257.60$ Lakhs

Central Share = NIL

State Share = $50\% \times 257.60$ Lakhs = 128.80 Lakhs

Beneficiary Share = NIL

ULB Share = $50\% \times 257.60$ Lakhs = 128.80 Lakhs

The total project cost will be 28.33 crores

Out of these 25.76 Crores is the cost of Housing Infrastructure. The following table shows the share of cost between housing infrastructure & Physical Infrastructure.

Table: Cost Break up between Housing & Infrastructure

SlNo.	Component	Cost on Lakhs
1.	Housing Cost(700)Dwelling Units)	2576.00
2.	Infrastructure Cost	257.60
	Total	2833.60

- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel
- ☐ 1st Class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

Definition of Slum for Housing

Different definitions of a slum exist in different statutes and in urban poverty literature. For the purpose of HOUSING SCHEME, it is proposed to adopt the definition given in the 2001 Census, which is as follows:

- a. All areas notified as 'Slum' by State/Local Government and UT Administration under any Act;
- b. All areas recognized as 'Slum' by State/Local Government and UT Administration, which have
not been formally notified as slum under any Act;

‘Slum’ or ‘Slum Area’– is a compact settlement of at least 20 households (For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

Situation Appraisal

The people living in the slums mostly have kutchha (10) and semi-pucca (186) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutchha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

Proposed Intervention

In line with the vision to **‘housing for all’**, an integrated housing programme is proposed to be implemented. The target will be all the slum /Non Slum dwellers in the pocket.

Building Plan

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed.

Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws.

The North Barrackpore Municipality:

North Barrackpore Municipality was established on 1 April 1869 under British Rule in India. After prolonged struggle and on the basis of persistent demand for formation of Local Self Government, the freedom fighter achieved the goal and resulting thereby Rastraguru Surendra Nath Bandopadhyay founder of Local Self Government, was elected Chairman of this Municipality in the year 1885. He was the first Indian Elected Chairman and he held that chair in this Municipality for long 34 years from 1885 to 1889 and 1891 to 1921. At present total area of this Municipality is 12.22 Sq. Km. Total Population is 1, 23, 668 as per Census 2001. There are 23 wards. Total BPL population of this ULB is 19,932. The total no. of BPL family in this ULB is 4,663 as per the record of UPE cell of North Barrackpore Municipality. This

Municipal area is bounded by Garulia Municipal area at North, Barrackpore Municipal area & Barrackpore Cantonment area at South, Kaugachi & Mohanpur Gram Panchayet area at East and river Hooghly at West. The then North Barrackpore Municipality was established with dwellings units and subsequently Palta Water Works, now known as Indira Gandhi Water Treatment Plant, two big Ordinance Factories viz, Rifle Factory & Metal & Steel Factory and thereafter Indian Air Force Station were established within this Municipal area. So, Geographically the Municipality is segregated into three parts and is not compact one. Only Mechanised Brick Factory of State Government throughout the State of West Bengal and Inland Fisheries Capture & Research Institute are creditable organizations within this Municipal area. There are two Railway Stations within this Municipality, which are Ichapore Station and Palta Station (on the Eastern Railway Sealdah-Ranaghat section). River Hooghly has been flowing by the Western side of the Municipality. In the year 1995 some area had been included from Mohanpur Gram Panchayet by Gazettee Notification.

History of Evolution:

The entire area that today constitutes North Barrackpore and Barrackpore Municipality owes its development to the defence estates set up by the British. Being the site for permanent British barracks, factories and other defence establishments, brought with them allied services like the railway and water ways that helped the town to grow over time. The first Arms Manufacturing facility was established by the British in Ichapore in 1787 followed by a Gun & Carriage Manufacturing facility in 1801. Infrastructure facilities were developed by the British Government solely for the cantonment area while the rest of the settlements depended on nature. In 1869, the British government established the North Barrackpore Municipality for effective local governance and expanded civic amenities to the town in general. The upgradation of Arms Manufacturing facility to Rifle Factory in 1904 and the establishment of the Metal & Steel Factory in Ichapore in 1905 induced further migration of people and growth of the town around the estates. Between

1981 and 1991, some areas from the Barrackpore Municipality was included into North Barrackpore followed by some areas from the Mohanpur Gram Panchayat in the south east in 1995. Presently, the total area of the municipality (including the defence estates) is 13.56 sq.km of which 8.88 sq.km. (65%) comes under the direct jurisdiction of the municipality.

North Barrackpore hosts 3 major defense establishments within its boundaries with a combined area of 4.68 sq.km. While 2 estates, namely the Air Force Base at Palta in the south of the city and the Metal and Steel Factory, Ichhapore (also called Northland) area located on the western side of the railway line, the Eastland Estate is located on the eastern side of the railway line. Although the three estates are governed by the central government, they are of immense economic and social importance to the city.

The Entisols are present in the western part of the town and the other part is represented by Alfisols. These soils are typically Deltaic Alluvial soil rich in calcium. North Barrackpore and neighbouring areas are represented predominately by clayey soils.

Topographical area of the town may be divided into three parts: i) The Levee, ii) The Marshes and iii) The Plains. While the Levee occurs mostly on the western side of the municipality, along the riverbank, the Marshes exist on the east of the railway line. The older part of the city exists on the plain land that lies in between the Levee and Marshes. It is observed that most of the present urban expansion is taking place in the marshes on the eastern side.

Climate:

North Barrackpore has hot and humid summer and dry winter, typical of West Bengal. The rainy season is typically from mid-July to mid- or late October. Strong monsoon winds blowing from the South Bay of Bengal over this area generates ample rainfall (average rainfall is 1350mm). Average temperature during summer can go as high as 38 degree Celsius and in winter the mercury plunges to drop down to 10 degree Celsius. Humidity, in the time of summer, is often above 90% and is the primary reason of discomfort.

Demography : As per Census,2011 total population of the Municipality is 132656, of which Male is 67036 and Female is 65619.

North 24 Parganas has 27 municipalities in the district making it the district with the highest number of urban local bodies in the country. Figure 1.2: Population growth in North Barrackpore

Overall population and the corresponding decadal growth levels of the North Barrackpore over the past 40 years have been presented in the figure alongside:

North Barrackpore Municipality has witnessed high population growth rate for two decades due to addition of new areas to the municipal limits. The final growth rate adopted is per the CAGR method is at the rate of 0.87% per annum.

The city experienced a phenomenal growth in population (23%) between 1981 and 1991 because parts of Barrackpore Municipality in the south were added to North Barrackpore in this decade. Further, in 1995, the incorporation of some areas from the nearby Mohanpur Gram Panchayat in the east further increased the population of the city.

Over the last decade, the population growth rate of the city has fallen to 7% which is lower than the state level decadal growth rate of 13.8% as well as the district population growth rate of 12%. This could be because of the dwindling economy brought about by the shrinking of the existing industrial base, meagre recruitment of the defence factories and migration of citizens for better job prospects outside the city.

Other aspects:

(i) Rainfall : Maximum rainfall occurs during the monsoon in August (306 mm) and the average annual total is 1,582 mm. Total duration of sunshine is 2,528 hours per annum with maximum rainfall occurring in mid July/August.

(ii) Environment : Traditionally, in North Barrackpore Municipality most investment in infrastructure has been publicly funded. The current total infrastructure spending is still financed by governments or public utilities, such as, Municipal Affairs Department, Kolkata Metropolitan Development Authority, Kolkata Metropolitan Water and Sanitation Authority; West Bengal State Electricity Board; Public Works Department; West Bengal Pollution Control Board etc. by utilizing their own resources.

(iii) Wind : In the summer season winds are mostly North Easterly or easterly but in afternoon Westerly winds blow which are absorbed frequently. During the monsoons the winds blow from the Northeast and Southern direction.

more than 60% of which is contributed by the CIFRI and Palta water treatment plant waterbodies (0.88 sq.km) lying in the south-western part of North Barrackpore. However, the city is endowed with numerous waterbodies especially in its eastern part.

- Major contribution to the industrial land use within the municipality comes from the Mechanized Brick factory of the State Government. However, there are a number of small scale industries that operate in the city along with a few brick kilns that are concentrated in the southern part of the North Barrackpore.
- Most commercial establishments occur in the areas adjoining the transport corridors and are found to concentrate near the railway stations and traffic nodes.
- North Barrackpore like many other developing cities has a paucity of developable land and can only rely on the newly added village lands in the eastern part of the city for expansion.
