## Introductory Note by Chairman:

As a chairperson of the one of the oldest town of West Bengal – Sonamukhi – it is a pleasure for me to bring this **Housing For All by 2022 Plan of Action** under the programme of **Pradhan Mantri Awas Yojana (PMAY) : Urban.**

We have prepared our Plan of Action by the base on demand survey (housing for all), USHA & SECC and in consultation with the all Councillors under this municipal town, employees of our Municipality. We have identified their demand and bottlenecks and prepared our plan keeping in mind the scenario of the above community.

I hope this Plan of Action will usher a new era of Planning of housing for urban citizens in the town Sonamukhi. It is true to fact that human rights and civil liberties are of little use to a starving people, not equivocally though. Because in the chronicles of time it has been proved that mass want both rights and better living. Sonamukhi Municipality merely promises to be active. It envisages spreading reforms to the grass root level through quicker disposal of pending projects. It is our belief that social conditions are greatly influenced by economic factors. Therefore, our foremost aim to lesson poverty by addressing the concerns of the underprivileged community.

It is true that spectacular result oriented Plan of Action of Housing for all by 2022 involves long term perspective and achieved slowly through participatory process. It should have a solid foundation for progress to make easy in roads into the system. Resources may be scare in comparison to our desire for a happy, idyllic settlement. But we hope that in the near future our pervading and all-inclusive dream will include each and every household of Sonamukhi.

## **City Profile and Overview:**

### **Municipal Vision**

**Sonamukhi Municipality aims at a Eco-friendly, socially, culturally and economically vibrant town where all citizens live healthy and inspired life, through increasing opportunity to avail basic services and civic amenities by the citizen and improvement of urban infrastructure and management by sufficiently strong and efficient city administration.**

### **HISTORY**

Sonamukhi became the third municipality of Bankura district in 1886. With the creation of Bankura town and district in 1881, Sonamukhi became its part in the same year. At the time of creation of the municipality, there were 5 wards and this urban area had a population of 5000 which has increased to 29085 at present (2011 Census). The number of wards have also increased to 15. Even though the population growth has not been very high because of the present economic downturn in the region Sonamukhi was once a prosperous, populous and thriving economy of the region as recorded in history.

#### **A Historical and Cultural Profile -Sonamukhi**

Sonamukhi was just a village during the pre Aryan era and gained prominence as a priori for *Jain* and *Buddhist* cultures during the Pal Dynasty (7<sup>th</sup> – 10<sup>th</sup> century). This is possible the time when the town emerged. The name Sonamukhi originated from the name of the village Goddess *Swarnamoyee*.

In the 17<sup>th</sup> century, Sonamukhi had a flourishing handloom industry and trade. In the first half of the 19<sup>th</sup> century, the fate of Sonamukhi started to decline. With the initiation of the Permanent Settlement by Lord Cornwallis thousands of farmers lost their land and extreme poverty plagued the society. The market for textile products was completely destructed. The handloom industry lost its entire luster in the early period of the nineteenth century due to its limitless torture and exploitations on the handloom workers by the East India Company. Around the same time a certain section of people who bought land from the poor farmers and appeased East India Company suddenly became rich and declared themselves as Zamindars. These people constructed many temples and structures

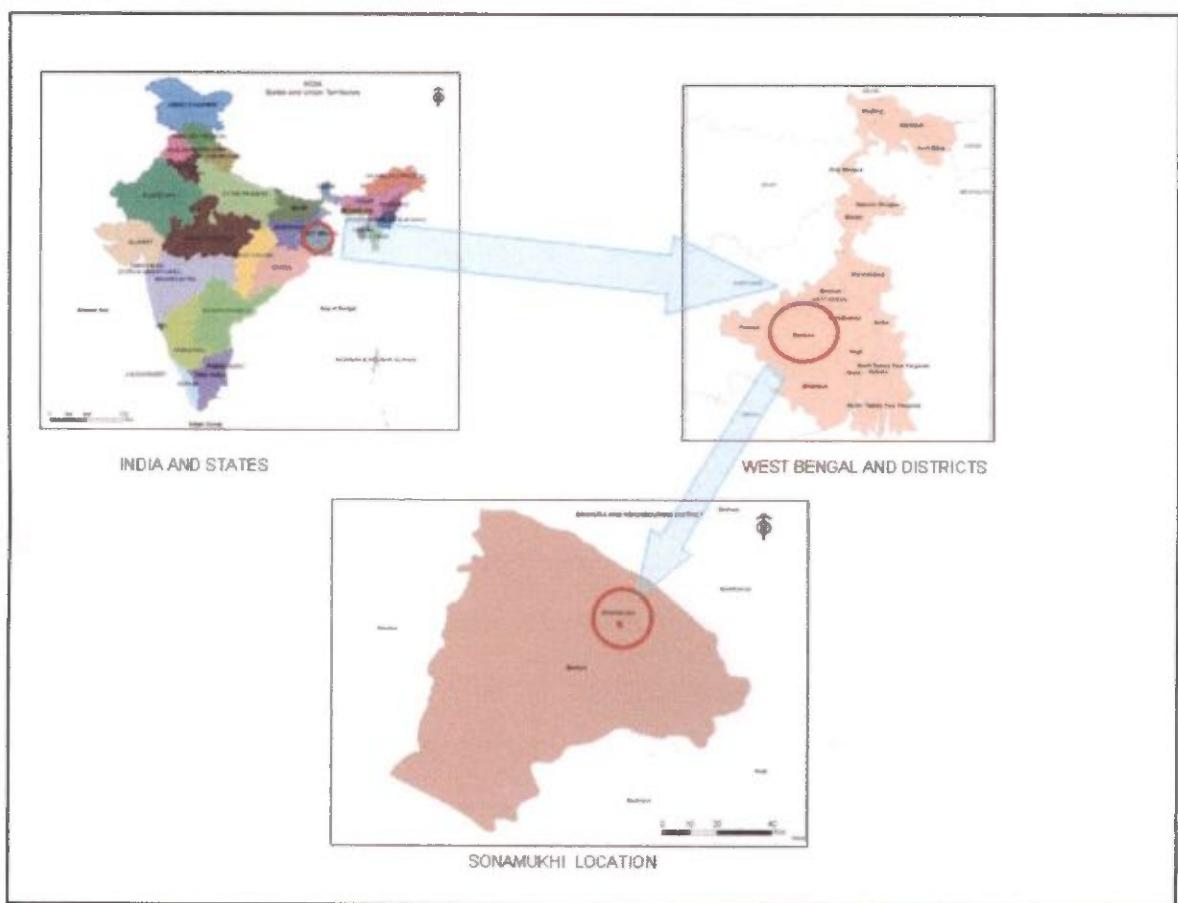

The affluence of the people at different times have been channelised into art and culture. The presence of number of Shib temples like *Shidheswar Shib*, witness the influence of *jain* religion. The influence of *Sri Chaitanya* is evident from the pujas of *Govindji*, *Shyansunder*, *Gopinath* etc. A number of festivals is celebrated in the town. The most significant of them is the *Kali-Kartik puja*, *Shidheswar Shib Mela*, Raasyatra, Mohotsab etc.

## **Year of Establishment:-**

Our Municipality constituted on 01/04/1886.

## **Administrative Boundaries:-**

**Sonamukhi** is a town and a Police station in Bankura District in the Indian state of West Bengal. Sonamukhi is located at  $23.3^{\circ}$  N,  $87.42^{\circ}$  E. Sonamukhi is situated in the northeastern part of the Bankura district and is 44 kms away from the District headquarter Bankura. The total area of Sonamukhi municipality is 8.557 sq. Km. comprising 15 wards, 51 slum pockets, 8 Mouzas, 8000 holdings and 29083 populations (Census-2011).

## **Linkages of Rail, Road, Port and Air:-**

The town is well connected with its hinterland by roads. The state highway connects it with Bankura, and Burdwan. The sub divisional town of Bishnupur is also connected by road. The industrial town Durgapur is very close to Sonamukhi connected by roads. There has been an ongoing project of extending the railway from Bankura to Mashagram via Sonamukhi. In September 2005, South-Eastern Railway threw open passenger services on the 41 km long Bankura-Sonamukhi broad gauge section, being the first phase of Bankura-Damodar River Railway Project. BDR Project entails extension from Sonamukhi to Raina (19.8 km) and then on to Masagram, providing direct connectivity to Howrah through Eastern Railway. Work is in progress (in 2007) in the Sonamukhi Raina Section.

## **Economic Activity:-**

The economy of the town is not solely dependent on agriculture. However, it is a good service center for agricultural products. Industries are almost nonexistent except few four mills and rice mill in the surrounding regions. A major portion of people is engaged in cottage industry. Fishing, poultry and handloom are other economic activities in the area.

## **Demographic Growth and Population Projection**

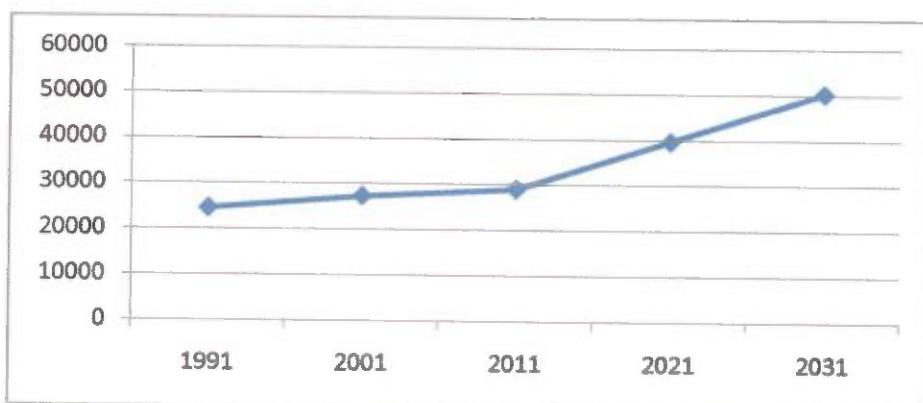

Sonamukhi is not very densely populated place. Except the central congested stretch, other wards contain significant amount of agricultural land and thus less holding. The population of the town is 29083 as per 2011 census. The population growth over the last 2 decades and the population projection is presented in the graph below.

The preparation of HFAPoA broadly involve Slum Development/Rehabilitation Plans based on

- a. Survey of all slums – notified and non-notified;
  - b. Mapping of slums using the state-of-art technology;
  - c. Integration of geo-spatial and socio-economic data; and
  - d. Identification of development model proposed for each slum.
1. Base maps to an appropriate scale would be a pre-requisite for the preparation of Slum Development Plan/Slum-free City Plan. States/UTs may need to proceed in the following steps for the preparation of Slum-free City Plans.
    2. Securing CARTOSAT II/latest satellite images from NRSC/ISRO and preparation of base maps for the whole city and its fringes using the images;
    3. Identification and inventory of all slum clusters of all descriptions in the urban agglomeration with the help of satellite image and other available data;
    4. Inventory of all possible vacant lands in each zone of the urban agglomeration that could be used for slum development/ rehabilitation development purposes;
    5. Development of Slum Map of every slum within the city and its fringes using GIS with CARTOSAT II images, ground level spatial data collected through total station survey, collating spatial information with respect to plot boundaries, network of basic infrastructure like roads, sewerage, storm drainage and water lines, etc and superimposing this on the satellite image and importing them into GIS platform as the first step towards the preparation of Slum Development Plans and Slum Free City Plan.
    6. This may be undertaken with the help of technical partners of NRSC/ ISRO/other technical institutions.
    7. Identification and engagement of Lead NGO/CBO to guide and anchor community mobilization for the purpose of slum survey, (May be more than one NGO/CBO in different slum zones) of the city. These Lead NGOs/CBOs should also be associated in slum survey operations and dialogues for preparation of slum level development plans;
    8. Conduct of Slum Survey based on the detailed formats (with or without changes) prepared by the Ministry of Housing & Urban Poverty Alleviation with the help of National Buildings Organization (NBO) - after due training of trainers, training of survey personnel /canvassers and canvassing. It would be helpful for community mobilization to pick as many canvassers from the sourced slum or nearby slum pockets;
    9. Collection of bio-metric identification data of slum dwellers based on the above survey (subject to guidelines issued by Unique Identity Authority of India (UIDAI));
    10. Entry of data from Slum Surveys in the web-enabled MIS application (to be provided by Ministry of HUPA), compilation and collation of data, preparation of Slum-wise, City and State Slum Survey Database and Baseline Reports. The MIS will assist in developing a robust Slum

## **HFAPoA and Pradhan Mantri Awas Yojana (Housing for All)**

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to 'achieve significant improvement in the lives of slum dwellers, by 2022 . Similar goals are set forth by Pradhan Mantri Awas Yojana within year 2022, to create pucca house for every family.

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals. The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies also consider the affordable housing stock already available in the city as Census data suggests that large numbers of houses are vacant.

Bank account number and Aadhaar number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary's native district integrate in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries are validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects.

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalizing the plans and beneficiary list.

Cities which have already prepared Slum Free City Plan of Action (SFCPoA) or any other housing plan with data on housing, utilize the existing plan and data for preparing "Housing for All Plan of Action" (HFAPoA). Houses constructed under various schemes should be accounted for while preparing HFAPoA

and Slum Households Information System. (Guidelines and software for development of the MIS will be issued by the Ministry of HUPA);

11. Integration of Slum MIS with GIS Maps to enable the preparation of GIS-enabled Slum Information System that is to be used for the preparation of meaningful Slum Development Plans and Slum-free City Plan using a city-wide/zone-based approach. (Guidelines and software for development of GIS platform and its integration with the MIS will be issued by the Ministry of HUPA);

### **Introduction to Pradhan Mantri Awas Yojana (PMAY)**

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a 'Pucca house to every family' through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town.
- redressing the failures of the formal system that lie behind the creation of slums.
- Tackling the shortages of urban land and housing that keep shelter out of reach of the urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.
- Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.
- An integrated approach covering shelter, services and livelihoods for poor slum communities.

#### ***The duration of Pradhan Mantri Awas Yojana [PMAY] 2015 TO 2022***

#### ***Eligible Components of the PMAY:***

##### **Allotment of Houses**

Allotment of dwelling units will be in the name of the female member of the. Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land required for every Beneficiary.

A EWS beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission. EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.

**Following infrastructure will be considered for support under PMAY:**

1. Water connection & Toilet facilities
3. 24 x 7 Electric facilities & Roads

### **Need for Projects**

This development project models will give benefits in the city. One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor.

Such innovation could encompass:

- Projects with strong community participation i.e. Slum upgradation/redevelopment projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation
- New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence.
- Innovative or cost effective and green building design and technologies.
- Financial innovations in delivering the city/state wide programme.

## **Aims and Objectives**

### **Vision**

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

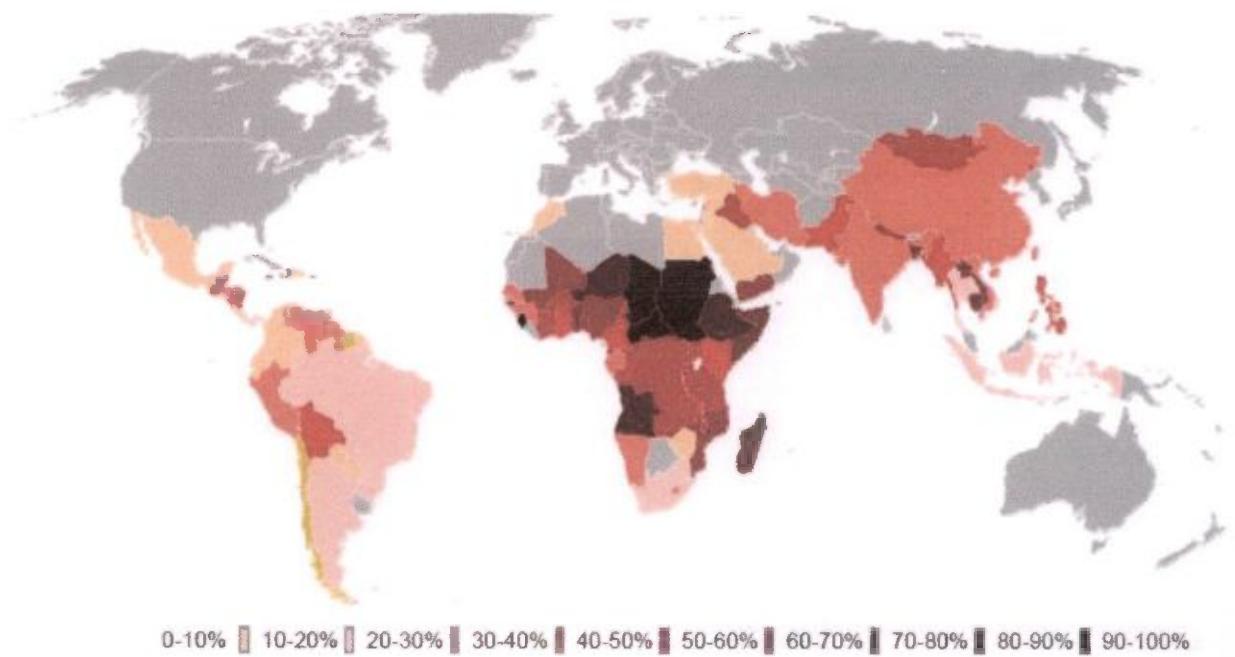

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

### **Objectives**

The project has been designed keeping in mind the following objectives.

- Integrated development of all existing slums, notified or non-notified, i.e., development of infrastructure and housing in the slums/rehabilitation colonies for the slum dwellers/urban poor, including rental housing.
- Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road, street lighting.

**Urban Population Living in Slums and the Indian Scenario (source: UN-HABITAT)**

- The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership.
- Encouraging Public Private Partnership by having pay and use toilets and educate the slum dwellers for keeping the environment clean and hygienic.

## **State PMAY Mission Director**

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India.

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. ### **Funding pattern for PMAY(Housing for all)**

- Central share 1.5 LAKHS of total cost of dwelling unit
- Beneficiary share 0.25 LAKHS of total cost of dwelling unit
- State share rest of total cost of dwelling unit
- State + ULB bear the cost of infrastructure
- State share for infrastructure to be minimum 5%
- ULB share for infrastructure to be minimum 5%
- Cost of infrastructure 10 % of sum total cost of dwelling unit
- **Approvals & Release of Funds**

## Definition of Slum for Housing

Different definitions of a slum exist in different statutes and in urban poverty literature. For the purpose of HOUSING SCHEME, it is proposed to adopt the definition given in the 2001 Census, which is as follows:

- a. All areas notified as 'Slum' by State/Local Government and UT Administration under any Act;
- b. All areas recognized as 'Slum' by State/Local Government and UT Administration, which have not been formally notified as slum under any Act;

**'Slum' or 'Slum Area'**– is a compact settlement of at least 20 households ( For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

## Situation Appraisal

The people living in the slums mostly have kutcha (10) and semi-pucca (186) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutchha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

## Proposed Intervention

In line with the vision to '**housing for all**', an integrated housing programme is proposed to be

implemented. The target will be all the slum /Non Slum dwellers in the pocket.

### **Building Plan**

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision of 2 rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitudes.

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed.

### **Compliance with Municipal Bye laws**

All designs & drawings are created keeping in line with the municipal bye laws.

### **Building material**

## 2. Assessment of existing and likely future Housing Shortage

### 2.1 Existing Housing Shortage

Housing Shortage with regard to the Sonamukhi Municipal area has been analyzed on the basis of information available through Demand Assessment survey, Census Records, Stakeholders' consultation, State level and National level reports and policies.

As prescribed by HFA Guidelines the housing shortage is assessed by adopting two pronged approach. They are:

- I. **Curative Approach:** The housing shortage or deficiency for the existing slums and non slum is worked out at 3255 units and is summarized in the following table:

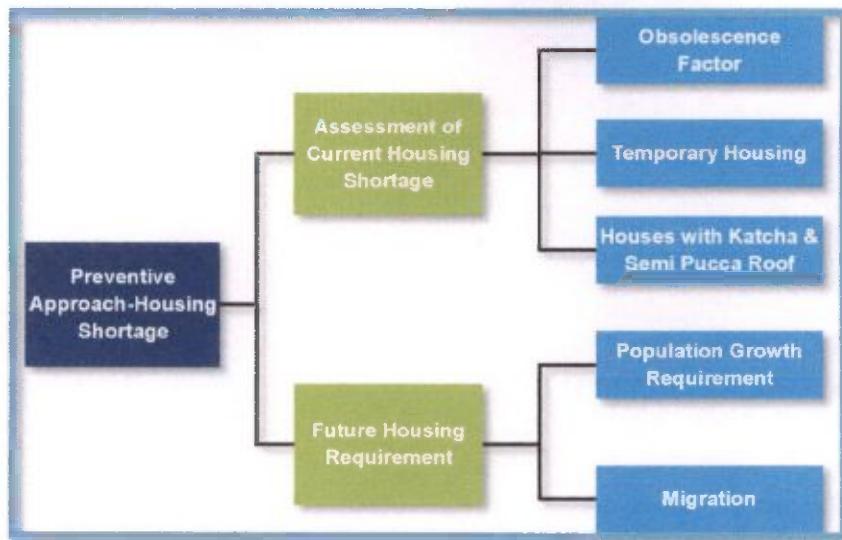

**Table 7: Housing Shortage- Curative Approach**

S. No	Structure of the House	Number of Units
1	Construction of Semi-Pucca House to Pucca Houses	2375
2	Construction of Kuchha house to Pucca Houses	1880
	<b>Total</b>	<b>3255</b>

**1.2 Preventive Approach:** The preventive approach is aimed at prevention of new slums by providing for adequate affordable housing for the migrant population and for the persons, who due to lack of affordable housing options may shift to slums. Preventive approach takes into consideration both the existing housing shortage and housing units that may be required in the future.

The Housing for preventive approach is calculated by considering the following parameters in the figure below

**Housing Shortage preventive approach**

### 2.2. Likely future Housing Shortage

According to the Census 2001, the population of Sonamukhi was 27348 and according to census 2011 Population is 29085. Population density is 3399. It is seen that population is

increasing by decreasing rate. The additional housing Requirement for the Sonamukhi Municipality estimated from 2016 till 2022 is 318.
