CP

Sir,

I am forwarding herewith a copy of letter from the Executive Officer, Kulti Municipality regarding insanitary latrine and no latrine in Kulti Municipality area.

The DPR as prepared by this Municipality for the above jobs is also sent herewith for your kind perusal and necessary approval.

Encl: 09 sheets.

Yours faithfully,

Sumit Gupta

(Sumit Gupta)

Memo. 856/KM

Date. 03/6/15

To
The Administrator.
Kulti Municipality.
&
ADM, ASANSOL

Sub: DPR of insanitary latrine and no Latrine converted to sanitary Latrine.

Sir,

As per letter No. SUDA-56/2014/1069 Dt. 17.12.2014 Govt. of West Bengal a Survey for identification of insanitary Latrine and no latrine s completed by this end and report has already been sent to State urban Development Authority. It has been come to our notice from survey report that 24112 nos. no sanitary latrine and 2041 nos. insanitary latrine are there.

In this respect the DPR of insanitary latrine and no latrine are sent herewith for favour your kind perusal and necessary action please.

Yours faithfully

A. M. Ghosh

SUDA-

16.06.2015

From: Director

To: Joint Secretary
M.A. Department**Sub: Implementation of Swachh Bharat Mission**

Sir,

In enclosing herewith copies of Memo No. 169/Ew/Eng115 dated 22.05.2015 from Member, Board of Adminsitrator, Asansol Municipal Corporation and Memo No. 1424/KM dated 22.05.2015 from Chairperson, Kalimpong Municipality I am to state that it would be desirable to implement the different components under SBM based on an Action Plan to be drawn up for the purpose rather than on a piece-meal or adhoc basis as requested for in the communications stated above.

While drawing up the Action Plan mobilization of funds for field level execution of the different components will also have to be considered carefully particularly in the light of the inordinately low Central contribution as per prevailing Guidelines.

In this connection it may be pointed out that a note was submitted from this Office to the Department for evolving a workable policy for utilization of the Central funds already received by the State Govt. The M.A. Department is requested to consider the proposals and evolve necessary policies.

A copy of notes earlier submitted to the Department is enclosed for ready reference.

Yours faithfully,

Enclo: AS stated

Director

Parliament Matter
Immediate

File No. 15/3/2015-SBM (Pt.)
Government of India
Ministry of Urban Development
(CPHEEO)

Nirman Bhawan, New Delhi-110003.

Dated: 27th April 2015

OFFICE MEMORANDUM

The Swachh Bharat Mission Urban has the following components to be implemented before 02.10.2019 for achieving total sanitation as a tribute to the Father of Nation, Mahatma Gandhi.

2. The components to be implemented and the funding arrangements are as follows:

Component No.	Component	Central Contribution	State Contribution
I	Household Toilets	Rs. 4000/-	Minimum 25% funds to match Central Share (Ratio of 75:25). In case of North-East States and Special Category States the ratio is 90:10.
II	Community Toilets	40%	
III	Public Toilets	Nil	-
IV	Solid Waste Management	20%	Minimum 25% funds to match Central Share (Ratio of 75:25). In case of North-East States and Special Category States the ratio is 90:10.
V	IEC and Public Awareness	As per Guidelines	
VI	Capacity Building and Administrative & Office Expenses	As per Guidelines	

3. However, in order to further incentivise and fast track the implementation of Swachh Bharat Mission Urban, several State Governments have committed higher funding than the guidelines. For example, Government of Gujarat have committed Rs. 12000/- funding to Household toilets and Government of Telangana Rs. 8000/-. Such increased contribution will undoubtedly assist the ULBs in achieving 100% sanitation.

4. As the matter SBM implementation is frequently raised in the Parliament, it is requested to furnish information on the commitment of State Government assistance to the Swachh Bharat Mission components over and above the SBM Guidelines.

5. The information may kindly be furnished by return fax as the Starred Question on Swachh Bharat Mission Urban is due in the Parliament on 29.04.2015.

**A comprehensive Action Plan for Solid Waste Management in the
Urban Local Bodies in West Bengal**

INTRODUCTION

In West Bengal there are 129 Urban Local Bodies including 6 Municipal Corporations out of which 43 are located in the jurisdiction of Kolkata Metropolitan Area (KMA) and the remaining 86 with 3 Municipal Corporations are situated outside KMA.

Although availability of land required area and in appropriate location is a major problem for efficient SWM, to tide over the situation and to reduce capital and recurring expenditure trans-municipal projects with plastering of adjacent ULBs with a centralized processing and disposal area have been contemplated. A few trans-municipal solid waste management projects have been taken up in Kolkata and Asansol Mission Cities. No centrally sponsored projects for infrastructure development including SWM are available after the withdrawal of JNNURM. However with launching of Swachh Bharat Mission and organized effort will be taken for comprehensive management of MSW in all the ULBs of the State and that in a time bound manner.

OBJECTIVE

It may be recalled that the Hon'ble NGT in its order dated 20.03.2015 in the case of original application number 199 of 2014 (Almitra H Patel Vs Union of India and others) while deliberating on the affidavit filed by the Govt. of Haryana including their Plan of Action for SWM directed all States to file comprehensive affidavit within four weeks in the light of the judgment of the Tribunal in original application no. 40 of 2013 in the matter of People for Transparency Vs State of Punjab decided on 25.11.2014 and the present judgment.

ACTION PLAN

Accordingly the present Action Plan for SWM for the Urban Local Bodies of the State of West Bengal is prepared as per direction of the Hon'ble NGT. It is proposed that all the facilities envisaged will be in position by 2019 to match with the time frame of Swachh Bharat Mission.

The Action Plan is presented in four parts considering separate institutional arrangements responsible for SWM of urban areas of the State.

A Strategy Plan of Action is under preparation for 129 ULBs in West Bengal. Based on the report, a state level MSW guideline may be elicited for effective implementation of solid waste management system in terms of the verdicts of the Hon'ble NGT and Municipal Solid Waste Management and Handling Rules, 2000.

Part III82 Non-KMA ULBsNeed of the Action Plan

- There are 129 Urban Local Bodies (ULB) in West Bengal generating approximately 5377MT/day of MSW, the per capita per day generation rate varying from 290 to 460 grams. SWM in these ULBs are not at present adequately handled in terms of collection, transportation, disposal and treatment to meet the requirement and standards of overall scientific SWM in the State. Issues like segregation of waste at source, lack of technical expertise and appropriate institutional arrangement in ULBs, lack of funds, absence of Sanitary Land Fill Practice (SLF), non-availability of land for new landfill sites, non-collection SWM fees, lack of mass awareness towards SWM and lack of community participation etc. are some of the key challenges in MSW service.
- Hence the need for a comprehensive Action Plan for SWM Service in is felt that will address and resolve the key existing issues and challenges of SWM in ULBs of the state to provide the best possible MSW services to the ULB citizen. The Action Plan is proposed to adopt an **Integrated Solid Waste Management (ISWM)** approach to deal with the existing problems and provide adequate measures for generation, segregation, collection, transportation, treatment and disposal of MSW in accordance with the ULB Solid Waste (Management and Handling) Rules, 2000.

Coverage of Services

- The service will cover all the 82 Non-KMA ULBs of West Bengal (excluding 40 KMA ULBs, KMC, HMC and 5 ULBs within ADDA area).
- The work will be done in 3 phases: (i) Upgradation and updation of the existing services wherever required with all necessary reinforcement in services; (ii) Clustering of ULBs wherever possible to render common treatment and disposal facilities. (iii) Wherever clustering is not possible, standalone services would be considered along with all updated and upgraded facilities in terms of segregation, recycling, collection, transportation, treatment and disposal of MSW.
- To mention here, the Hon'ble Supreme Court has proposed the Haryana Model of ULB Solid Waste Management Plan, where the ISWM facility has been proposed on Cluster basis. **Hence clustering of ULBs for common treatment and disposal facilities of MSW wherever possible and standalone service where clustering is not feasible are proposed to be adopted under this Action Plan.**
- The factors for clustering are:
 - (1) Economy in processing and disposal of MSW,
 - (2) Geographical proximity,
 - (3) Quantum of daily generated MSW and
 - (4) Contiguity of the ULBs and inventory

Existing situation

- As per Census 2011, population of the 82 Non-KMA ULBs it is approximately 66.45 Lakhs, quantum of daily generated MSW being 2761 MT out of which 76.13% is domestic waste, 11.27% is market waste, 2.63% is agricultural waste, 8.46% is produced by commercial activity and 4.97% by other activities.
- Irregularity in terms of daily and efficient waste collection, non-segregation of waste at source, primary or secondary collection points, improper storage of waste, mixed nature of collected and transported waste, crude dumping of mixed waste, use of low land/wet land for landfilling purpose, open dumping of waste on road sides and public places are some of the common practices in most of the ULBs.
- Either direct transportation from primary collection points or transportation from secondary collection points is observed where the mixed solid waste is transported and disposed of in the landfill site without any segregation or treatment.
- Tri-cycle, wheel barrow, tractor, tempo, mini truck etc. are the common means of transportation of MSW instead of mechanised hydraulic vehicles.
- Also community bins are insufficient in terms of numbers; transfer stations where available, are not hygienically and aesthetically maintained. Solid Waste carrying vehicles are found moving without any cover.
- Most of the ULBs use low lying areas/wetlands as common landfill sites. Sanitary Land Fill Practice (SLF) is practically absent in all ULBs.
- Compaction for waste volume reduction is not practised anywhere. Recycling of waste is only practised discretely by the rag pickers either at secondary collection points or at landfill sites as they collect a portion of the MSW in the form of plastics, cardboards, papers, glasses etc. and send back them to the recycling industry.
- Recycle material collectors also collect such recyclable materials at source from individual households. A fair amount of market waste and construction and demolition waste are generated daily which are also collected and transported in the landfill site.
- Attempt of Trans-ULB service for MSW in several ULBs have not been satisfactorily implemented because of the non-availability of land and lack of funds.

Proposed Action Plan

It is proposed under the current SWM Action Plan that each and every ULB will adopt Integrated Solid Waste Management (ISWM) Approach.

The integrated solid waste management system for 82 ULBs has been proposed in phased manner as shown in the following Table:

Phase wise distribution of ISWM Projects

Phase 1	Clusters I to VI, plus stand-alone towns of Darjeeling, Kalimpong, Kurseong, Mirik, Arambagh, Tarakeswar, Alipurduar, Dhupguri, Mal, Bankura, Bishnupur, Sonamukhi, Bolpur
Phase 2	Clusters VII to XII, plus stand-alone towns of Kalna, Memari, Dinhata, Jhargram, Haldia, Contai, Egra, Birnagar, Haringhata, Beldanga, Jiaganj- Azimganj, Kandi, Bongaon, Gobardanga
Phase 3	Remaining clusters plus stand-alone towns of Jhalda, Purulia, Raghunathpur, Diamond Harbour, Joynagar-Mazilpur, Islampur, Dalkhola, Balurghat, Sainthia

46 ULBs would be operated in Cluster Modes and rest 36 ULBs will be operated in Stand alone Mode.

Stand-alone and cluster oriented ISWM projects

It is further proposed that the activities associated with ISWM from the point of generation to final disposal will be grouped into the six functional elements: (a) waste generation; (b) waste handling and sorting, storage, and processing at the source; (c) collection; (d) sorting, processing and transformation; (e) transfer and transport; and (f) disposal. The highest rank of the ISWM hierarchy will waste minimization or reduction at source, followed by recycling, followed by waste processing to recover conversion products and energy, followed by Landfilling.

Proposed Unit Processes of ISWM under Action Plan:

1. Collection of MSW

It is proposed that:

- Duly segregated recyclable / non – biodegradable, organic and domestic hazardous waste be collected from households separately
- Collection of waste from slums and squatter areas/localities including hotels/restaurants/office complexes and commercial areas will be devised
- Wastes from slaughterhouses, fruits and vegetables markets, which are bio- degradable in nature be managed properly
- Bio-medical wastes and such wastes follow proper rules
- Collected waste from residential and other areas be transferred to community bins
- Horticultural and construction/demolition wasters/debris be separately collected and disposed off following proper norms. Similarly, activities relating to dairies be regulated in accordance with state laws
- In no case waste be burnt

- Stray animals not to be allowed to move around waste storage facilities or at any other place in city/town and will be managed as per State laws
- Collection of Waste from Shops and other establishments.

2. Segregation of MSW

It is proposed that ULB will encourage and create awareness among its citizen to segregate wastes organic and inorganic separately in two separate bins and should encourage recycling / reuse of segregated materials. ULB authorities will undertake phased programme to ensure that community is fully involved in waste segregation process. ULB authorities will provide sufficient number of dust – bins (2 different colours) of appropriate sizes in the jhuggies / colonies in different locations and insist / educate the residents to use those properly.

3. Storage of MSW

It is proposed that ULB authorities shall establish and maintain storage facilities in such a manner to avoid unhygienic/ insanitary conditions around it. Storage facilities will be created/established based on quantities of waste generation in a given area and the population densities. A storage facility should be easy to access within the walking ranges of public. Storage facilities will not be exposed to open atmosphere and should be aesthetically acceptable and user-friendly. Manual handling of waste should be prohibited as far as possible. In unavoidable circumstances, manual handling may be carried out under proper precaution with proper health and safety of waste workers.

4. Transportation of MSW

It is proposed MSW transportation vehicles will be covered properly in order to prevent scattering of waste on roads etc. Also MSW should neither be visible to public nor exposed to open environment. The storage facilities will be daily attended for cleaning of wastes. Collection and transportation vehicles will be so designed that multiple handling of wastes, prior to final disposal is avoided. The steps involved in the process transportation of waste should be: (i) Moving the wastes from households to collection points, (ii) Transportation of street sweepings to collection points, (iii). Moving the wastes from various collection points to large collection bins, (iv). The movement of waste from collection points to the nearby disposal ground, (v). Transport of drain silt from wards to collection point, (vi). Transport of building rubbish to selected sites and or at the dumping ground.

It is proposed that the total system is broadly divided into two levels:

(a) **Primary level Transport:** Primary collection will be done by manual collection at households by the safai-karmacharis. In this level different types of waste will be kept un-segregated in household or establishment in separate household bins and unloaded into separate designated vats.

(b) **Secondary Level Transport** (from collection point to dumping ground)

This will be done by the SWM Transport Department with a fleet of vehicles consisting of: a). Tractor Trailer, b). Mini Trucks etc. Mechanical loading and unloading is recommended. The timing of MSW carrier vehicles 'movement is proposed to be fixed by avoiding the peak periods of city traffic in the morning half as well in the evening half. But in general, fleet movement should start once the daily household collections are deposited to the collection points. All the vehicles will strictly follow scheduled zone/routes. From collection point to dumping ground more economic routes may be established. Route optimization to save fuel cost and increase number of trips may be introduced.

5. Processing of Organic Portion of MSW

ULBs will adopt suitable technology or combination of such technologies to make use of a portion of MSW so as to minimize burden on landfill. The bio degradable wastes will be processed by means of composting, vermi-composting, anaerobic digestion or any other appropriate biological processing for stabilization of waste while the waste containing recoverable material will follow the route of recycling.

5.1 Treatment

There are various methods of processing MSW to get useful products out of the waste in the form of manure and energy recovery. Option for incineration process would not be feasible as the capital cost of incinerator and its O&M cost would be too high to be borne. In the existing condition as biological processing of MSW is cost effective, for Non-KMA ULBs in West Bengal the said process is proposed in the form of composting.

5.2 Biological Processing: Composting

Composting is the process of bio-chemical conversion of organic matter into humus (lignoprotiens) by Mesophilic and Thermophilic organisms. A composting process seeks to harness the natural forces of decomposition to secure conversion of organic waste into organic manure. Organic matter and various microbes together hold the key for soil productivity. Following factors affect the rate of successful composting:

- (i). Moisture content (20 to 30%) and temperature maintenance (65-70°C), (ii). Regular turning of the heap to ensure uniform moisture content, inoculate content and proper aeration, (iii). Carbon-to-Nitrogen (C/N) ratio (20-25)

5.2.1 Windrow Composting Method

Windrow Composting is proposed for ULBs having population more than 50,000.

5.2.2 Vermi Composting

It is proposed for ULBs having small population (<50,000).

5.2.3 Bio – Digester

ULB will encourage installation of bio – gas plant to produce bio gas and organic manure by converting bio – degradable waste.

5.3 Disposal of Inert Portion of MSW

It is proposed that Land filling will be restricted only to non-biodegradable, inert waste and other waste that are not suitable either to recycling or for biological processing. Landfill Sites will be classified based on available areas for landfilling as follows:

Small size landfill	:	less than 5 hectare area
Medium size landfill	:	5 to 20 hectare area
Large size landfill	:	greater than 20 hectare area.

Attempt is being made to reduce the landfill area in phases due to scarcity of land. Adequate green cover will be created at landfill sites during operational phase as well as post – closure.

Other Wastes – Special wastes from non-confirming areas or special units

All waste streams must be managed by their own waste management systems. Attempts will be made so that construction & demolition waste are not be mixed with the ULB Solid Waste. They should be collected separately and can be either used as fillers or can be filled up in a separate site.

Expenditure Layout (for 82 Non-KMA ULBs)

Capital Expenditure(INR)	:	2768 Crore
O&M Cost(INR) per year	:	120 Crore

Awareness Generation: Involvement of NGOs

It is proposed that NGOs may be involved in large scale to bring about a change in public behaviour regarding MSW. They are supposed to change public behaviour and attitude by organising various mass awareness and motivation programs, should advocate for promoting 3 R's Principles (Reduce, Re-use and Re-cycle of Waste), form SWM committee to look after the smooth operation of various unit processes of MSW service.

Public Information, Education, Communication Program (IEC)

For the successful implementation of any program involving public at large in MSW system, it is essential to spell out clearly and make user known the manner in which local body proposes to tackle the problem of waste management and extent to which public participation in Solid Waste Management is expected to keep the city clean and improve the quality of life in the city.

 Municipal Affairs Department,
 Government of west Bengal

Sub : Proposal for release of balance funds(beyond admissible Central & State funds under SBM) at the disposal of District Magistrate Nadia from an appropriate head under State Plan Budget for construction of individual house hold latrines in 10ULBs in the District

Sir,

It may kindly be recalled that following a base line survey 12,220 nos. of individual house hold latrines are under construction in the ten ULBs in Nadia District. It has been decided in this connection that the amount required for construction of the aforesaid number of latrines beyond the amount admissible under Swachh Bharat Mission (Central & matching State Shares) will be provided by the State Government from an appropriate head under the State Plan Budget and will be released to District Magistrate, Nadia direct from the M.A.Department.

Now, the unit cost of a latrine under construction is reported to be Rs.13,000/- out of which Rs.2000/- & Rs.1000/- respectively are being borne by the ULB and the beneficiary as their Shares leaving a balance of Rs.10,000/- to be mobilised. As per Government of India guidelines a sum of Rs. 4,000/- & Rs.1333/- respectively shall be admissible as Central Share & regular State Share aggregating to Rs. 5333/-. Therefore, the remaining amount of Rs.4667/- will be required to be provided by the State Government beyond Swachh Bharat Mission provision.

At the rate of Rs.4667/- the aggregate amount required for 12,220 units works out to Rs.5,70,30,740/-. The M.A. Department is now requested to release the aforesaid amount direct to the District Magistrate , Nadia from a suitable head under the State Plan Budget under intimation to this office.

Yours faithfully,

o/c

Subject: Establishing of 'facebook' page on Swachh Bharat Mission -
regarding

Sir/ Madam

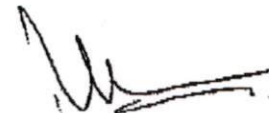

I am directed to inform you that a 'facebook' page needs to be created by each Urban Local Body (ULB) for effective interaction with the citizens and among each other as a component of IEC and Public Awareness activities under Swachh Bharat Mission.

2. At Central level we have established a 'facebook' page at <https://www.facebook.com/SwachhBharatMissionGrameen>, which is being shared with M/o Drinking Water and Sanitation. It has also come to notice that, Kanpur District Administration has created an effective interface through 'facebook' at <https://www.facebook.com/mycitykanpur.up> to share their activities with citizens. These may be referred to.

3. It is requested that an early action may be initiated by each ULB to create their respective Facebook page, which may be monitored as a process indicator under Swachh Bharat Mission. In the initial run, all cities above one lakh population should strive to create the Facebook page by 30th June, 2015.

4. Essay Writing & Poster Making

It is also requested that, ULBs may be directed to conduct essay writing and poster making competitions at school and college level as part of awareness generation among youth.

SUB: Tour programme to visit Asansol town on 22.5.2015 and District level meeting on SBM at Bardhaman on 23.5.2015 to accompany with MoS (UD&HUPA).

Sir,

The following officers of CPHEEO have been deputed to accompany with Hon'ble Minister of State (Urban Development & HUPA) for visit to Asansol on 22.5.2015 and District level meeting of SBM to be held on 23.5.2015 at Bardhaman.

Mr. Vijai Kumar Chaurasia, Joint Adviser (PHEE)
 Mr. Amit Kumar Saha, Assistant Adviser (PHE)

The tour program of the aforesaid officers is placed below:

Date	Time	Departure	Arrival	Mode of transportation
21.05.2015	4:25 PM	Delhi	--	By Sceldah Rajdhani
22.05.2015	7:15 AM	--	Asansol	(12314)
23.05.2015	3 PM	Bardhaman	Kolkata	By Car
23.05.2015	2015 PM	Kolkata	Delhi 2215	AI 23

It is requested to make necessary arrangements for accommodation in Asansol on 22.5.2015, transport from Asansol to Bardhaman in the morning of 23.05.2015 and Bardhaman to Kolkata Airport in the afternoon. It is also requested that the contact person for the visit may be forwarded by SMS to 09911687501/09818225985.

Yours Sincerely,

From: Director

To: Joint Secretary
M.A. DepartmentSub: Implementation of Swachh Bharat Mission

Sir,

In enclosing herewith copies of Memo No. 169/Ew/Eng115 dated 22.05.2015 from Member, Board of Adminsitator, Asansol Municipal Corporation and Memo No. 1424/KM dated 22.05.2015 from Chairperson, Kalimpong Municipality I am to state that it would be desirable to implement the different components under SBM based on an Action Plan to be drawn up for the purpose rather than on a piece-meal or adhoc basis as requested for in the communications stated above.

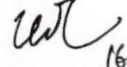

While drawing up the Action Plan mobilization of funds for field level execution of the different components will also have to be considered carefully particularly in the light of the inordinately low Central contribution as per prevailing Guidelines.

In this connection it may be pointed out that a note was submitted from this Office to the Department for evolving a workable policy for utilization of the Central funds already received by the State Govt. The M.A. Department is requested to consider the proposals and evolve necessary policies.

A copy of notes earlier submitted to the Department is enclosed for ready reference.

Yours faithfully,

New Delhi - 110011, Dated the 201

D.O.No.15/3/2015-SBM

Dated 08.06.2015

Dear

Govt. of India launched Swachh Bharat Mission on 2.10.2014 in order make our country clean and open defecation free by October, 2019. Funds for SBM has already been released to all States the details may be available in the website of www.swachhbharaturban.gov.in.

Your city is one of the 53 metro cities having population more than 10 lakh. The role of city in the implementation of SBM is very crucial for achievement of Swachh Bharat. The targets along with GOI funds available for Kolkata under SBM are as given below -

Item no.	Particulars	Targets	GoI outlay (in Rs lakh)
1	Individual Household Toilet (nos)	35872	1435
2	Community toilet/ (nos)	210	55
3	Public toilet seats	4491	Through PPF model
4	Solid Waste Management (Metric Ton)	2024	4868
5	Information Education & Communication	15%	954
6	Capacity Building and A&OE	5%	318
	Total funds available under SBM		7629

In view of above, you are requested to take advantage of SBM to make your city clean. In this regard I would like to have a teleconference with you on 08.06.2015 at 3:20 PM to understand the progress made so far in implementation of SBM and future Action Plan to achieve the targets.

With regards,

Yours Sincerely,

(Praveen Prakash)

ESTIMATE FOR THE WORK OF "TWO PIT POUR FLUSH LATRINE WITH BRICK WORK (75 mm thick Brick wall)"

RATES BASED ON P.W.D. SHEDULE OF RATES 2014 W.E.F. 01.07.2014

Sl. No.	Description of Work	Quantity	Unit	Rate	Amount
1 p-1	Earth work in excavation of foundation trenches or drains, in all sorts of soil (including mixed soil but excluding laterite or sandstone) including removing, spreading or stacking the spoils within a lead of 75 m, as directed. The item includes necessary trimming the sides of trenches, leveling, dressing and ramming the bottom, bailing out water as required complete.				
I-2	Depth of excavation not exceeding 1500 mm.	3.226	%cu.m.	12047.00	388.64
2 P-1	Earth work in filling in foundation trenches or plinth with good earth, in layers not exceeding 150 mm. including watering and ramming etc. layer by layer complete.(Payment to be made on the basis of finished quantity of work)				
I-3	i) With earth obtained from excavation of foundation	1.249	%cu.m.	7831.00	97.81
3 P-11	Cement concrete with graded jhama khoa (30 mm. Size) excluding shuttering.				
I-4	In ground floor, and foundation 8 : 4 : 1 Proportion	0.285	cu.m.	5511.00	1570.64
4 P-11	Nominal Mix (4:2:1) Cement concrete with graded stone chips (20mm size) excluding shuttering and reinforcement, If any. In ground floor.				
I-5	Pakur/Chandil Variety In ground floor.	0.23	cu.m.	6451.66	1483.88
5 P-27	Reinforcement for reinforced concrete work in all sorts of structures including distribution bars, stirrups, binders etc. including supply of rods, initial straightening and removal of loose rust (if necessary), cutting to requisite length, hooking and bending to correct shape, placing in proper position and binding with 16 gauge black annealed wire at every inter-section, complete as per drawing and direction.				
I-15	For works in foundation, basement and upto roof of ground floor/upto 4 m. Tor steel / Mild steel	0.0185	MT	68508.00	1267.40
6 P-45	Supplying and laying Polythene Sheet (150gm/sq.m.) over damp proof course or below flooring or roof terracing or in foundation trenches.				
I-13		2.08	sq.m.	25.00	52.00
7 P-29	Brick work with 1st class bricks in cement mortar (4:1)				
I-21	In foundation and plinth	0.27	cu.m.	6068.00	1638.36
8 P-32	75mm thick brick work with 1st class bricks set in sand,cement mortar(4:1) in Ground Floor including H.B.netting in every alternate layers				
I-34		8.00	sq.m.	537.00	4296.00
9 P-31	125 mm. thick brick work (solid & honey comb) with 1st class bricks in cement mortar (4 : 1) in ground floor.				
I-29		10.196	sq.m.	783.00	7983.47
10 P-151	Plaster (to wall, floor, ceiling etc.) with sand and cement mortar including rounding off or chamfering corners as directed and raking out joints or roughening of concrete surface,including throating, nosing and drip course where necessary (Ground floor)

Sub: An Action Plan for Implementation of Schemes under Swachh Bharat Mission

It may be recalled that the Government of India launched Swachh Bharat Mission (SBM) from 2nd October 2014. It is a 5-Year programme to be implemented in Mission Mode and aims at Comprehensive Sanitation Planning, Behavioural Change Strategy, Effective Public Sector Participation and Capacity Building. All Statutory Towns (Urban Local Bodies) will be covered under the Mission.

The Government of India invited Concept Notes and Component wise Action Plan from the States for consideration and release of funds during 2014-15. In response, the State Government in the prescribed format in Annexure-IV of the Guidelines (placed in **Flag-A**) submitted necessary information and action plan to the Gol with the approval of MIC.

The proposals envisage

- Construction of new Individual Household Latrines (IHL),
- Conversion of existing Pit Latrines & Insanitary Latrines into Sanitary Latrines.
- Construction of Community Toilets
- Construction of Public Toilets
- Solid Waste Management
- Capacity Building
- Public Awareness & IEC

The proposals for 2014-15 were also submitted to the Gol in terms of Physical Target and Financial Involvement. The Total Cost involved for envisaged programme for 2014-15 as per prevailing cost norms came to Rs. 587.05 Crore out of which the Central Share was Rs. 142.32 Crore. The Concept Note, Institutional Mechanisms, Component wise Action Plan and Financial Implications as submitted to Gol may be seen in **Flag-B**.

The Gol in response to the proposal submitted by State Government released a sum of Rs. 64.01 Crore as per the following break up:

• Individual Household Toilets	: Rs. 18.05 Crore
• Community Toilets	: Rs. 3.07 Crore
• Solid Waste Management	: Rs. 34.54 Crore
• Public Awareness & IEC Activities	: Rs. 6.68 Crore
• Capacity Building	: Rs. 1.67 Crore

Total : Rs. 64.01 Crore

Since the programmes under SBM are to be implemented in a Mission Mode and the Gol has already released considerable funds for execution of the approved schemes in the first year, it is necessary to prepare a Crash Action Plan for processing the prerequisites like putting in place necessary Institutional Arrangements and evolve appropriate guidelines for field level Implementation. Since all the municipal towns in the State are to be covered under SBM, a strategy is required to be evolved as to whether all the towns would be taken up simultaneously under Mission activities or in batches. It may be noted in this connection that the envisaged Mission Programme should be preferably completed by 2017-18 allowing an eventual spill over to 2018-19. The Mission ends on 2nd October, 2019.

In consideration of what have been stated in the foregoing paragraphs, the following actions may be taken immediately:

A. Institutional Mechanism:

1. Notification declaring State Urban Development Agency as State Nodal Agency and its Director as State Level Nodal Officer.
2. Notification for Constitution of State High Powered Committee with Secretaries of the concerned Departments like Finance, Municipal Affairs, Urban Development, Environment, L&LR and also regulatory organizations like WBPCD, representatives from selected ULBs, NGOs and Govt. nominees.
3. Notification declaring the State Urban Development Agency as State Mission Directorate for implementation of SBM.
4. Setting up of PMU/PIU at State & City Level with appropriate Experts in the field of Public Health Engineering, Solid Waste Management, Social Development, Finance cum PPP etc. and support staff. PMU/PIU should be outsourced to an agency.
5. Since implementation of SBM will be in a crash mode the present capacity of the Engineering Outfit in the implementing ULBs will be required to be augmented suitably. A State Advisory in this regard may be issued as was done in the case of JnNURM.

B. Planning/DPR Preparation:

1. Preparation of State Sanitation Strategy as required under National Urban Sanitation Policy 2008.
2. Preparation of City Sanitation Plans
3. Preparation of DPRs particularly for SWM Projects (Cluster or Stand Alone)

C. Operational Mechanism:

1. Year-wise identification of Towns to be covered
2. Preparation of Operational Guidelines for field level implementation including spelling out responsibilities of different stakeholders.
3. Fixing up Operation and Maintenance Strategy
4. Preparation of Awareness Generation Strategic Plan alongwith involvement of NGOs and preparation of relevant IEC materials.
5. Decision on land issues particularly for processing and disposal in SWM projects.

D. Financial:**‘C’**

1. The First Installment released by GoI needs to be credited by 31st March 2015 in SUDA to an appropriate Account.
2. A new Budget Head for Central Share as well as State Share may be required to be opened for this purpose.
3. The Central Share for the different Components is much on the lower side as per the guidelines. The GoI may be requested to revise the funding pattern as suggested below:

Sl No	Component	Central Share as per existing guidelines	Proposed Central Share	Remarks
1	Individual Household Toilet*	Rs. 4000/- per Toilet	Atleast 90% of unit cost	Prevailing unit cost-Rs.24000/-
2	Community Toilet	40% of unit cost	Atleast 90% of unit cost	Prevailing unit cost Rs.80000/- per seat
3	Public Toilet	Nil	Atleast 90% of unit cost	Prevailing unit cost Rs.80000/- per seat
4	Solid Waste Management	20% of Project Cost	Atleast 75% of Project Cost	

** Beneficiary's Contribution may be eliminated or at best a token amount may be fixed up.*

(Sujay Mitra)
Poverty Monitoring Expert

(S.K.Mukherjee)
Technical Advisor

Director

Note from pre page & above.

As stated at 'A', MoUD, GoI has sanctioned Rs. 64.01 Crore under SBM as 1st Installment in 2014-15, for which preparation of schemes/DPR, finalization of unit cost, model of Individual/Community Toilets etc. need to be finalized before taking up the field level execution early. Necessary instruction in this regard is solicited.

Further, MA Department may issue necessary Notification/Order for Institutional Arrangement as well as take necessary step for release of fund (GoI share & State share) as proposed at 'B' & 'C'.

Subject- Focus on Open Defecation Free (ODF) Municipal Wards

Dear Sir,

As you are aware, Swachh Bharat Mission (SBM) has been launched on 2nd Oct 2014 with two pronged focus to make the Country Open Defecation Free (ODF) and also bring acceptable level of cleanliness in Cities / Towns. While deliberating upon the subject at various fora, it has emerged that since a Municipal Ward is the basic functional unit in Urban areas, a "bottom up" approach starting from Ward level would be most appropriate way to achieve the objectives of ODF Towns.

An ODF Ward would essentially have the following characteristics:

- 1) Sanitary toilets in each household.
- 2) Where not practicable due to space constraints, a set of households are clubbed together to use a Community Toilet constructed in the immediate vicinity, not in any case more than 500 m distance from the user's household.
- 3) Public Toilets are provided as per established standards in commercial establishments such as markets, cinema halls, multiplexes, theatres, museums, hotels, restaurants hospitals and office buildings. In addition, by the municipal authorities to cater for the floating population. It is also recommended that a person should not have to travel more than 1 km to find Public Toilet.

I request you to devise innovative methods to incentivise ward level officials for achieving "Open Defecation Free Wards" under the Mission.

Yours Sincerely,

(Praveen Prakash)

D.O. letter no. 4/1/2015-SBM

New Delhi dated 11 March 2015

Dear Sir/Madam

As you are aware the Swachh Bharat Mission has been launched on 2nd October 2014 under which Open Defecation free villages/towns and communities are to be achieved by 2nd October 2019.

The Government of India has been receiving repeated representations from the public requesting that all public offices should have clean toilets for the use of the public. In this domain fall Banks, Post Offices, Petrol Pumps, Bus Stops, Railway Stations, Metro stations, Hospitals, Schools, Health Centers, Anganwadis, Citizen Centers etc.

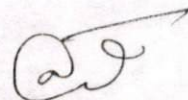

For the convenience of the public, at each public place there should be available at least one toilet. It has also come to notice that in some cases where a toilet is provided, it is either kept locked or lacks cleanliness and therefore remains unusable.

Keeping in view the above mentioned facts, instructions may be issued to all the municipal commissioners, civic bodies etc to ensure that toilets are kept in a working condition and are open for public use at the earliest.

A monitoring system also needs to be put in place to ensure that this facility is well maintained and available to the general public.

With regards

Yours sincerely

(Praveen Prakash)

Dear Sir / Madam

March 24, 2015

I would like to bring to your notice that the Ministry of Urban Development has launched a new website for the Swachh Bharat Mission i.e. swachhbharaturban.gov.in replacing the earlier website viz. moudulbs.nic.in.

2. In order to ensure that log in credentials in all ULBs in your State for the website is made available, the credentials received from NIC is enclosed. You are requested to further redistribute the same to the respective ULBs in your State so that they can immediately log in to the portal for further action.

3. I would like to bring to your attention that the online application for household toilets is now live and may be accessed through swachhbharaturban.gov.in.

With regards

Yours sincerely,

Director

D.O. Letter No. K-14013/1/2015-N-IV

Dear Sir,

FA
IA
Dated 9th January 2015

Seen
IA
21-1-15

Building capacities in urban planning, city management, financial accounting, service delivery and urban governance are some of the critical challenges of urbanization. Recognizing the challenges faced by the urban sector, this Ministry has announced momentous urban sector programmes such as the Swachh Bharat Mission; SMART CITIES Mission; Heritage City Development and Augmentation Yojana (HRIDAY) Programme; the NUDM of 500 Cities, etc. It is essential to disseminate information about these new initiatives of Government of India, and for sensitizing the officials and elected representatives governing ULBs on the basic urban reform agenda.

2. For sound and effective planning and implementation of these programmes and for their sustainability, the State Governments' and Urban Local Bodies, who are the primary stakeholders, are to play a critical role. In order to ensure this, interaction with the officials of the State Government Departments of Urban Development and the elected representatives and municipal personnel of Urban Local Bodies on the vision, objectives and components of the various Missions/programmes has been considered as a sine qua non.

3. Against this background, the **MoUD in association with Department of Municipal Affairs, Government of WB, is organizing a "Consultative Workshop on Urban Governance" to be held in Kolkata, on 20th January 2015** in which participants from the State Governments of Bihar, Jharkhand, Odisha, West Bengal, Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. Municipal Commissioners of Class 1 cities have been invited to participate.

4. The Hon'ble Minister for Urban Development has kindly consented to grace his presence in the Workshop.

5. Hence, I request you kindly make it convenient to participate in the Workshop along with Municipal Commissioners of all Class I ULBs pertaining to your State. This will greatly enrich its deliberations. I hope that you will positively respond to our invitation.

5

The detailed Agenda, background notes, details of venue and contact person will be sent to you shortly.

With regards

Yours sincerely,

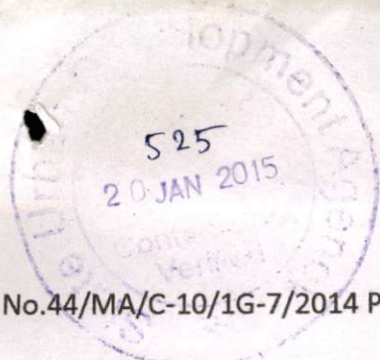

(Shubha Thakur)
Director

New Delhi - 110011

Dated 16th December, 2014

D.O. No.Q-16019/1/2014-CPHEEO

Dear Sir,

You are aware that the Govt. of India has launched Swachh Bharat Mission on 2nd October, 2014.

2. In this context, the Ministry of Urban Development has developed an interactive web based platform where the current status of the mission could be regularly updated. The database will capture existing infrastructure as well as proposed infrastructural needs of the ULBs besides providing a ringside view of ongoing cleaning activities in cities/towns.

3. You are requested to advise all Municipal Commissioners/ Executive Officers of ULBs in your State to familiarise themselves with this interactive database and ensure updating Ward-level baseline information on priority. It can be accessed at <http://moudulbs.nic.in>. For this, the ULBs shall have to create a system for regular updation within their own resources. Besides, the municipal Wards must ensure regular, near real time feeding of all activities pertaining to Swachh Bharat Mission to the above system in their ULB for updation on daily basis. As you will notice from the website, this is not a very time consuming and difficult task.

4. The ULBs shall be provided with a unique user ID and password which may be collected centrally from Sh.Vinay Aggarwal, Principal System Analyst, NIC-MoUD through e-mail at sbm-mud@nic.in, (Tel 011-23061246). May I call upon you to verify the authenticity of data being entered by the ULBs and Wards by visiting the abovementioned website frequently.

5. In order to sensitise the matter and to clear any doubts, Secretary(UD) is holding an interactive meeting through video conferencing with Principal Secretaries and all Commissioners/Chief Executive Officers of **all cities on 26th December, 2014 at 12 Noon**. May I request your participation along with all Municipal Commissioners/Chief Executive Officers of the ULBs in your State in the Video Conference. It is understood that each city official may have to come to its concerned district headquarter at the maximum, to participate in the video conference. There is no need to assemble at a central place anywhere. The Video Conference is likely to last for about an hour.

6. I would be grateful, if suitable instructions are issued to all cities, as well as NIC centres at district headquarters, to prepare & participate accordingly.

Yours Sincerely,

(Neeraj Mandloi)
