04/07/19

SUDA have received the SWM equipment and vehicles proposals from different ULBs time to time. Now, to comply with SWM Rules 2016, ULBs are requiring different kinds of vehicles & equipments, which may be provided centrally from SUDA, to strengthen the ULBs in managing solid waste within their municipal area.

Note prepage, the requirement of tractors with trailer as obtained from different ULBs, is tabulated. As per note of the concerned AE, we may propose a total of 93 nos. vehicle, to be procured from Gem Portal, in 1st phase. Fund for procurement of the vehicle is available in SBM fund of SUDA.

The proposal is thus placed in this file for kind approval.

Submitted.

D.D. (SUDA)

How the tractors will be utilised in transporting wastes? Will it be compartmentalised to carry segregated waste? Plz put up accordingly.
J-2/7

EE/SUDA
(N.R. Pal)

Tractors, without the agricultural attachments are really very useful to carry and move trailers, refuse trailers, cesspool machines etc. Tractors may have hydraulic system to make tilt the refuse trailer and can dispose waste accordingly.

Again, compartmentalised TT containers can also be carried by the tractors, that are extensively used in KSWMP ULBs.

Hence, we may procure Tractor with attached trailer (compartmentalised) jointly or separately, as per the specifications available in Government & Marketplace (Gem).

Submitted & oblige.

Dy. Director (SUDA).

11/7/19.

It appears that tractors may be utilized with attached trailers for transportation of waste in a segregated way in compliance with the provision of SWM Rule 2016.

As such, as proposed, we may go for procurement of the same through GEM portal.
Placed for kind perusal.
