TOWN FEATURES

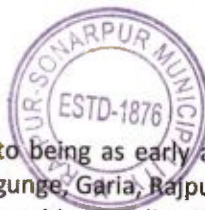

Rajpur Sonarpur Municipality is one of the fastest growing urban local bodies of Kolkata Metropolitan Area. From the demographic analysis it becomes apparent that between the two successive Census years 1991 & 2001 respectively, there has been a significant transformation within the municipality. Abnormal pressure of population growth. Uneven distribution of population across the wards, uneven distribution of population across economic classes leading to diverse civic amenities requirement characterized the urbanization pattern of the ULB and adverts the need for rapid development of socio-economic life of all the strata of the civic society to cope with the challenges arising out of undulating population spread-out.

VISION

To prepare a comprehensive plan it was essential to have a futuristic vision for the municipality towards which the planning may be framed. The vision was defined what the leadership desires to see their city achieve over the next 5-10 year period. The vision thus extends beyond areas of municipal functions and sectors, and specifies accomplishments in other sectors the leadership desires that should be achieved.

Vision is to achieve pro-poor, transparent and effective urban development and good governance along with improving on the basic infrastructural services provided to all, living conditions, healthy environment, educational standards, with special employment generation programmes for the poor, marginalized and economically vulnerable groups people.

Rajpur-Sonarpur Municipality under able political leadership and with the restructured administrative support aims at transforming itself in such a way as to be able to usher in a change in living conditions and quality of life of the citizens in general, and the people living below poverty line in particular, determined to build and improve the physical infrastructures such as supply of safe drinking water, sanitation, roads, health for a better civic life with special focus on the comprehensive improvement/development of slum concentrated areas through decentralization, institutionalization through Ward Committees and C.D.S Structures, ensuring balanced growth through prioritization of projects and mobilization of available financial and human resources to achieve pro-poor, transparent and effective urban development and good governance, and thus providing all our citizens with a safe living environment, all youth gainful employment, and business, houses and entrepreneurs, both existing and prospective, a favourable environment for their investment, to achieve over the next 5-10 years period an environmentally and economically vibrant urban life.

The Rajpur-Sonarpur Municipality was brought into being as early as 1869 under the style of South Suburban Town Committee, covering Behala, Tollygunge, Garia, Rajpur etc. Later, in the year 1876, out of the said area Rajpur was segregated to form Rajpur Municipality. To start with, the Municipality had a small area of 2 sq.miles comprising the villages of Rajpur, Jagaddal, Harinavi, Malancha, Kodalia and so on. Since then the area underwent expansion from time to time. In 1993, 26 more mouzas from the then semi-urbanized panchayat area were tagged to the existing 11 mouzas of this urban local body.

Consequent upon the influx of refugees of the erstwhile East Pakistan (Bangladesh) and various other socio-economic reasons, the demographic features were subjected to a sea change. There had been disproportionate increase of population here since independence. Because of its location within the KMA and its nearness to Kolkata proper, people from the adjoining villages and localities have thronged into this urban agglomeration, which includes high income brackets, middle income groups, the poor and the marginalized, thereby spelling the need for improvement of municipal facilities. Besides, because of rapid pace of urbanization with consequential eviction of the poor, many people swarmed into this municipal area where land was affordably cheap.

The municipality tried its level best to cope with the pressure of population. But it will be a tall claim to say that it could achieve much to alleviate the civic problems of the citizens. In fact, it is only recently that this urban local body has taken strides to solve the civic problems. But fund constraints have stunted the achievements to a great extent.

YEAR OF ESTABLISHMENT

Garia -1, Garia-2, Sonarpur-1, Rishi Rajnarayan-1, Rishi Rajnaryan-2, Narendrapur, and partly Sonarpur-2, Kamrabad, Polghat. The reconstituted municipality came into being on the 16th December 1993 and was renamed as Rajpur-Sonarpur Municipality. Initially it had 30 wards. After delimitation in 1998 the number of wards increased to 33. Rajpur Municipality (area-20.98 sq.km. population-66,000), Rajpur-Sonarpur Municipality (area-49.25, Population-4.23 lakh as 2011 census).

ADMINISTRATIVE BOUNDARIES

This Municipality is bounded to the north by KMC, to the south by Baruipur Municipality and to the east as well as to the west by the Gram Panchayat of Sonarpur Panchayat Samity.

LINKAGES OF RAIL, ROAD, PORT AND AIR

The Eastern railways have four railways station namely Garia, Narendrapur, Sonarpur and Subhasgram, all within this municipality. The EM By-Pass connects this urban local body with the Netaji Subhas Chandra Bose Airport, only 30 km away from Sonarpur. The Kolkata Port is connected with the Municipality through Highways via Kolkata. The Metro Railway line skirts the Municipality on the northern side. Besides, the proposed Kulti port also will be connected with the proposed Southern Express Highway.

ECONOMIC ACTIVITY

There are some important industries namely Senbo, ACC, Pepsi, Shalimar, Dabur, Patton etc., within the municipality area. There are large number of medium and small-scale industries also. Last Economic Census 2005, shows that a total 24,840 number of enterprises are running in this municipal area. And of these 91% belong to non-agriculture sector.

DEMOGRAPHIC GROWTH AND POPULATION PROJECTION

Rajpur Sonarpur Municipality is divided into 35 wards covering 49.25 Sq. Km., with total population 4.23 lakhs (provisional, 2011) while 3.36 in 2001. The current decadal population growth rate of the Municipality is approximately 25.9 % and if it continues population by the year 2021 will be around 5.3lakh, means the population density will be 10800 persons per Sq. Km while at present is around 8588 persons per Sq Km.

As it is evident from the table below that, between the three successive census years, there has been a significant transformation within the municipality. During this period, the municipality has under gone through jurisdictional expansion as well as delimitations of its wards. 1993 was the year when Rajpur Municipality was expanded from 20.98 Sq. Km. to 49.25 Sq. Km. and wards from 30 to 33 in 1998 and 35 wards in 2010. This has contributed significantly towards the population growth of this municipality.

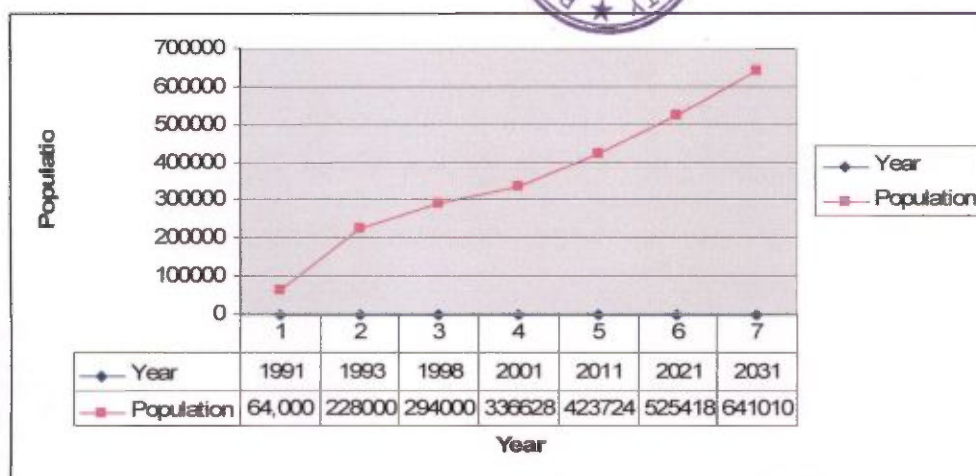

But apart from natural growth in population there are few other factors contributing towards the growth pattern. Due to its locational advantage there has been rapid urbanization within the municipality. With each passing day the number of settlers from Kolkata and other fringe areas has been increasing resulting in major population pressure.
