Introductory Note by Chairman

I would like to take this privilege to inform you that the Ranaghat Municipality has finished the preparation of DPR for BLC under Housing for All in slum and Non Slum area for 2015-16. The information provided in the document is absolutely flawless and reliable.

Ranaghat Municipality with the active cooperation of citizen for last so many years has grown up as capable and robust institute for effective service delivery and better governance. During these years the shape and the socio- cultural atmosphere of the Municipality has changed to unimaginable extent. And gradually it too has imbibed the spirit of contemporary civilization of 21st century and got acquainted with the sphere of Modernization, Industrialization and Globalization.

In this regard I would like to thank all the Municipal citizen, ward committee, respective ward councillors, CDS, NHC, NHG, Municipal staff and who have rendered their valuable services towards the completion of the draft plan document. I would also take this opportunity for thanking to Municipal Affaire Dept. Govt of WB and especially to the SUDA for their guidance and support as and when it was required.

The external agency who provided the all-round support to technical analysis to documentation & compilation and finally preparing the document in its present form along with staff. The Municipality wishes to express deep gratitude to all of them.

I wish that this DPR for BLC under Housing for All in slum and Non Slum area for 2015-16 would enable our ULB to design comprehensive development of its jurisdiction.

Working Definitions

Affordable Housing Project:	Housing projects where 35% of the houses are constructed for EWS category
Beneficiary	A beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India.
Carpet Area	Area enclosed within the walls, actual area to lay the carpet. This area does not include the thickness of the inner walls
Central Nodal Agencies	Nodal Agencies identified by Ministry for the purposes of implementation of Credit linked subsidy component of the mission
Economically Weaker Section (EWS):	EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.
EWS House	An all-weather single unit or a unit in a multi-storeyed super structure having carpet area of upto 30 sq. m. with adequate basic civic services and infrastructure services like toilet, water, electricity etc. States can determine the area of EWS as per their local needs with information to Ministry.
"Floor Area Ratio"(FAR)/FSI	The quotient obtained by dividing the total covered area (plinth area) on all the floors by the area of the plot: $FAR = \frac{\text{Total covered area on all the floors} \times 100}{\text{Plot area}}$ If States/Cities have some variations in this definition, State/City definitions will be accepted under the mission
Implementing Agencies	Implementing agencies are the agencies such as Urban Local Bodies, Development Authorities, Housing Boards etc. which are selected by State Government/SLSMC for implementing Housing for All Mission.
Low Income Group (LIG):	LIG households are defined as households having an annual income between Rs.3,00,001 (Rupees Three Lakhs One) up to Rs.6,00,000 (Rupees Six Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.
Primary Lending Institutions (PLI)	Scheduled Commercial Banks, Housing Finance Companies, Regional Rural Banks (RRBs), State Cooperative Banks, Urban Cooperative Banks or any other institutions as may be identified by the Ministry
Slum	A compact area of at least 300 population or about 60-70 households of poorly built congested tenements, in unhygienic environment usually with inadequate infrastructure and lacking in proper sanitary and drinking water facilities.
State Land Nodal Agencies (SLNAs)	Nodal Agency designated by the State Governments for implementing the Mission
Transfer of Development Rights (TDR)	TDR means making available certain amount of additional built up area in lieu of the area relinquished or surrendered by the owner of the land, so that he can use extra built up area himself in some other land.

Town Feature

Town Feature

History

The Ranaghat town previously located in the territory of the Maharaja of Nadia. The local people says that the name Ranaghat was taken from the notorious dacoit Rana. It is on record that dacoit horded here in 1809. At that time Mr. Tytlor was Magistrate. Another myth is there that the name emerged from the queen Rana of the famous Krishna Chandra maharaja of Nadia. The town was initially the settlement of renowned zamindar family, "Pal Chowdhury" family (referred to by Bishop Heber in his journal). Krishna Chandra Panti and Sambhu Chandra Panti, two brothers who were originally petty traders in his place, founded the family. The brothers were monopolized salt trader that at that time was sold by auction by the Board of Revenue. "Pal Choudhury" is the title conferred by the Maharaja of Nadia. The family had done a lot of public work in the area. Besides a number of temples (viz. Siddeswari Pratima, Nistarani Devi's temple, Madan Mohon's temple etc.), the poultry multiplication center and Agriculture Farm for improved cultivation are notable features of the town. After 1941, the refugees again swarmed the town. The migrated refugees mainly settled along the Railway line. Few refugee campus opened at the time and many of those later on merged within the town area itself while bigger ones have still left out as refugee transit campus in some form. One of these is known as Coppers Depot very close to the railway line at the southern side of the town.

Ranaghat Municipality started its maiden journey in 1864. The renowned zamindar family viz. Pal Chowdhury family donated the building where the office was established in 1984. It was the 7th Municipality of undivided Bengal. At that time the municipal area was 3.32 sqmiles spread over total 6 nos. of ward and the population strength was 6,000. The first Board was formed with 12 no of councillors (12 were elected by citizens, 4 were nominated by the state Govt. and the remaining 2 were ex-officio councillors). Gradually Nasra Colony, a refugee settlement, was added to the Municipal area and its area became 7.72 sq.k.m. Due to the enhancement of area and population the municipality had to be demarcated into 16 wards in 1990 and to 19 wards since 1995 by bifurcation of ward nos. 11, 12, 14, 16, 17. Presently the population strength is 68,754 (as per census 2001).

Ranaghat is located in the eastern side of Churni River and the lat long of the town is 23°11' N and 88° 34' E respectively. The town is situated at the North of Kolkata at a distance of about 75 kms and about 40 km from the district headquarter Krishnanagar. The place is very well connected with Kolkata through a broad gauge railway line as well as through the National Highway no. 34.

Administrative Boundaries

Ranaghat is located in the eastern side of Churni River and the lat long of the town is 23°11' N and 88° 34' E respectively. The town is situated at the North of Kolkata at a distance of about 75 kms and about 40 km from the district headquarter Krishnanagar. The place is very well connected with Kolkata through a broad gauge railway line as well as through the National Highway no. 34.

The town of Ranaghat is located to the North West direction of Kolkata Metropolitan area. The town is easily accessible from Kolkata by railway and by road. Kolkata is at a distance of about 75 km and the district headquarters of Krishnanagar is at a distance of about 40 km. Ranaghat is situated in the Southern most sub-division of the district lying between 22° 53' and 23° 20' N and 88° 20' and 88° 45' East with an area of 540 sq. miles. The sub-division forms a deltaic tract, confined by the River Hooghly on the west, Barasat sub-division of the 24 pgs on the South, Bongaon sub-division of 24-parganas district, on the east and Krishnanagar sub-division on the north. The sub-division formerly constituted of four towns, viz. Ranaghat, Santipur, Chakdah and Birnagar and three new ones, Fulia, Kalyani and Kanchrapara. The town of Ranaghat is situated in 23° 11' N and 88° 34' E at the bank of river Churni.

Linkage

Ranaghat town has a very good connectivity by Rail and Road to Kolkata, Berhampur, Krishnanagar, Gede, Bongaon and many other towns of West Bengal. The Sealdah and Krishnanagar is connected with Ranaghat in the North and South respectively through Eastern Railway line. Bongaon, Gede and Santipur is also connected through more other railway connection. The Road transport is also very smooth due to the NH-34, passes through this town. That's why several bus routes are available for journey to remote towns of North Bengal namely Siliguri, Coochbehar, Raiganj, Malda etc. The river Churni connects the town through water ways by boat with the adjacent Panchayat areas. Though Ranaghat is a sub-divisional town, it is connected by several motorable roads to different villages lying in its surrounding areas.

Economic Base

The economic base of a town is mostly dependent on the major establishments of the town as well as the surrounding area. The main activity of the major portion of the citizen is directly related to the economic strength of the said town. Instead of large scale industries there are a good many nos. of small and medium scale industries, clustered in the town.

Climatic Condition, Soil and Ground Water Scenario

The entire district of Nadia receives sufficient rainfall. The annual rainfall in the town is of the order of 1958 mm. The rainfall during the monsoon season June to September constitutes about 71% of the annual rainfall. The variation of temperature from year to year is not large. On an average there are 81 rainy days (that is, days with rainfall of 2.5 mm or more) in a year. The heaviest rainfall at any station in the district was 293.0 mm at Krishnanagar on September 20, 1900.

. The average temperature in summer time is 28° C and in Cold season is 15° C. The Maximum tempature in summer season is 35° C and in cold season is 11° C. In association with passing western disturbances in the cold season, the district as whole is sometimes affected by cold waves and on such occasions the minimum temperature may go down to 3 or 4° C. By about the end of February the temperature begins to rise. The summer season commences by about

The soil quality of the area whether at the disposal ground or near industrial out fall area is not contaminated in general. The pH is about 7.32 and all other mineral contents namely Phosphorus, Lead, Chromium, Nickel, Cadmium etc. are all within tolerable limits excepting Copper which has high concentration in industrial wastes outfall location.

The ground water quality in the area varies from place to place: it has an average pH of 6.80-7.40. At Ranaghat both Iron and Chloride contents are within permissible limits. The ground sources show Arsenic in detectable level. No bacterial contamination has been observed

Demographic Growth & Population Project

In the Year 1931 the town was populated with 11,400 nos. of people. But like other towns of West Bengal the town grew substantially from 1941 to 1951 due to the partition of the country. The population jumped over during that 10 years period from 16,488 to 28,000 i.e. about 70% increase of population. then the town had been growing at the rate of about 36% for the decades 51 to 61 and 61 to 71. It seems that the growth rate became consistent in the subsequent decades.

Population projection for the year of 2011 and 2021 of Ranaghat Municipal area are shown in the following Graph.

Pradhan Mantri Awas Yojana (Housing for All)

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to 'achieve significant improvement in the lives of slum dwellers, by 2022'. Similar goals are set forth by Pradhan Mantri Awas Yojana within year 2022, to create pucca house for every family.

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals. The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies also consider the affordable housing stock already available in the city as Census data suggests that large number of houses are vacant.

Bank account number and Aadhaar Number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary's native district integrate in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries is validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects.

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalising the plans and beneficiary list.

Cities which have already prepared Slum Free City Plan of Action (SFCPoA) or any other housing plan with data on housing, utilize the existing plan and data for preparing "Housing for All Plan of Action" (HFAPoA). Houses constructed under various schemes should be accounted for while preparing HFAPoA

The preparation of HFAPoA broadly involve Slum Development/Rehabilitation Plans based on

- a. Survey of all slums – notified and non-notified;
 - b. Mapping of slums using the state-of-art technology;
 - c. Integration of geo-spatial and socio-economic data; and
 - d. Identification of development model proposed for each slum.
1. Base maps to an appropriate scale would be a pre-requisite for the preparation of Slum Development Plan/Slum-free City Plan. States/UTs may need to proceed in the following steps for the preparation of Slum-free City Plans.
 2. Securing CARTOSAT II/latest satellite images from NRSC/ISRO and preparation of base maps for the whole city and its fringes using the images;
 3. Identification and inventory of all slum clusters of all descriptions in the urban agglomeration with the help of satellite image and other available data;
 4. Inventory of all possible vacant lands in each zone of the urban agglomeration that could be used for slum development/ rehabilitation development purposes;
 5. Development of Slum Map of every slum within the city and its fringes using GIS with CARTOSAT II images, ground level spatial data collected through total station survey, collating spatial information with respect to plot boundaries, network of basic infrastructure like roads, sewerage, storm drainage and water lines, etc and superimposing this on the satellite image and importing them into GIS platform as the first step towards the preparation of Slum Development Plans and Slum Free City Plan.
 6. This may be undertaken with the help of technical partners of NRSC/ ISRO/other technical institutions.
 7. Identification and engagement of Lead NGO/CBO to guide and anchor community mobilization for the purpose of slum survey, (May be more than one NGO/CBO in different slum zones) of the city. These Lead NGOs/CBOs should also be associated in slum survey operations and dialogues for preparation of slum level development plans;
 8. Conduct of Slum Survey based on the detailed formats (with or without changes) repaired by the Ministry of Housing & Urban Poverty Alleviation with the help of National

Buildings Organization (NBO) - after due training of trainers, training of survey personnel /cavassers and canvassing. It would be helpful for community mobilization to pick as many cavassers from the sourced slum or nearby slum pockets;

9. Collection of bio-metric identification data of slum dwellers based on the above survey (subject to guidelines issued by Unique Identity Authority of India (UIDAI));
10. Entry of data from Slum Surveys in the web-enabled MIS application (to be provided by Ministry of HUPA), compilation and collation of data, preparation of Slum-wise, City and State Slum Survey Database and Baseline Reports. The MIS will assist in developing a robust Slum and Slum Households Information System. (Guidelines and software for development of the MIS will be issued by the Ministry of HUPA);
11. Integration of Slum MIS with GIS Maps to enable the preparation of GIS-enabled Slum Information System that is to be used for the preparation of meaningful Slum Development Plans and Slum-free City Plan using a city-wide/zone-based approach.(Guidelines and software for development of GIS platform and its integration with the MIS will be issued by the Ministry of HUPA);

Introduction to Pradhan Mantri Awas Yojana (PMAY)

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a 'Pucca house to every family' through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town.
- Redressing the failures of the formal system that lie behind the creation of slums.
- Tackling the shortages of urban land and housing that keep shelter out of reach of the urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.
- Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.
- An integrated approach covering shelter, services and livelihoods for poor slum communities.

The duration of Pradhan Mantri Awas Yojana [PMAY] 2015 TO 2022

Eligible Components of the PMAY:

Allotment of Houses

Allotment of dwelling units will be in the name of the female member of the family. Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land is required for every Beneficiary.

A EWS beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a Pucca house (an all-weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.

Following infrastructure will be considered for support under PMAY:

1. Water connection
2. Toilet facilities
3. 24 x 7 Electric facilities
4. Roads

Need for Projects

This development project models will give benefits in the city. One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor.

Such innovation could encompass:

- ☐ Projects with strong community participation i.e. Slum upgradation / redevelopment projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation
- ☐ New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- ☐ Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence.
- ☐ Innovative or cost effective and green building design and technologies.
- ☐ Financial innovations in delivering the city/state wide programme.

Aims and Objectives

Vision

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

Objectives

The project has been designed keeping in mind the following objectives.

- Integrated development of all existing slums, notified or non-notified, i.e., development of infrastructure and housing in the slums/rehabilitation colonies for the slum dwellers/urban poor, including rental housing.
- Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road, street lighting.
- The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership.
- Encouraging Public Private Partnership by having pay and use toilets and educate the slum dwellers for keeping the environment clean and hygienic.

State PMAY Mission Director

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India.

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. State Urban Development Agency was set up in 1991 with a view to ensuring proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SUDA is a Society registered under the West Bengal Societies Registration Act, 1961.

Funding Pattern of PMAY

Funding pattern for PMAY (Housing for all)

- ☐ Central Share 1.5 LAKHS of total cost of dwelling unit
- ☐ Beneficiary Share 0.25 LAKHS of total cost of dwelling unit
- ☐ State Share rest of total cost of dwelling unit
- ☐ State + ULB bear the cost of infrastructure
- ☐ State share for infrastructure to be minimum 5%
- ☐ ULB share for infrastructure to be minimum 5%
- ☐ Cost of infrastructure 10 % of sum total cost of dwelling unit

Approvals & Release of Funds

- ☐ Releases and approvals to be on the basis of DPRs which need to be submitted with approval of State Level Sanctioning and Monitoring Committee
- ☐ Innovative projects to be considered for sanction even in the preparatory stage.
- ☐ Central Funds to be released in three installments to the State Governments/SLNA; Central assistance under different components will be released to the state / UTs after the approval of CSMC and with concurrence of the integrated Financial Division of the Ministry. Central share would be released in three installment of 40%,40% and 20% each.

Project Cost and Financing Strategy

For Dwelling Unit

Total no of Dwelling unit	= 594Nos
Rate per Dwelling unit	= 3.68 Lakhs
Total Cost of Dwelling unit	= $594 \times 3.68 = 2185.92$ Lakhs
Central Share	= 594×1.5 Lakhs = 891 Lakhs
State Share	= 594×1.93 Lakhs = 1146.42 Lakhs
Beneficiary Share	= 594×0.25 Lakhs = 148.5 Lakhs
ULB Share	= NIL

For Infrastructure

10 % of total Dwelling unit cost	= $2185.92 \text{ Lakhs} \times 10\% = 218.592$ Lakhs
Central Share	= NIL
State Share = 50% x 309.12 Lakhs	= 109.3 Lakhs
Beneficiary Share	= NIL
ULB Share = 50% x 309.12 Lakhs	= 109.3 Lakhs

The total project cost will be ₹ 2404.51 lakhs

Out of these 81.85 Crores is the cost of Housing Infrastructure. The following table shows the / share of cost between housing infrastructure & Physical Infrastructure.

Table: Cost Break up between Housing & Infrastructure

Sl No.	Component	Cost on Lakhs
1.	Housing Cost(2022) Dwelling Units)	2185.92
2.	Infrastructure Cost	218.59
Total		2404.51

Materials of construction:

- ☐ PCC (1:3:6) for foundation
- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel
- ☐ 1st Class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

Definition of Slum for Housing

Different definitions of a slum exist in different statutes and in urban poverty literature. For the purpose of HOUSING SCHEME, it is proposed to adopt the definition given in the 2001 Census, which is as follows:

- a. All areas notified as 'Slum' by State/Local Government and UT Administration under any Act;
- b. All areas recognized as 'Slum' by State/Local Government and UT Administration, which have not been formally notified as slum under any Act;

'Slum' or 'Slum Area'– is a compact settlement of at least 20 households (For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

Situation Appraisal

The people living in the slums mostly have kutchha (10) and semi-pucca (186) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutchha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

Proposed Intervention

In line with the vision to 'Housing for All', an integrated housing programme is proposed to be implemented. The target will be all the slum /Non Slum dwellers in the pocket.

Building Plan

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed.

Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws.

Building material

- ☐ PCC (1:3:6) for foundation
- ☐ RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- ☐ HYSD Steel
- ☐ 1st class Brick Masonry
- ☐ 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls
- ☐ IPS flooring

Structural Design

- ☐ Following are the general considerations in the analysis/design.
- ☐ For all structural elements, M20 grade concrete and Fe 415 grade of steel is used.
- ☐ Plinth beams passing through columns are provided as tie beams.
- ☐ Pedestals are proposed up to ground level.
- ☐ Beam Centre-line dimensions are followed for analysis and design.
- ☐ For all the building, walls of 250 mm and 125mm thick with 20 mm External plaster and 12 mm thick internal plaster are considered.
- ☐ Seismic loads are considered acting in the horizontal direction along either of the two principal directions.

Design data

- ☐ Live load: 2.0 kN/m² at typical floor
- ☐ 1.5 kN/m² on terrace (With Access) : 0.75 kN/m² on terrace (without Access)
- ☐ Floor finish 50mm (0.05*24) = : 1.2 kN/m²
- ☐ Ceiling plaster 12mm (0.012*20.8) : 0.25 kN/m²
- ☐ Partition walls (Wherever Necessary) : 1.0 kN/m²
- ☐ Terrace finish: 1.5 kN/m²
- ☐ Earthquake load: As per IS-1893 (Part 1) - 2002
- ☐ Depth of foundation below ground: ,0.7 m
- ☐ Walls: 250 mm thick brick masonry walls at external and 125mm walls internal.

Introduction

"Housing for All" Mission for urban area will be implemented during 2015-2022 and Mission will provide central assistance to implementing agencies through States and UTs for providing houses to all eligible families/beneficiaries by 2022. Mission will be implemented as Centrally Sponsored Scheme (CSS) except for the component 1.2 of credit linked subsidy which will be implemented as a Central Sector Scheme. A beneficiary family will comprise husband, wife, unmarried sons and/or unmarried daughters. The beneficiary family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission. States/UTs, at their discretion, may decide a cut-off date on which beneficiaries need to be resident that urban area for being eligible to take benefits under the scheme.

Mission with all its component has become effective from the date 17.06.2015 and will be implemented upto 31.03.2022. All 4041 statutory towns as per Census 2011 with focus on 500 Class I cities would be covered in three phases as follows:

- Phase I (April 2015 - March 2017) to cover 100 Cities selected from States/UTs as per their willingness.
- Phase II (April 2017 - March 2019) to cover additional 200 Cities
- Phase III (April 2019 - March 2022) to cover all other remaining Cities

Ministry, however, will have flexibility regarding inclusion of additional cities in earlier phases in case there is a resource backed demand from States/UTs.

The HFAPoA for Ranaghat has been prepared in accordance with the guidelines issued by Ministry of Housing and Urban Poverty Alleviation, Government of India. Overall approach adopted throughout the preparation of this HFAPoA has been based on four key principles,

- well rounded stakeholder consultations,
- continuous community involvement,
- providing innovative solutions and
- Coordination & validation.

Methodology adopted for preparation of HFAPoA is demonstrated in the below:

- 1) Taking Initiative for Demand Assessment Survey.
- 2) Conducting Orientation Programme with elected representative and officers of ULB.
- 3) Conducting Orientation programme with Supervisors and Enumerators.
- 4) Conducting Demand survey and complete the work.
- 5) Conducting Data Entry of the survey form and complete the work
- 6) Analysis of the data.
- 7) Filling up the requisite formats.
- 8) Planning of project with elected representatives and officers of ULB.
- 9) Preparing investment requirement and Financial plan
- 10) Finalization of HFAPoA.

56% of households live in pucca or partially pucca houses. Housing condition in its slums is not in good shape as 44% houses are either Katcha or semi-pucca. Considering the above, municipality has already initiated construction of affordable houses in 43 slums spread over 20 wards on a piecemeal basis leveraging IHSDP scheme in a phased manner. In the First phase (2008-2012) total 155 and in 2nd Phase 297 houses were constructed in 43 slums spread over 20 wards. Infrastructure projects like Road, Drain and pipeline work were also targeted in some of the slums.
